DANGER

Handset, Battery & Charger

Use specified battery, Charger and Desktop Holder only (P.x). 

Using non-specified equipment may cause malfunctions, electric shock or fire due to battery leakage, overheating or bursting.

Do not short-circuit Charger terminals. 

Keep metal objects away from Charger terminals. Keep handset away from necklaces, hairpins, etc. Battery may leak, overheat, burst or ignite causing injury. Use a case to carry battery.

Battery

Prevent injury from battery leakage, breakage or fire. Do not: 

- Heat or dispose of battery in fire
- Open/modify/disassemble battery
- Damage or solder battery
- Use a damaged or deformed battery
- Use non-specified charger (P.x)
- Force battery into handset
- Charge battery near fire or sources of heat; or expose it to extreme heat
- Use battery for other equipment

If battery fluid contacts eyes, do not rub them. Rinse with clean water and consult a doctor immediately. 

Eyes may be severely damaged.

WARNING

Handset, Battery & Charger

Do not insert foreign objects into the handset, Charger or Desktop Holder.

Do not insert metal or flammable objects into handset, Charger or Desktop Holder; may cause fire or electric shock. Keep out of children's reach.

Keep handset out of rain or extreme humidity.

Fire or electric shock may result.

Keep handset away from liquid-filled containers.

Keep the handset, Charger and Desktop Holder away from chemicals or liquids; fire or electric shock may result.

Keep battery, handset, Charger or Desktop Holder away from microwave ovens.

Battery, handset, Charger or Desktop Holder may leak, burst, overheat or ignite, leading to accidents or injury.

Do not disassemble or modify handset or related hardware.

- Do not open handset, Charger or Desktop Holder; may cause electric shock or injury. Contact SoftBank Customer Center, Customer Assistance for repairs.
- Do not modify handset, Charger or Desktop Holder; fire or electric shock may result.

Do not use Mobile Light near people's faces.

May temporarily affect sight leading to accidents.

CAUTION:

Use of controls, adjustments or performance of procedure other than those specified herein may result in hazardous radiation exposure. As the emission level from Mobile Light LED used in this product is harmful to the eyes, do not attempt to disassemble the cabinet. Servicing is limited to qualified servicing station only.

If water or foreign matter is inside handset:

Discontinue handset use to prevent fire/electric shock. Turn off handset, remove battery and unplug Charger, then contact SoftBank Customer Center, Customer Assistance.

WARNING

Handset, Battery & Charger

Keep handset off and Charger disconnected near filling stations or places with fire/explosion risk.

Handset use near petrochemicals or other flammables may cause fire/explosion; turn handset off before using S! FeliCa at filling stations (cancel IC Card Lock beforehand).

Do not subject handset, Charger or Desktop Holder to strong shocks or impacts.

- Avoid strong shocks to AC Charger while it is plugged into the outlet; may cause malfunction or injury.
- Strong shocks or impacts to handset, Charger or Desktop Holder may cause malfunction or injury. Should handset be damaged, remove battery then contact SoftBank Customer Center, Customer Assistance. Discontinue handset use; fire or electric shock may occur.

If an abnormality occurs:

If a handset emits an unusual sound, smoke or odor, discontinue use; may cause fire or electric shock. Turn off handset, remove battery and unplug Charger; contact SoftBank Customer Center, Customer Assistance.

Handset

Take measures to prevent accidents.

- Do not use handset while driving; park beforehand. Mobile phone use while driving is prohibited by the Road Traffic Law (revised November 1, 2004).
- Do not use Headphones while driving or cycling. Accidents may result.
- Moderate volume outside, especially near road/rail crossings, etc. to avoid accidents.

Do not swing handset by Headphones or strap.

May result in injury or breakage.

Turn handset power off before boarding aircraft.

Using wireless devices aboard aircraft may cause electronic malfunctions or endanger aircraft operation.

Adjust vibration and ringtone settings:

Users with a heart condition/pacemaker/defibrillator should adjust handset settings accordingly.

During thunderstorms, turn power off; find cover.

There is a risk of lightning strike or electric shock.

WARNING

Charger

Use only the specified voltage.

Non-specified voltages may cause fire or electric shock.

- **AC Charger: AC 100V-240V Input**
- **In-Car Charger: DC 12V-24V Input**

Do not use In-Car Charger in positive earth vehicles.

Fire may result. Use In-Car Charger in negative earth vehicles only.

Charger care

- Do not touch with wet hands. Electric shock may occur.
- Pull AC Charger straight out to unplug it; may cause malfunction or injury.
- Do not use multiple cords in one outlet; may cause excess heat/fire.
- Do not bend, twist, pull or set objects on cord. Exposed wire may cause fire or electric shock.

Do not short-circuit Charger terminals.

May cause overheating, fire or electric shock. Keep metal away from terminals.

Do not use Desktop Holder inside vehicles.

Extreme temperature or vibration may cause fire or damage handset, etc.

Take measures to prevent accidents.

Secure In-Car Charger to avoid injury or accidents.

Damaged AC Charger/In-Car Charger cord:

May cause fire or electric shock; discontinue use and purchase a new Charger.

During thunderstorms:

Unplug Charger to avoid damage, fire or electric shock.

Charger/Desktop Holder use and children:

May cause electric shock/injury; keep out of reach.

WARNING

Battery

- If battery does not charge properly, stop charging. Battery may overheat, burst or ignite.
- If there is leakage or abnormal odor, avoid fire sources. Battery may catch fire or burst.

If there is abnormal odor, excessive heat, discoloration or distortion, remove battery from handset. It may leak, overheat or explode.

Handset Use & Electronic Medical Equipment

This section is based on "Guidelines on the Use of Radio Communications Equipment such as Cellular Telephones and Safeguards for Electronic Medical Equipment" (Electromagnetic Compatibility Conference, April 1997) and "Report of Investigation of the Effects of Radio Waves on Medical Equipment, etc." (Association of Radio Industries and Businesses, March 2001).

Persons with implanted pacemaker/defibrillator should keep handset more than 22 cm away.

Radio waves can interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

Turn handset off in crowds or trains where persons with implanted pacemaker/defibrillator may be near.

Radio waves can interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

Observe these rules inside medical facilities:

- Do not enter an operating room or an Intensive or Coronary Care Unit while carrying a handset.
- Keep handset off in hospitals, including lobbies.
- Obey medical facility rules on mobile phone use.

Consult electronic medical equipment vendor on radio wave effects.

CAUTION

Handset, Battery & Charger

Handset care

- Place handset on stable surfaces to avoid malfunction or injury.
- Keep handset away from oily smoke or steam. Fire or accidents may result.
- Cold air from air conditioners may condense, resulting in leakage or burnout.
- Keep handset away from direct sunlight (inside vehicles, etc.) or heat sources. Distortion, discoloration or fire may occur. Battery shape may be affected.
- Keep handset out of extremely cold places to avoid malfunction or accidents.
- Keep handset away from fire sources to avoid malfunction or accidents.

Usage environment

- Excessive dust may prevent heat release and cause burnout or fire.
- Avoid using handset on the beach. Sand may cause malfunction or accidents.
- Keep handset away from credit cards, telephone cards, etc. to avoid data loss.

Handset

Handset temperature

Handset may become hot while in use. Avoid prolonged contact with skin especially at high temperature. May cause burn injuries.

Avoid leaving handset in extreme heat (inside vehicles, etc.).

Handset may become hot to the touch, leading to burn injuries.

Volume settings

Moderate handset volume; excessive volume may damage ears or hearing.

Headphones

- Do not force plugs or pull on cord; may damage plugs or cord.
- Keep plugs clean to avoid noise and malfunction.

Inside vehicles

Handset use may cause electronic equipment to malfunction.

CAUTION

Handset

If you experience any skin irritation associated with handset use, discontinue handset use and consult a doctor.

See handset materials below. Some materials may cause skin irritation, rashes, or itchiness depending on your physical condition.

CAUTION

Charger

Charger & In-Car Charger

- Grasp plug (not cord) to disconnect Charger. May cause fire/electric shock.
- Keep cord away from heaters. Exposed wire may cause fire or electric shock.
- Stop use if plug is hot or improperly connected. May cause fire/electric shock.
- Keep In-Car Charger socket clean. May overheat and cause injury.

Do not touch Desktop Holder while in use.

May cause burn injuries.

Use only the specified fuse.

1 A fuse for In-Car Charger. Or may cause damage/fire.

Always charge battery in a well-ventilated area.

Avoid covering/wrapping Charger and Desktop Holder; may cause damage/fire.

Do not use In-Car Charger when engine is off.

To avoid weakening the car battery, always start engine before charging the handset using In-Car Charger.

During periods of disuse

Always unplug AC Charger or In-Car Charger after use.

Handset maintenance

Always disconnect AC Charger or In-Car Charger when cleaning handset.

In-Car Charger installation

Properly position the cable for safe driving to avoid injury or accidents.

CAUTION

Battery

Do not throw or abuse battery. Battery may overheat, burst or ignite.

Do not leave battery in direct sunlight or inside a closed vehicle; may reduce battery performance or overheat. An overheated battery may cause fire.

Do not expose battery to liquids. Performance may deteriorate.

If battery fluid contacts skin or clothes, rinse with clean water immediately.

Do not dispose of an exhausted battery with ordinary refuse; always tape over battery terminals before disposal. Take exhausted battery to a SoftBank shop, or follow the local disposal regulations.

Keep battery out of children's reach.

- Charge battery in ambient temperatures between 5°C and 35°C; outside this range, battery may leak/overheat and performance may deteriorate.
- If your child is using handset, explain all instructions and supervise usage.
- If there is abnormal odor or excessive heat, stop using battery and call SoftBank Customer Center, Customer Assistance.
- Charge battery at least once every six months; an uncharged battery may become unusable.

General Notes

General Use

- SoftBank is not liable for any damages resulting from accidental loss/alteration of handset or Memory Card data. Keep a copy of Phone Book entries, etc. in a separate place.
- Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places.
- Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Handset use near landlines, TVs or radios may cause interference.
- **Beware of eavesdropping.**
Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.

Eavesdropping

Deliberate/accidental interception of communications constitutes eavesdropping.

Inside Vehicles

- Never use handset while driving.
- Do not park illegally to use handset.
- Handset use may affect a vehicle's electronic equipment.

Aboard Aircraft

Never use handset aboard aircraft (keep power off).

Handset use may impair aircraft operation.

Handset Care

- If handset is left with no battery or an exhausted one, data may be altered/lost. SoftBank is not liable for any resulting damages.
- Use handset between 5°C - 35°C (35% - 85% humidity). Avoid extreme temperatures and direct sunlight.
- Exposing lens to direct sunlight may damage color filter and affect image color.
- Do not drop or subject handset to shocks.
- Clean handset with dry, soft cloth. Using alcohol, thinner, etc. may damage it.
- Do not expose handset to rain, snow or high humidity.
- Never disassemble or modify handset.
- Avoid scratching handset Display.
- When closing handset, keep straps, etc. outside to avoid damaging the Display.
- When using Headphones, moderate volume to avoid sound bleed.
- **Function Usage Limits**
These functions are disabled after handset upgrade/
replacement or service cancellation:
 - Camera ■ Media Player ■ S! Applications ■ TV
- **Handset is not water-proof. Avoid exposure to liquids and high humidity.**
 - Keep handset away from precipitation.
 - Cold air from air conditioning, etc. may condense causing corrosion.
 - Avoid dropping handset in damp places (toilet, bathroom, etc.).
 - On the beach, keep handset away from water and direct sunlight.
 - Perspiration may seep inside handset causing malfunction.
- **Avoid heavy objects or excessive pressure. May cause malfunction or injury.**
 - Do not sit down with handset in a back pocket.
 - Do not place heavy objects on handset in a bag.
- Connect only specified products to AV OUT/Headphone Port. Other devices may malfunction or cause damage.
- Always turn off handset before removing battery. If battery is removed while saving data or sending mail, data may be lost, changed or destroyed.

After a period of disuse, these functions may be unusable; retrieve Network Information (**P.11-11**) to restore usability.

Specific Absorption Rate (SAR)

912SH meets the government's requirements for exposure to radio waves.

These requirements are based on scientific basis to assure that radio waves emitted from mobile phones and other handheld wireless devices do not affect human health. They require that the Specific Absorption Rate (SAR), which is the unit of measurement for the amount of radiofrequency absorbed by the body, shall not exceed 2 W/kg^* .

This limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age or health, and meets the international standard set by International Commission on Non-Ionizing Radiation Protection (ICNIRP) in cooperation with World Health Organization (WHO).

The highest SAR value for 912SH is 0.237 W/kg . Tests for SAR are conducted with handset transmitting at its highest certified power level, and follow the testing methods set by the government. While there may be differences between the SAR levels for various handsets, they all meet the governmental requirements for safe exposure. The actual SAR level of the handset while operating can be well below the highest value. This is because the handset is designed to operate at multiple power levels so as to use only the power required to reach the Network.

Additional information on SAR can be obtained on the Websites on the right.

USIM Card

About USIM Card

Universal Subscriber Identity Module (USIM) Card is an IC card containing customer and authentication information, including the handset number, and limited storage for Phone Book entries and SMS messages. USIM Card must be inserted to use this handset.

- Save contacts on USIM Card Phone Book (P.4-3).
- Insert into compatible SoftBank handsets to access files.
- Do not apply excessive force to insert/remove USIM Card.
- Do not insert USIM Card into any other IC card device.

SoftBank is not liable for resulting damages.

- Keep the USIM Card IC chip clean; malfunction may result.
- Use a dry, soft cloth to clean the USIM Card.
- Do not attach labels to USIM Card. Malfunction may result.

Note ▶ Some downloaded files may be inaccessible after repairs, USIM Card replacement or handset upgrade/replacement. In addition, S! Applications, BookSurfing®, S! Town and Near Chat may be disabled after USIM Card replacement.

■ If Handset is Dropped or Subjected to Shocks

Handset may not recognize USIM Card;

REFRESH appears and handset returns to Standby. This is not a malfunction. If **Insert USIM Card** appears or handset does not restart, clean and properly reinsert USIM Card then restart handset.

Important

- USIM Card is the property of SoftBank.
- USIM Card will be reissued for a fee if lost or damaged.
- Return USIM Card to SoftBank upon subscription termination.
- Returned USIM Cards are recycled.
- USIM Card specifications may change without prior notice.
- Backup USIM Card files. SoftBank is not liable for lost files.
- If your USIM Card or handset (with USIM Card inserted) is lost or stolen, suspend your service immediately. For details, contact SoftBank Customer Center, General Information (P.21-39).

USIM Card Installation

- Follow the steps below after removing battery (P.1-12).
- Take care not to lose removed USIM Card.

Inserting

- 1 Using Tab, pull out Tray as shown until it clicks
- 2 Slide in USIM Card with IC chip facing up
- 3 Push in Tray fully
- 4 Insert battery (Steps 3 - 4 in "Inserting" on P.1-12)

Removing

- 1 Using Tab, pull out Tray as shown until it clicks
- 2 Hold down Tab and lift USIM Card as shown
- 3 Slide out USIM Card as shown
- 4 Insert battery (Steps 3 - 4 in "Inserting" on P.1-12)

USIM PINs

There are two Security Codes for USIM Card: **PIN1** and **PIN2**. PIN 1 and PIN 2 are **9999** by default; change as needed (P.10-23).

| | |
|-------------|---|
| PIN1 | A 4-digit Security Code to prevent unauthorized use of handset; required when PIN Entry (P.10-23) is active |
| PIN2 | Required to clear Call Costs and to set Max Cost (P.10-25) |

PIN Lock & PUK Code

PIN1 Lock or PIN2 Lock is activated if PIN1 or PIN2 is incorrectly entered three times consecutively. Cancel PIN Lock by entering the Personal Unlocking Key (PUK Code). For information on PUK Code, contact SoftBank Customer Center, General Information (P.21-39).

Canceling PIN Lock

- Open a function requiring PIN ➔ Enter PUK Code ➔ Press ➔ Enter new PIN ➔ Press ➔ Re-enter new PIN ➔ Press
- If PUK Code is incorrectly entered ten times consecutively, USIM Card is locked and handset is disabled. Write down PUK Code. For USIM Card unlocking procedures, call SoftBank Customer Center, General Information (P.21-39).

About Battery

Battery & Charger

Charge battery before first use/after period of disuse.

Battery Life

- Do not use/store battery at extreme temperatures; this may shorten battery life.
Ideally, use/store between 5°C - 35°C.
- Use specified Charger only; others may damage handset/battery or overheat or ignite battery.
- Replace battery if operating time shortens noticeably.

Charging

- Do not use Charger for other purposes.
- Contact with metal may short, overheat or burst battery.
- Small Light illuminates red while charging. (It may take longer for the light to illuminate when handset is off.)

- Charging via AC Charger takes approximately 150 minutes (with handset off).
 - **Charging time may vary by ambient temperature.**
- Handset and Charger may warm during charging.
- Separate Charger from TV/radio if interference occurs.

Precautions

- Clean device charging terminals with a dry cotton swab.
- Avoid:
 - Extreme temperatures
 - Humidity, dust and vibration
 - Direct sunlight
- Charge battery at least once every six months; an uncharged battery may become unusable.
- Use a case when carrying battery separately.

- Tip** ►
- Battery must be inside handset to charge it.
 - While charging battery with handset on,  flashes until battery is fully charged.
 - Charge battery via PC USB port (**P.11-11** "USB Charge").

Estimated Hours of Use (fully charged battery)

| | |
|-----------------------------------|--|
| Continuous Talk Time (P.21-20) | 270 minutes |
| Continuous Standby Time (P.21-20) | 370 hours |
| Continuous Operating Time | 5 hours |
| Continuous Playback Time | 17 hours |
| Continuous Video Call Talk Time | 110 minutes (with Internal Camera in use) |
| Continuous TV Reception Time | 5 hours and 20 minutes |
| Continuous TV Recording Time | 4 hours and 45 minutes |

Values calculated with Backlight Brightness set to **Level:2(Auto)**.

- Continuous Operating Time is the length of time handset keys can be pressed continuously without calls.
- Continuous Playback Time is measured while music plays (Sound Effects set to **Normal**) using Headphones, Offline Mode canceled, and in closed position.
- Continuous TV Reception Time is measured while watching TV (Audio & Visuals set to **Standard**) using Headphones, until battery level falls to Level 1 (approximately 10% of capacity).
- The above values (Battery Time) are nominal values, measured under stable signal conditions.

Battery Time

Using handset in poor conditions may shorten Battery Time:

• Power Consuming Operations

- Watching TV or recording/playing programs
- Activating/using S! Applications
- Repeated mobile camera use or barcode scanning
- Frequent use of Mobile Light
- Playing video images
- Frequent Use of Pen Light
- Continuous Keypad use (keeping backlights on for long periods)
- Using Music Player/Voice Recorder
- Frequent Bluetooth® transmissions
- Frequent infrared transfers
- Frequent opening/closing of handset
- Signal is weak/handset is out-of-range

• Power Consuming Settings

- Increasing Backlight Time Out/Display Saving time
- Setting Backlight to illuminate brighter
- Activating Bluetooth® in Standby
- Activating Video Output
- Activating Keypad Tones

■ Extend Battery Time

Adjust Light Settings (P.10-12) to extend Battery Time. Select shorter Display Saving/Backlight time and lower Brightness.

Battery Strength

Battery Strength indicator varies as shown.

Battery Strength & Environment

At low temperatures, battery is consumed faster.
At high temperatures, battery lasts longer.

Note ► At Level 1, some functions including TV, Video Camera, Music Player and Voice Recorder do not operate.

Small Light & Battery Strength Indicator

Handset Power On

| Small Light | Indicator (🔋 / 🔌) | Conditions |
|-----------------|-------------------|---|
| Off | Flashes | Ambient temperature is outside the range of 5°C to 35°C |
| Flashes red | Flashes | Battery life has ended, or battery defect |
| Illuminates red | Flashes | Charging |
| Off | On | Charging completed/Standby |

Handset Power Off

| Small Light | Indicator (🔋 / 🔌) | Conditions |
|-----------------|-------------------|---|
| Flashes red | Off | Battery life has ended, or battery defect |
| Illuminates red | Off | Charging |
| Off | Off | Charging completed |

When Battery Runs Out

A message appears and short beeps sound. Press to stop short beeps. (Short beeps do not sound in Manner mode.)

During Voice Call

A double beep sounds every five seconds. After 20 seconds, the call ends and handset shuts down.

During Video Call

A message appears and call ends with a double beep, then short beeps sound. Handset shuts down after 20 seconds.

Battery Installation

Inserting

- 1 Press down and slide cover as shown

- 2 Lift and remove cover as shown

- 3 Insert battery

- With printed side up, fit tabs into battery cavity slots.

- 4 Close cover

- Position and slide the cover gently as shown until it stops.

Removing

- Turn handset power off before removing battery.
- Do not remove battery immediately after saving files, sending messages, etc.

- 1 Perform Steps 1 - 2 on the left

- 2 Remove battery

- Take hold of Battery Tab here and lift as shown.

Battery Disposal

Do not dispose of an exhausted battery with ordinary refuse; always tape over battery terminals before disposal. Take exhausted battery to a SoftBank shop, or follow the local disposal regulations.

- Tip ▶ This product requires a lithium-ion battery. Lithium-ion batteries are a recyclable resource.**
- To recycle a used lithium-ion battery, take it to any shop displaying the symbol shown to the right.
 - To avoid fire or electric shock, do not:
 - Short-circuit battery
 - Disassemble battery

Use specified AC Charger only.

1 Open Port Cover to connect Charger

- Use slot to gently open Port Cover as shown and rotate it.
- Insert connector until it clicks.

2 Plug Charger into AC outlet

- Small Light illuminates red while charging (P.1-11); may take up to approximately 150 minutes.
- When charging completes Small Light goes out.
- **Extend Charger blades. (Fold back when not in use.)**

3 After Charging

Unplug Charger, then disconnect handset

- Squeeze release tabs to remove connector.
- Replace Port Cover to protect External Device Port.

Note

- Do not pull, bend or twist AC Charger cord.
- Pull AC Charger straight out to unplug it.
- AC Charger is compatible with household currents between AC 100V and 240V.

Minding Mobile Manners

Please use your handset responsibly. Use these basic tips as a guide. Inappropriate handset use can be both dangerous and bothersome. Please take care not to disturb others when using your handset. Adjust handset use according to your surroundings.

- Turn it off in theaters, museums and other places where silence is the norm.
- Refrain from using it in restaurants, hotel lobbies, elevators, etc.
- Observe signs and instructions regarding handset use aboard trains, etc.
- Refrain from use that interrupts the flow of pedestrian or vehicle traffic.

Manner-Related Features

■ Manner Mode: P.2-16

Press Manner Key to automatically mute all sounds and activate vibration for incoming transmissions.

■ Vibration Mode: P.10-3

Activate vibration for incoming transmission alerts.

■ Volume Settings: P.10-2

When carrying handset in public, decrease or mute incoming transmission alerts or S! Application tones.

■ Offline Mode: P.2-17

Temporarily suspend all handset transmissions without turning off handset power.

■ Answer Phone: P.2-8

Handle incoming calls inappropriate/unsafe to answer.

■ Drive Mode: P.10-2

Small Light flashes for incoming calls; if unanswered driving message plays and Answer Phone activates.

Activating/Canceling Manner Mode

Activate/cancel Manner mode in Standby, while browsing the Internet, during calls or while using TV, Media Player or S! Applications.

Activating

Emergency Calls

Emergency Location Report

Your location is automatically reported to the corresponding agency (police, etc.) when you place emergency calls (110, 119 or 118) with SoftBank 3G handsets.

- 912SH reports Location Information based on positioning signals from radio stations.
- Registration/transmission fees do not apply.

- Note** ▶
- Positioning accuracy is affected by location/signal conditions. Always provide your location and purpose on the phone.
 - Location Information is not reported when emergency calls (110, 119 or 118) are placed without Caller ID (such as when the number is prefixed with **184**). However, the corresponding agency may obtain your Location Information in a life threatening situation.

Handset Restrictions & Emergency Calls

Emergency calls (110, 119, 118, etc.) are possible even while some handset restrictions are active.

| Active Restriction | Emergency Calls | Active Restriction | Emergency Calls |

Precautions

- 912SH TV is exclusively for use in Japan.
- Do not use TV while driving or riding a bicycle. Accidents may result. Mobile phone use while driving is prohibited by the Road Traffic Law (revised November 1, 2004). When walking, always pay attention to your surroundings, especially near road/rail crossings, etc.
- Voice Call transmissions, incoming messages or mobile phone use in the immediate vicinity may affect audiovisual quality.
- USIM Card removal/service termination disables TV.
- TV may be disabled after a period of handset use without a Network connection. Retrieve Network Information (P.11-11) to activate TV.

Note ► SoftBank is not liable for any damages resulting from accidental loss/alteration of handset or Memory Card data. Information saved on handset (TV links, channel list, etc.) is not transferable to other SoftBank handsets. Delete all data on disused handset whenever possible.

Warning for Data Broadcast Use

- A confirmation appears the first time a fee-based Network connection is established from a channel; if accepted, further Network connections are established without confirmation until the channel is changed, etc.

Poor Reception Areas

Programming may not be viewable or record properly when:

- Too far from or too close to broadcasting stations
- In mountainous areas or near tall buildings
- Aboard trains or in moving vehicles
- Near high-voltage lines, neon lights or wireless base stations
- Near railroad tracks or highways
- Inside tunnels or underground shopping malls
- Anywhere a jamming signal is broadcast/reception is unstable

Note ► In One Seg, block noise may appear or audio may be muted depending on signal strength.

Battery

When battery is low (), TV does not activate. If battery runs low during use, TV ends automatically.

Charging during TV Use

- Use supplied Charger.
- To avoid interference, separate Charger and Antenna.
- Charging takes longer when TV is active.

One Seg

In Japan, the 6 MHz band assigned to each terrestrial digital broadcast channel is divided into 13 segments: 12 dedicated to HDTV broadcasting and the remaining "One Seg" dedicated to mobile devices.

For details, access the Association for Promotion of Digital Broadcasting Website:

- PC: <http://www.d-pa.or.jp/english/>
- Mobile (Japanese): <http://www.d-pa.or.jp/1seg/k/>

- Tip ▶**
- One Seg terrestrial digital broadcasting is transmitted within the UHF spectrum.
 - Unless otherwise noted, One Seg is referred to as "Digital TV" in this manual.

Digital TV Antenna

Extend Antenna to improve reception.

- Pull Antenna by top bead until it clicks.
- After use, gently retract Antenna.

- Fold/rotate Antenna for best reception.

- Tip ▶**
- Extend Antenna for better reception, unless transmission source is near.
 - Use optional TV Antenna Connection Cable as needed.

Incoming Transmissions

Incoming Calls

TV pauses; press  to answer call. End call to return to TV. (912SH returns to Standby after Video Calls or Circle Talk.)

- Placing handset in portrait position opens Call window. Press  to toggle between TV and Call windows.
- To receive and answer calls without interrupting TV, see **P.6-22** "Calls & Alarms." To answer calls by rotating Display from Cycloid to portrait position, see **P.10-26** "Turn Display to."
- To automatically record and save a program during a call, see **P.6-15** "Time Shift Recording Automatic Activation."
- TV recording continues when Voice Calls arrive, but ends for Video Calls or Circle Talk requests.
- If TV ends during a call (due to low battery, etc.), handset returns to Standby after the call. If other functions are in use at the same time, handset returns to active function window.

Incoming Messages

Double beep sounds and New Message notice appears at the top of Display.

To open messages while watching TV, see **P.6-11** "Opening Received Msg. Folder."

Tip ▶ To change/hide notice or mute alert sound, see **P.15-32** "Message Notice."

Using Headphones

When Headphones are in use, incoming transmission and Alarm sounds are audible from Headphones and Speakers. To disable Speakers, see **P.10-16** "Ringer Output."

Using Wireless Headphones

While watching TV using wireless Headphones with Calls & Alarms (**P.6-22**) set to **Notice a Call**, audio output is redirected to Speakers or Headphones (with audio muted) when calls are placed on hold or answered by Answer Phone.

Getting Started

912SH features a 3.2 Megapixel CCD camera. Capture still images or record video.

Tip ▶ Use Internal Camera or External Camera; unless otherwise noted, mobile camera operations are described for External Camera.

■ Cycloid Position

Activate mobile camera and rotate Display clockwise to capture images in Cycloid position. (Picture Size changes.) All Picture Size options are available in Cycloid position as well. (For portrait images, Viewfinder is reduced to fit Display.)

■ Shutter Click

Shutter click volume is fixed, and sounds even in Manner mode.

- To change shutter click sound for still images, see **P.7-15**.
- Camera motor may be audible when Auto Focus is in use or when canceling mobile camera.

■ Exporting Images

View images and video on PCs, TVs or other display devices via optional Video Cable (**P.10-13** "Viewing Images on External Devices").

Mobile Camera Basics

- Clean dust/smudges from lens cover with a soft cloth before use.
- Handset movement may blur images; hold handset firmly or activate Shake Reducing (**P.7-16**).
- Mobile camera is a precision instrument, however, some pixels may appear brighter or darker.
- Shooting/saving images while handset is hot may affect the image quality.
- Subjecting the lens to direct sunlight will damage the camera's color filter.

Auto Shut-off

- Before image capture, mobile camera shuts down after three minutes of inactivity and handset returns to Standby.

Internal Camera Images

- Your image appears on Display as a mirror image before/after shutter is released; saved image appears reversed.

Precautions for Video Recording

- When battery is low, Video Camera is not available. If battery runs low while recording video, recording stops. (Recorded video is saved.)

Media Player Basics

Download media files via Music Player directly or save files recorded from CDs or PCs, etc. to Memory Card.

Features & File Support:

- For My Videos and My Music details, see **P.8-10** "Using Playlists."

Obtaining Music/Video

Obtain music/video from the Internet or PCs.

Downloading Media Files

Read information (price, expiry date, etc.) on the source site.

Main Menu ▶ Media Player

- 1 Select **Music** or **Videos** and press
- 2 Select **Download Music** or **Download Videos** and press

Handset connects to the Internet.

- Follow the links to download music/video.

Music Search

- In Step 1 above, select **Music** ▶ Press ▶ Select **Music Search** ▶ Press

- Fill in fields or follow links to search for/download music.

Saving Music Files from PCs

Save PC music files to Memory Card via Mass Storage (P.12-8).

- Insert 912SH-formatted Memory Card first (P.12-2 - 12-3).
- After Step 3 on P.12-8, save music to the following folders on Memory Card.
 - PRIVATE/MYFOLDER/My Items/Music
Music is saved to Data Folder (Music).
 - PRIVATE/MYFOLDER/My Items/Sounds&Ringtones
Music is saved to Data Folder (Ring Songs·Tones).

Supported File Formats

Handset supports AAC files (extension: .m4a) and Secure AAC files compliant with the SD-Audio standard.

Handling AAC Files

- Use software such as iTunes to convert music to AAC format.
- iTunes is an example only. SoftBank does not guarantee compatibility with any software.
- For software usage and specifications, see the provider's website, etc.

iTunes is a trademark of Apple Inc. registered in the United States and other countries.

Supported Bit Rates & Sampling Frequencies

| | |
|-------------------------|---|
| Bit Rate (kbps) | 16 ^{*1} , 24, 32, 48, 64, 96 ^{*2} , 128 ^{*2} |
| Sampling Frequency (Hz) | 16000, 22050, 24000, 32000, 44100, 48000 |

*1 Monaural only.

*2 Stereo only.

Note ▶ Titles and artist names for AAC files created using iTunes, etc. do not appear on handset.

Music File Precautions

Respect copyrights.

- Comply with copyright and other intellectual property laws when using music saved on Memory Cards.
- Copyright laws limit duplicated material to private use only.

Compatibility

Obtained files cannot be used as ringtones or System Sounds.

Playback Preparation

Precautions

- Music/Video Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
- When battery is low, Music/Video Player will not play. If battery runs low during playback, Music/Video Player shuts off.
- Turn down the volume if distortion is noticeable in Speaker sound.
- Playback stops for incoming calls.

Tip ▶

- To activate/cancel Manner mode during playback, see **P.2-16**.
- In Manner mode, sound is audible from Headphones.
- Titles and artist names appear on External Display during playback when handset is closed.
- Use LCD Remote/Mic with Headphones (optional accessory) to remote control Music Player activated via Music menu.

Recording Music

Connect handset to audio sources supporting optical output to record music onto Memory Cards.

- 912SH encryption technology complies with Secure Digital Music Initiative (SDMI) for copyright protection. This technology prevents unauthorized copying or playback through data encryption and authentication.
- Analog recording is not supported.

- Note** ▶
- Copyright laws limit duplicated material to private use only, and prohibit unauthorized reproduction/other use.
 - SoftBank is not liable for any damages resulting from accidental loss or alteration of recorded content.
 - Recorded content cannot be copied.

Recording Time

Estimated Recording Time for Memory Card with no Files or Recordings:

| Card Capacity | Bit Rate/Recording Time | |
|---------------|-------------------------|------------|
| | 96 kbps | 128 kbps |
| 64 MB | 80 minutes | 60 minutes |

Bit rate measures audio compression rate or the quality of audio data recorded per second. Sound quality improves at higher rates.

Connecting to Audio Sources

Required Cables for Recording Music

- Optical Conversion Cable (optional accessory)
- Optical digital connecting cable (sold separately)

Cable Connections

Use Optical Digital Audio Toslink-Mini or Mini-Mini Cables (sold separately) with Optical Conversion Cable to connect audio sources to handset.

Connect Optical Conversion Cable with an optical digital connecting cable, then to handset gently. Disconnect Optical Conversion Cable gently by holding the plug and handset. Do not use excessive force when connecting/disconnecting cables; doing so may damage cable, Mini Plug or Headphone/Optical Digital Line-In Port.

- Note** ▶
- Use Optical Conversion Cable only for recording music.
 - Use specified Optical Conversion Cable only. Non-specified cables may not function properly and damage may result.

Precautions

Charge battery while recording.

- Recording stops when battery level falls too low. Always use AC Charger when recording to ensure a stable power supply.
- When battery is low, Music Player will not record. If battery runs low during recording, Music Player shuts off.

■ **Music is recorded onto Memory Card (SD AUDIO folder).** To start Music Player, insert 912SH-formatted Memory Card first (P.12-2 - 12-3).

Activate Offline Mode to prevent disruptions (Steps 1 - 2 on P.8-14).

Incoming communications may disrupt recording or damage outputs of audio sources.

■ **Do not remove Memory Card while recording.** Doing so may damage the card or result in lost files.

Track Bookmarks

Add Bookmarks to tracks to use Repeat or Random Play. Track Bookmarks are created when track marks or periods of silence are detected between tracks.

- Recording from CD players, etc. with Synch Recording **On** creates Track Bookmarks from source media track marks.
- Track Bookmarks may not be created automatically depending on the connected audio source. In this case, divide music into tracks manually (Step 4 on **P.8-14**).
- When Synch Recording is **Off**, Track Bookmarks are created at periods of silence between tracks; if Music Player does not detect silence, the tracks are saved as a single file.
- Brief sound dropouts occur when Track Bookmarks are created.

Note ▶ Recording may result in silence or a single music file with a low volume level if the music consists of long periods of silence or sustained low volume level.

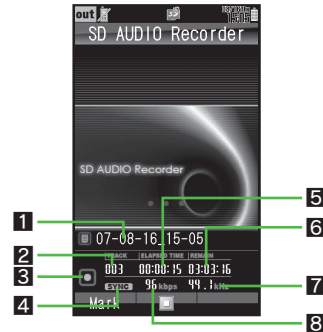

Sampling Frequency

Sampling frequency is the number of times an audio signal is measured (sampled) per second, expressed in kilohertz (kHz). Similar to bit rate, higher rates translate into better sound quality. Sampling frequency is automatically set to 32 kHz, 44.1 kHz or 48 kHz according to the recording method or audio source.

When recording from DVD players, cancel DTS.

Note ▶ Recording may not work properly depending on the signal format.

- When Synch Recording is **Off**, recording starts right away.

4 Start playback

Recording starts automatically when handset detects sound.

- To create Track Bookmarks (**P.8-13**) manually, press **Mark**.

5 To stop recording, press

Recording pauses, then stops after 15 seconds.

- If **No** was chosen then was pressed in Step 2 on the left, Offline Mode is canceled after recording ends.
- When Synch Recording is **Off**, press to stop recording.

Note ▶

- Do not remove Memory Card or battery while recording. Doing so may damage the card or result in lost information.
- Do not touch cables or plugs while recording. May cause noise or skipping.
- When recording from PCs or BS/CS digital tuners, recording level may decrease.

Tip ▶

- Alarm is disabled while recording, and starts after Recording window closes.
- Recorded music is saved by date and time by default.

Face Recognition

Activate to automatically lock handset when it is turned on, opened in Standby, or whenever Display is refreshed after Display Saving time, etc. Match live face image with saved one to unlock.

Precautions

When capturing/scanning face, remember these points:

- **Make sure your face is clearly visible; facial features may be obscured by hair, colored glasses, masks, etc.**
- **Face should be lit evenly and brightly (avoid backlight and strong light).**

- Note** ▶
- Identification accuracy is not guaranteed. SoftBank cannot be held liable for misuse or any damages associated with the use of Face Recognition.
 - Handset Code is required to activate/cancel Face Recognition. Changing the code (P.10-18) helps enhance security.
 - S! FeliCa is available even when Face Recognition is active.

Infrared

Getting Started

Wirelessly transfer files between 912SH and compatible devices (PCs, mobiles, etc.). "Files" includes Bookmarks, Tasks, Notepad, Phone Book and Calendar entries, and Messaging and Data Folder files. 912SH complies with IrMC 1.1, however, some files may not be transferable.

Precautions

- Align Infrared Ports within 20 centimeters with no obstructions between handsets.
- Keep Infrared Ports aligned during transfer.
- Dust/oil may impair file transfers; clean Infrared Ports with a soft cloth beforehand.
- Transfers are disabled while using the Internet or Media Player, while editing mail or files, etc.
- Transfers in direct sunlight, under fluorescent lighting or near infrared equipment may fail.

When Transfer Fails

- **Device not found. Reconnect?** appears. Take the precautions on the left then choose **Yes** and press to try again.

Transfer Options

| | |
|--------------------------|--|
| One File Transfer | Transfer files one at a time. (Received files are saved to corresponding functions.) |
| All File Transfer | Transfer all files by function |
| Receive Folder | Receive a folder and its contents. (Handset does not support sending folders.) |
| IrSS Transfer | Transfer JPEG files one at a time at high speed. Received files are saved to Data Folder (Pictures). |

Authorisation Code

- Authorisation Codes (four digits) are specific for infrared transfers. All File Transfers are possible when Authorisation Codes of both devices match.

- Note** ▶
- Some files may not be saved in whole or part.
 - Only compatible devices receive files transferred via IrSS transfer.

- Tip** ▶
- Transfer most Memory Card Data Folder files one at a time. Received JPEG images in DCIM folder are saved in Pictures folder.

Transferable Files

| Function | One File | All Files | Notes |
|-------------------|-----------|------------------------|--|
| Phone Book | Available | Available | One File Transfer omits Category, Tone/Video, Light, Vibration and Secret. Picture may be omitted; transfer image alone then reset as Picture. |
| Calendar | Available | Available ¹ | One File Transfer resets Alarm Tone/Video to Alert 1 and omits Secret setting. Received entries with unsettable start date/time (0:00 AM on January 1, 2031 or later) cannot be saved. |
| Tasks | Available | Available ¹ | One File Transfer resets Alarm Tone/Video to Alert 1 and omits Secret setting. Received entries with unsettable due date/time (0:00 AM on January 1, 2031 or later) are saved as No limit . |
| Notepad | Available | Available | |
| Bookmarks | Available | Available | In All File Transfers, Streaming Bookmarks are saved in Yahoo! Keitai Bookmarks. |

| Function | One File | All Files | Notes |
|----------------------|------------------|------------------------|--|
| Received Msg. | N/A ² | Available ³ | |
| Sent Messages | N/A ² | Available | |
| Drafts | N/A ² | Available ⁴ | |
| Templates | Available | Available ⁵ | Copy protected files are not transferable. |
| Data Folder | Available | Available ⁵ | Copy protected files are not transferable. Received JPEG images in DCIM folder are saved to Pictures folder. |

¹In All File Transfers, Calendar and Tasks are sent together from **Appointments/Tasks**.

²Received files are saved to Other Documents folder as unknown files and cannot be used as messages.

³All File Transfers may save Spam Folder messages to the incoming message folder on recipient SoftBank handsets (except 912SH) when spam filter is not active/available or when sender is saved in the phone book; S! Mail Notices are saved as normal messages, invalidating complete message retrieval.

⁴In All File Transfers, SMS addressed to multiple recipients may not be saved on recipient SoftBank handsets (except 912SH), or only the first entered recipient remains.

⁵Receive folders one at a time into handset Data Folder.

- Note** ▶
- Handset holds up to 300 entries between Calendar and Tasks. If the limit is reached during a transfer, the remaining entries will not be received.
 - Messages may not be received depending on the size.
 - Large Bookmarks may not be received correctly.
 - Handset holds up to 500 messages between Drafts, Unsent Messages and Sent Messages. If the limit is reached during a transfer, the remaining messages will not be received.
 - Sky Mail may be received as S! Mail on handset depending on the sender SoftBank handset.
 - Overwriting Messaging folders deletes auto sort keys.

About Memory Card

912SH is compatible with microSD™ Memory Card.

- Format a new Memory Card for use with handset (**P.12-3**).
- To learn how to save a particular file to Memory Card, refer to that section of the manual.
- To reduce malfunction risk use recommended Memory Cards only. See Memory Card compatibility information:
 - **From Handset (Japanese)**
Sharp Space Town Mobile Internet site <http://j.sst.ne.jp/>
 - **From PC (Japanese)**
http://k-tai.sharp.co.jp/peripherals/sd_support.html

- Note** ▶
- SoftBank is not liable for any damages resulting from accidental loss/alteration of information. Keep a copy of Phone Book entries, etc. in a separate place.
 - microSD™ Memory Card has no write protect switch. Files may be accidentally erased or overwritten.

- Tip** ▶ To check Memory Card memory status, open Data Folder and select **Memory Card** in Memory Status (**P.9-2**).

Inserting & Removing

Turn handset power off.

1 Rotate cover aside

2 Inserting

- 1 With logo side down, insert card until it clicks**

Removing

- 1 Gently push in card**

- With a light push, card pops out.

- 2 Remove card**

- Gently, pull card straight out.

3 Replace cover

- Note** ▶
- Do not force Memory Card into or out of handset; damage may result.
 - When  appears, Memory Card may not be connected properly; reinsert the card.
 - Do not insert other objects into Memory Card slot; may damage handset/card.
 - Never remove Memory Card or battery while files are being accessed. Damage to handset/card may result and files/data may be damaged/lost.

Tip ▶ Insert a Memory Card and turn handset power on. Memory Card load times vary by card size and the amount of information saved.

Format Card

When using a new microSD™ Memory Card, format it on handset for use with handset before trying to save files, etc.

Main Menu ▶ Settings ▶ Connectivity (📶) ▶ Memory Card ▶ Format Card

1 Choose Yes and press

Offline Mode is set.

2 Enter Handset Code and press

3 Choose Yes and press

 To cancel, choose **No** ▶ Press 

- Note** ▶
- Before formatting a Memory Card, make sure there is no important information saved on the card. Format Card deletes all files from Memory Card.
 - Never remove Memory Card or battery while formatting.
 - An improperly formatted Memory Card may not function as it should with 912SH.

Using SD Local Contents

Open HTML files on Memory Card to access Internet sites. Available only when HTML files are saved on Memory Card.

Main Menu ▶ Settings ▶ Connectivity (📶) ▶ Memory Card ▶ SD Local Contents

1 Select a title and press

- Tip** ▶ HTML files for SD Local Contents are saved in PRIVATE/MYFOLDER/Local Contents folder when viewed on PCs.

Backup & Restore

Back up information to Memory Card, and restore to handset in case of accidental loss/alteration of data.

- The following folders/entries can be transferred at once:
 - Received Msg.
 - Drafts
 - Templates
 - Sent Messages
 - Phone Book
 - Mail Groups
 - Calendar
 - Tasks
 - Notepad
 - Bookmarks
 - User Dictionary
 - My Pictograms
 - Content Keys
- All contents are copied to Memory Card as a single file. (File name is the date of transfer.)
 - Templates and My Pictograms are not copied as a single file.
- Select an item to back up or transfer all at once.

Tip ► Copy handset entries as backups, share information between microSD™ Memory Card-compatible handsets, or transfer entries to a newly purchased handset.

Precautions

Backup & Restore

- Not available if battery is low or handset is in use.
- Transmissions are blocked during Backup or Restore.

Backup

- Some items may not be transferable. Some backup files may not be usable on other SoftBank handsets or PCs, etc.
- When handset or Memory Card memory is low, entries may not transfer correctly.
- To access backed up content (excluding Templates and My Pictograms) restore it to handset.

Restore

Delete corresponding data on handset first.

Folders/entries

Phone Book

- Phone Book entry Picture settings may be lost depending on image; copy images to Memory Card separately and copy them to handset after Phone Book is restored.

Messaging folders

- S! Mail Notices are restored as normal messages, invalidating complete message retrieval.
- Restoring Messaging folders deletes auto sort keys.

• Calendar/Tasks

- Handset holds up to 300 entries between Calendar and Tasks. If the limit is reached during a transfer, the remaining entries will not be received.

• Bookmarks

- Yahoo! Keitai, Streaming and PC Site Browser Bookmarks are backed up. When restored, Streaming Bookmarks are saved in Yahoo! Keitai Bookmarks.

• Content Keys

- Moving Keys to Memory Card creates a special file. Performing Backup again on the same Memory Card overwrites that file. Perform Restore beforehand.
- While Keys are on Memory Card, files are inaccessible.

■ Compatibility with Other SoftBank Handsets

• Importing data backed up on other SoftBank handsets

- Messages may not transfer depending on the size.
- Handset holds up to 500 messages between Drafts, Unsent Messages and Sent Messages. (Unsent Messages are not transferable.) If the limit is reached during a transfer, the remaining messages will not be received.
- Sky Mail may transfer as S! Mail depending on the SoftBank handset used for backup.

• Moving backed up data to other SoftBank handsets

- If spam filter is available on recipient handset, Spam Folder messages are saved in spam folder regardless of the setting. (If unavailable, they are saved as normal received messages.)
- SMS addressed to multiple recipients may not be saved or only the first entered recipient remains if transferred from Drafts.

5 Choose Yes and press

To cancel, press **Cancel**.

For **Select All**, confirmation appears. Choose **Yes** or **No** ▶ Press

Tip ▶ For Tasks, due dates that cannot be set on handset are overwritten as **No limit**.

Digital Print Order Format (DPOF)

Digital Print Order Format (DPOF) is a standard specification for requesting prints from digital cameras. Select images from Memory Card and specify the number of copies to print on DPOF-compatible printers, or at digital printing services.

- DPOF does not support images obtained via the Internet, S! Mail, etc. (These images cannot be saved to DCIM folder.)
- If Memory Card capacity becomes insufficient while in use, a warning message appears. Delete files beforehand.
- For printing procedures, see the printer manual.

Note ▶

- DPOF settings made on other devices are unusable; delete existing settings to create new ones on handset.
- Some settings may not be supported depending on the printer or printing services.
- Process may take a while if print settings are made for many images.
- If image files are deleted or renamed on PCs or other devices, print settings change. Perform Reset Settings (P.12-7) and start over with settings.

 - The barcode is dirty or unclear
 - The barcode is scanned under inadequate light
 - Multiple barcodes are captured at one time
- Barcode menu will not open if music is playing; when **Stop music?** appears, choose **Yes** and press to proceed.

Tip ▶

- A UPC (Universal Product Code) or JAN (Japanese Article Number) is a series of varying width vertical lines (bars) and spaces. Bars and spaces together are elements, combinations of which represent different numbers. Handset cannot read other one-dimensional barcodes (ITF Code, Code39, Codabar/NW-7, etc.).
- A QR (Quick Response) Code is a matrix symbology consisting of an array of nominally square cells, which allows omni-directional reading of up to 4,296 alphanumeric and byte data, as well as kanji and kana.

- Packet transmission fees do not apply to updates (including checking, downloading and rewriting).
 - Make sure signal is strong and stable beforehand.
 - Charge battery beforehand to reduce failure risk.
 - Do not remove battery; update may fail.
 - Disconnect supplied USB Cable beforehand to reduce failure risk.

- Tip** ▶ Software Update information is also available on SOFTBANK MOBILE Corp. Website (<http://www.softbank.jp>).

Update Complete

Update Result

■ While Information window appears, select **Update Result** → Press

■ Press again to exit.

■ In Standby, press → **Select Settings**

→ Press → **Select Software Update**

→ Press → **Select Update Result** →

Press

■ Press again to return.

- Note** ►
- Update failure may disable handset. Contact SoftBank Customer Center, Customer Assistance (P.21-39).
 - Phone Book entries, media files, and other handset contents are not affected by firmware updates, but always back up important information. (Some files cannot be copied.) SoftBank cannot be held liable for damages from lost information, etc.
 - If handset does not return to Standby after update, turn power off, reinsert battery, then restart it.

■ Scheduled Update

Confirmation appears at scheduled update time. Press or wait about ten seconds for update to start.

- Update will not start if other functions are in use. After all operations end, a confirmation appears. If operations do not end within ten minutes, scheduled update is automatically canceled.
- Update automatically cancels Keypad Lock.

Messaging Mishaps

■ When S! Mail is not delivered as sent

Causes include the following. For more information, see SOFTBANK MOBILE Corp. Website (<http://www.softbank.jp>).

- **Recipient is not subscribed to S! Mail, Super Mail or Long Mail.**
- **Recipient handset is not S! Mail-compatible.**
 - The maximum size of messages/attachments recipient handsets can receive varies by make and model.
- **Recipient handset is not JPEG-compatible.**
 - Some Long Mail-compatible handsets may only be able to process PNG images; convert JPEG files to PNG (P.9-13), then attach and send.

■ When handset memory is insufficient

New messages cannot be delivered ( appears in red). Undeliverable mail is saved in Server Mail Box.

- Delete messages to free memory for new ones (P.15-24). When memory is available, new messages are delivered automatically.
- Delete unprotected messages automatically to receive new ones (P.15-32).
- Even if memory is not full, handset cannot receive new messages larger than remaining memory.

Specifications

■ SoftBank 912SH

| | |
|--|--|
| Weight | Approximately 144 g |
| Continuous Talk Time | Approximately 270 minutes |
| Continuous Standby Time (closed position) | Approximately 370 hours |
| Continuous Video Call Talk Time | 110 minutes (with Internal Camera in use) |
| Charging Time (power off) | AC Charger: Approximately 150 minutes In-Car Charger: Approximately 155 minutes |
| Dimensions (W x H x D) | Approximately 50 x 108 x 23 mm (closed position) |
| Maximum Output | 0.25 W |

- Values above were calculated with battery installed.

- Continuous Talk Time is an average measured with a new, fully charged battery, with stable signals. Continuous Talk Time may be less than half this value if signal is weak.
- Continuous Standby Time is an average measured with a new, fully charged battery, in closed position without calls or operations, in Standby with stable signals. Standby Time may be less than half this value if handset is out-of-range or signal is weak. Standby Time may vary by environment (battery status, ambient temperature, etc.).
- Talk Time/Standby Time decreases with frequent use of Display/Keypad backlights.
- Talk Time/Standby Time may decrease when an S! Application is active.
- Talk Time/Standby Time decreases with handset use in poor signal conditions (**P.1-10** "Battery Time").
- Display employs precision technology, however, some pixels may appear brighter/darker.

Warranty & Service

■ Warranty

Warranty is provided when you purchase handset.

- **Check the name of distributor and date of purchase.**
- **Read through contents and keep in a safe place.**
- **The warranty term is described in the warranty.**

■ After-Sales Services

See **P.21-4** "Troubleshooting" before contacting SoftBank for service or repairs. If you cannot find solutions or solve problems, contact SoftBank Customer Center, Customer Assistance (**P.21-39**) in your subscription area and provide a detailed description of the problem.

- **Repairs within warranty are performed under terms and conditions described.**
- **Out of warranty, possible repairs are performed upon request at subscriber expense.**

For other services, contact the distributor, the nearest SoftBank shop or SoftBank Customer Center, General Information (**P.21-39**). Replacement parts are available for 6 years after termination of production.

Note ►

- SoftBank is not liable for any damages resulting from use of this product.
- SoftBank is not liable for any damages resulting from accidental loss/alteration of handset data. Keep a copy of Phone Book entries, etc. in a separate place.
- Disassembling or modifying handset may violate the Radio Law. Modified handset will not be repaired.

Customer Service

For SoftBank handset or service information, call General Information. For repairs, call Customer Assistance.

モバイル・リサイクルネットワーク
携帯電話・PHSのリサイクルにご協力を。

Please help the mobile industry maintain high environmental standards. Recycle your old handsets, batteries and charger units (all manufacturers and brands). Before you recycle, please remember these important points:

- Handsets, batteries and chargers submitted for recycling cannot be returned.
- Always erase all data recorded on old handsets (Phone Book entries, call records, mail, etc.) before recycling.

Mind your mobile manners when carrying a handset.
