Simply

User Guide

Introduction

Thank you for purchasing "Simply."

● Before using Simply, carefully read " クイックスタート (Quick Start) (Japanese)", "Safety Precautions" and "User Guide (This guide)" for proper use.
● Depending on the contents of contract, available services are limited.

Simply supports 4G LTE/3G system.

Precautions

● Keep this guide in a safe place.
● In case of loss or damage of this guide, contact Inquiries (P.11-25).
● Handset operations are mainly described in this guide.
● Keep accessories including warranty in a safe place.

Descriptions in This Guide

■ Notations of Operating Instructions

· Simple key illustrations represent key operations.
· "Long Press" means pressing a key for at least 1 second.

■ Screenshots & Illustrations

Screenshots and illustrations in this guide are images and may differ in appearance with actual display and product.

■ Other Notations

· "Simply" is referred to as "handset."
· "microSD™ Card", "microSDHC™ Card" is referred to as "SD Card."

■ Key Operations and Notations

Handling USIM Card

USIM Card is an IC Card containing customer phone number, information, etc.

 • For handling USIM Card, see the manual provided with USIM Card.

■ Before Using USIM Card

When using USIM Card, be careful of the following.

 • Do not put labels, etc. on USIM Card. May cause malfunction.
 • USIM Card will be reissued for a fee if lost or damaged.
 • Clean USIM Card with a dry soft cloth.
 • Keep the IC (metal) part clean.

IC (metal) part

USIM Card

 • Do not touch IC (metal) part with hand or metal.
 • If USIM Card/handset with USIM Card inserted is lost or stolen, always follow emergency procedures to suspend service.
 For details, contact Inquiries.
 • SoftBank Corp. is not liable for any damages arising from inserting USIM Card into IC Card readers, etc. of other third party devices.

 • Keep a separate copy of data saved on USIM Card. SoftBank Corp. is not liable for any loss of data you have saved.
 • USIM Card specifications and performance are subject to change without notice.
 • Return USIM Card to SoftBank Corp. upon cancellation.
 • USIM Card is the property of SoftBank Corp.
 • The USIM Card returned from you is recycled for environmental preservation.

■ Inserting/Removing USIM Card

Always power off beforehand.

■ Inserting USIM Card

1 Open Battery Cover (P.1-11)

2 Removing Battery (P.1-13)

3 Note location of USIM Card notch, and slide USIM Card into USIM Card Slot in direction ① to install with the IC part facing down
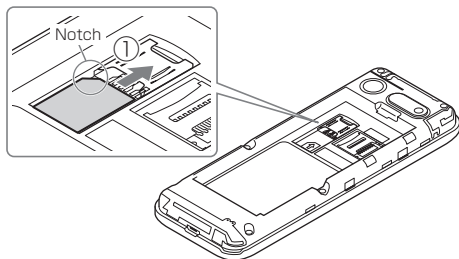

4 Installing Battery (P.1-12)

5 Attach Battery Cover (P.1-12)

■ Removing USIM Card

1 Open Battery Cover (P.1-11)

2 Removing Battery (P.1-13)

3 Press and hold the hook at ① with pad of finger and press the tip (②) of USIM Card out of SIM Card Slot and slide it in direction ③ to remove

Handling SD Card
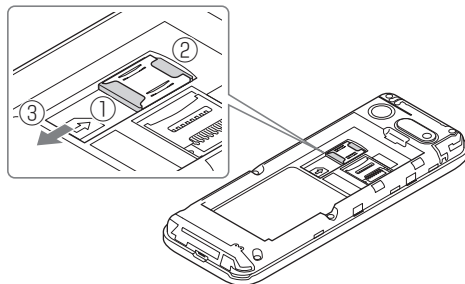

4 Installing Battery (P.1-12)

5 Attach Battery Cover (P.1-12)

■ SIM Unlocking

Handset supports SIM unlocking. After SIM-unlocking handset, other companies' SIM Cards can also be used on handset.
- When using another company SIM Card, available services and functions may be restricted. SoftBank Corp. makes no guarantees whatsoever regarding the proper operation of handset.
- For details on SIM unlocking, see SoftBank Website.

Like Data Folder in handset, data can be saved in SD Card.
- Handset supports microSD™ Cards up to 2GB and microSDHC™ Cards up to 32GB. (as of September 2017)
  Note that not all operations are guaranteed.

■ Before Using SD Card

When using SD Card, be careful of the following.
- SD Card data may be lost or altered due to an accident or malfunction. Keep a copy of your data in a separate place. Note that SoftBank Corp. is not liable for any damages arising from lost/ changed data.
- Do not insert or remove SD Card forcefully.
- Do not touch terminals with hand or metal.
- Do not remove Battery or power off handset while reading/writing data in SD Card.
- Be careful not to delete or overwrite data accidentally.

(( )) CAUTION

- Store or use SD Card out of reach of small children. Failure to do so may cause accidental swallow, leading to suffocation.

■ Inserting/Removing SD Card

Always power off beforehand.

■ Inserting SD Card

1 Open Battery Cover (P.1-11)

2 Removing Battery (P.1-13)

3 Press and hold SD Card Slot Cover with pad of finger and slide it in direction ① until it clicks unlocked. Lift SD Card Slot Cover in direction ②
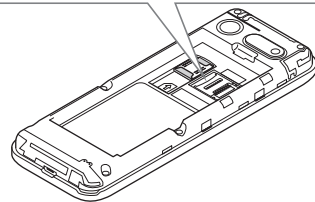

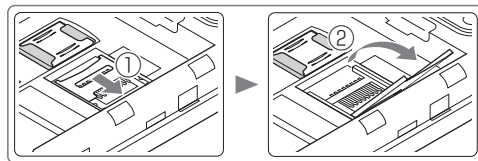

4 Note orientation and insert SD Card into SD Card Slot with the terminal part facing down
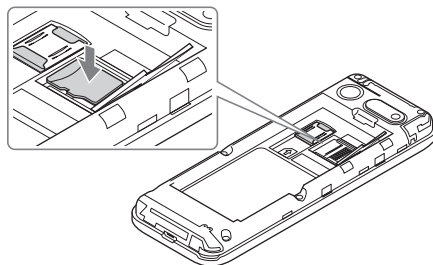

5 Lower SD Card Slot Cover in direction ①
and press and hold it with pad of finger
and slide it in direction ② until it clicks
locked
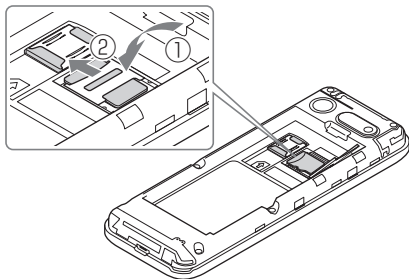

6 Installing Battery (P.1-12)

■ **Removing SD Card**

1 Open Battery Cover (P.1-11)

2 Removing Battery (P.1-13)

3 Press and hold SD Card Slot Cover with
pad of finger and slide it in direction ①
until it clicks unlocked. Lift SD Card Slot
Cover in direction ②
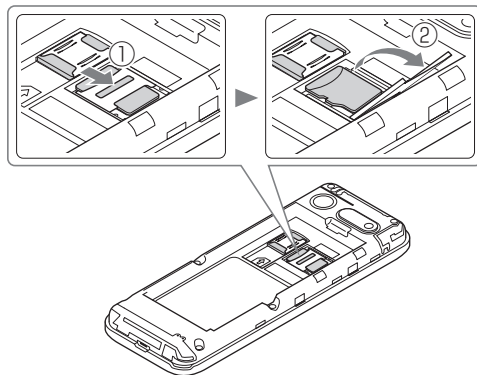

4 Remove SD Card

5 Lock SD Card Slot Cover (P.1-9)

6 Installing Battery (P.1-12)

7 Attach Battery Cover (P.1-12)

Handling Battery and Charger

■ Before Using Battery and Charger

When purchased, Battery is not sufficiently charged. Be sure to charge before initially using.
・For charging time and battery usage time: (P.11-5)

■ About Battery

・Soiled Battery, handset or metal part of Charger (Charging Terminals) may cause poor contact, resulting in power failure or insufficient charging. Clean handset, Battery and Charger with a clean, dry swab.
・Battery is a consumable item. Replace Battery with a new one if the operation time becomes extremely short even after it is fully charged. Purchase a new Battery.
・To help maintain performance and life of Battery, do not store in the following conditions (battery level should be at approximately 40% for optimal storage).
  ・Full (immediately after charging is complete)
  ・Exhausted (too low to power on handset)
・Carry Battery in a bag, etc. when carrying it separately.

■ Charging

・Battery cannot be charged without handset. Install Battery in handset to charge it.
・Charging may take longer when handset is powered on.
・Move Charger away from TV/radio if interference occurs.

■ Battery Life

・Using handset in the following conditions may shorten Battery life:
  ・Extremely high or low temperatures
  ・Handset, Battery or Charging Terminals of Charger is soiled
  ・Weak signal/no signal
  ・Handset is left powered on in mid-operation (not in Standby)
・To extend Battery life:
  ・Set Backlight Time to a shorter time: (P.10-3)
  ・Set Key Sound to OFF: (P.10-6)

■ **Recycling**

Lithium-ion batteries are recyclable. To recycle a used lithium-ion battery, take it to any shop displaying the recycling symbol.
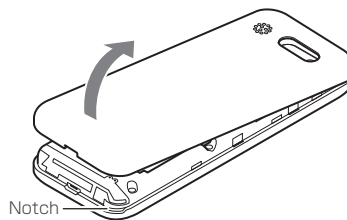

Li-ion 00

モバイル・リサイクル・ネットワーク
携帯電話・PHS のリサイクルにご協力を。

■ **Installing/Removing Battery**

Always power off beforehand.

■ **Installing Battery**

1 Place a fingertip on the notch of handset and hold the center of Battery cover and gently lift Battery Cover in direction shown to remove

• Be careful not to hurt your finger or nail.

Notch

2 Slide Battery in direction ① onto metal terminals, and press into handset in direction ②
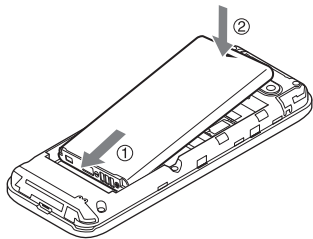

3 Fit Battery Cover on handset, and press Battery Cover in directions shown
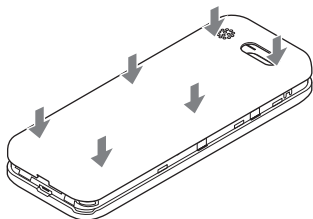

4 Trace the circumference of Battery Cover in direction ① with finger and press and hold in direction ② to install Battery Cover completely

■ Removing Battery

1 Open Battery Cover (P.1-11)

2 Place a fingertip on the removing hook of Battery, and gently lift Battery in direction shown
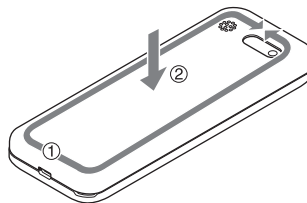

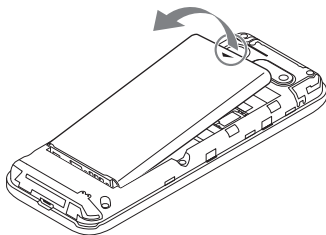

・Be careful not to hurt your finger or nail.

3 Attach Battery Cover (P.1-12)

■ Charging with AC Adapter

AC Adapter is an optional accessory.
After installing Battery, charge handset using AC Adapter (sold separately).

・Use optional AC Adapter (microUSB Quick Charge™ 2.0 compatible) [ZSDBA4][*1], or AC Adapter (microUSB 1.0 A) [ZSDBA6][*2].
・For details on AC Adapters and other peripheral equipment, see SoftBank Website.
・See User Guide for your AC Adapter.
・The following operations are described with using AC Adapter (microUSB 1.0 A) [ZSDBA6].
*1 SoftBank SELECTION Qualcomm® Quick Charge™ 2.0 compatible AC Adapter [SB-AC12-HDQC] for smart-phones
*2 SoftBank SELECTION microUSB Charging AC Adapter 1.0 A [SB-AC13-HDMU] for smartphones

Manner

Please be considerate of people around you and use your handset responsibly.

On Airplanes

Using handset may affect safe operation of aircraft (Follow airline instructions for proper use on an airplane).

In Hospitals

If using or bringing handset is prohibited by medical institutions such as hospitals, follow instructions of each medical institution for use in a hospital.

Congested Places

Persons with an implanted pacemaker, defibrillator, etc. may be around you. Electronic signals may affect operation of implanted pacemakers, defibrillators. Turn off handset.

Public Places such as Cinemas, Theaters, Museums

Using handset in public places may annoy other people around you.

■ Setting Manner Mode/Drive Mode/Original Mode

Three types of manner modes such as Manner Mode/Drive Mode/Original Mode are available for handset.

・The following tones sound in each mode.
  ・Shutter sound for photo shooting
  ・Movie record start/stop
  ・Alarm ringtones
  ・Ringtones for Urgent News

■ Setting Manner Mode

Mute notification sounds such as incoming calls, new mails and other handset sounds such as Key Sound. Handset vibrates for incoming calls and notifications.
・After Manner Mode is set, "🔇" appears in Status Bar.
・Vibration and LED work at initial value settings in Manner Mode.

1 In Standby, Long Press 〔#〕 → "OK"

Manner Mode is set.
  ・In Standby, Long Press 〔#〕 → "OK" each time to set/cancel Manner Mode.
  ・Alternatively, in Standby, 〔■〕 → "Settings" → "Sound/Notification" → "Manner Mode Settings" → "Manner"/"OFF" to set/cancel Manner Mode.

■ Setting Drive Mode

Mute notification sounds such as incoming calls, new mails and other handset sounds such as Key Sound. Incoming calls and notifications appear on the screen.

- When a call is received in Drive Mode, it is answered by a guidance that the call cannot be answered since you are driving, and recorded by Answering Machine.
- After Manner Mode is set, "🚗" appears in Status Bar.
- Handset does not vibrate.

1 In Standby, (■) → "Settings" → "Sound/ Notification" → "Manner Mode Settings"

2 "Drive"

Drive Mode is set.
- In Standby, Long Press (#) → "OK" each time to set/cancel Drive Mode.

## ■ Setting Original Mode

Set whether to sound ringtones according to the ringtone type.

- After Manner Mode is set, "🔇" appears in Status Bar.

1 In Standby, (■) → "Settings" → "Sound/ Notification" → "Manner Mode Settings"

2 "Original"

Original Mode is set.
- When setting ringtone type, (●) (Edit) → Set each item → (●) (Set).
- When resetting ringtone type, (●) (Edit) → (✉) (Reset) → "Yes" → (●) (Set).
- In Standby, Long Press (#) → "OK" each time to set/cancel Original Mode.

Airplane Mode

Suspend signal-transmitting functions and disable functions such as making/receiving calls, sending/receiving mails.

- After Manner Mode is set, "" appears in Status Bar.

1 In Standby, (■) → "Settings" → "Network"

2 Check "Airplane Mode" (✓)

Airplane Mode is set.
- To cancel, uncheck "Airplane Mode" (□).

Security Codes

When using handset, the following security codes are required.

Handset Code	Code required for using each function. It is not set by default.
Lock No./ Password	Code for unlocking screen. It is not set by default.
Security Code	4-digit code in contract. Required for changing details of contract, using optional services from landlines, etc.

- Do not forget Security Code. If you forget the code, servicing is required. For details, contact Inquiries (P.11-25).
- Be careful not to reveal security codes to others. If misused by others, SoftBank Corp. is not liable for any resulting damages.

PIN Code

PIN Code is a code for USIM Card.
It is used to prevent unauthorized use by others. It is set to 9999 by default.

■ Enabling PIN Code

When PIN code is enabled, set to show the screen where PIN entry is required for handset use each time handset is powered on with USIM Card installed.

1 In Standby, (■) → "Settings"

2 "Security" → "USIM Card Lock Settings" → Check "Lock USIM Card" (✓)

3 Enter PIN code → (■)

PIN code is enabled.

■ Changing PIN Code

Changing PIN code is available only when PIN code is enabled.

1 In Standby, (■) → "Settings"

2 "Security" → "USIM Card Lock Settings" → "Change USIM PIN"

3 Enter current PIN code → (■)

4 Enter new PIN code → (■)

5 Enter new PIN code → (■)

PIN code is changed.

⚠ CAUTION

Wrong PIN Code Input

• If wrong PIN is input three times in a row, PIN is locked, and handset usage is restricted.
Enter Personal Unblocking Key (PUK code) to release PIN lock. (P.1-22)

■ **Canceling PIN Lock (PUK Code)**

• For Personal Unblocking Key (PUK code), contact Inquiries (P.11-25).

1 Enter PUK code → ▣

2 Enter PIN code → ▣

3 Enter PIN code again → ▣

　 PIN lock is canceled.
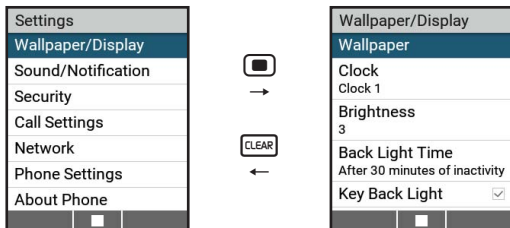

⚠ CAUTION

Wrong PUK Code Input
• If wrong PUK is input ten times in a row, USIM Card is locked, and handset is no longer operable. Input carefully; a locked USIM Card will need to be reissued (fees apply) at a SoftBank shop.

● **Resetting Phrases**

Reset phrases to default.

1 In Text Entry window, ✉ (Menu) → "Input Settings" → "Phrase" → Select a phrase category → ■

2 Select a phrase to reset → ✉ (Menu) → "Reset one"/"Reset All" → "Yes"

Phrase is reset to default.

■ Quoting Information to Enter

Information saved to handset such as Contacts, Call Log, Bookmark, Profile, Phrase, Notepad can be quoted and entered.

1 In Text Entry window, ✉ (Menu) → "Quotation"

2 Select an item to quote → ■ → Select information to quote → ■

The quoted information is entered.

■ Entering Spaces

■ Entering a Space at the End of Sentence

1 Move the cursor to the end of sentence → ◀

A space is entered.

■ Entering a Space in the Middle of Sentence

1 Move the cursor to the place to enter a space in → # (6 times) → ■

The space is entered.

■ Inserting a Line Break

1 Move the cursor to the place to insert a line break in → ✳

The line break is inserted.

Editing Text

■ Deleting Entered Text

■ To delete a character at the end of sentence

1 Move the cursor to the end of sentence → `CLEAR`

The character is deleted.
• Long Press `CLEAR` to delete all the characters.

■ To delete characters in a sentence

1 Move the cursor to the right of the characters you want to delete → `CLEAR`

The character is deleted.
• Long Press `CLEAR` to delete all the characters to the left of the cursor.

■ Copying/Cutting/Pasting

Store text by copying or cutting and paste it.

1 In Text Entry window, (Menu) → "Select area(Copy etc)"

2 Move the cursor to the right/left of the text to select → (Start) → Move the cursor to the left/right to select the whole text → (End) → "Copy"/"Cut"

3 Move the cursor to where you want to paste → (Menu) → "Paste"

The copied/cut text is pasted.

User Dictionary

Registered words appear as Conversion Candidates.

■ Registering Words

1 In Text Entry window, [✉] (Menu) → "Input Settings"

2 "User dictionary"

3 [✉] (Menu) → "Add"

4 Select "Word" field → [■] (Edit) → Enter a word → [■]

5 Select "Reading" field → [■] (Edit) → Enter the reading → [■] → [⊕] (Save) → "OK"

The word is registered.

■ Registering Words from Already Entered Text

Entered text can be registered during character entry.

1 In Text Entry window, [✉] (Menu) → "Select area(Copy etc)"

2 Move the cursor to the right/left of the text you want to register → [■] (Start) → Move the cursor to the left/right to select the whole text → [■] (End) → "Add word"

3 Select "Reading" field → [■] (Edit) → Enter the reading → [■] → [⊕] (Save) → "OK"

The word is registered.

Editing Words

1 In Text Entry window, ☒ (Menu) → "Input Settings"

2 "User dictionary"

3 Select a word to edit → ☒ (Menu) → "Edit"

4 Edit Word and Reading → ⊕ (Save) → "OK"

The word is edited.

Deleting Words

1 In Text Entry window, ☒ (Menu) → "Input Settings"

2 "User dictionary"

3 Select a word to delete → ☒ (Menu) → "Delete one"/"Delete all" → "Yes" → "OK"

The word is deleted.

Text Entry Settings

Set operations for text entry.

Setting Predictive Conv

Set whether to use predictive conv.

1 In Text Entry window, ☒ (Menu) → "Input Settings" → "Input Settings"

2 "Predictive Conv" → "ON"/"OFF"

Predictive Conv is set.

Setting Auto Cursor

Set whether to move the cursor automatically right after inputting a character.

1 In Text Entry window, ☒ (Menu) → "Input Settings" → "Input Settings"

2 "Auto cursor move" → "Fast"/"Normal"/"Slow"/"OFF"

Auto cursor is set.

■ Reset

Reset learning dictionary and reset text input settings to default.

・Learning dictionary is a function to preferentially show already entered Predictive Conv candidates.

1 In Text Entry window, [⊠] (Menu) → "Input Settings" → "Input Settings"

2 "Reset" → "Reset learning"/
"Reset settings" → "Yes" → "OK"

Learning dictionary or text input settings is reset.

■ Using Phone Book

Save names, phone numbers and mail addresses to use to frequently call and exchange mails. In addition, save birthdays, constellations, etc.

⚠ CAUTION

・Note that having Battery removed for extended period or leaving Battery low may cause data saved to Phone Book to be erased or altered. Accidents, malfunctions, repairs, handset upgrade/replacement, mishandling, etc. also may cause data saved to Phone Book to be erased or altered.

Back up important contacts and other data regularly. Note that SoftBank Corp. is not liable for any damages arising from loss/alteration of Phone Book.

■ Viewing Entries

1 [▣] in Standby

Entry List window appears.

2 Select a contact to view → [■]

Entry Details window appears.
・Select a phone number to make a call or create SMS, etc.
・Select mail address to create S!Mail, etc.

2

Operations in Common

2-13

■ Saving Entries to Phone Book

Save an entry with name, phone number, mail address, etc. to Phone Book

1 In Standby, ⬜ → ✉ (Menu) → "Add new entry"

2 Enter each item

Item	Description
Photo	Save an image to show for a contact. • Selecting an image to save "Data Folder" → Select a folder → ■ → Select an image → ■ (Play) → ⊕ (Done) → Adjust trimming* → ■ • Shooting a photo to save "Take photo" → Take a photo → ⊕ (Done) → Adjust trimming* → ■ * Press ✉ (Size) to change the size while trimming.
First name	Enter First name
Last name	Enter Last name

Item	Description
Phonetic last name	Entering Last name automatically saves Last name reading. Last name reading can be changed manually.
Phonetic first name	Entering First name automatically saves First name reading. First name reading can be changed manually.
Phone	Entering a phone number • Up to five numbers can be added. Select "Phone Number Type" such as "Mobile", "Work Mobile."
E-mail Address	Enter your mail address. • Up to five numbers can be added. Select "Mail Type" such as "Mobile", "Home."
Address	Enter Postcode, Country, Region, City, street and additional information. Select "Residence Type" such as "Home", "Work."
Company	Enter company name.
Department	Enter Department name.
Title	Enter job title.
Website	Enter URL of a website.
Birthday	Enter birthday.

Item	Description
Constellation	Select constellation.
Notes	Enter notes.
Groups	Select a group. • Set groups beforehand. • When groups are not set, follow onscreen instructions to save. (P.2-18)
Secret	Set not to display in Phone Book.

3 ⊕ (Save)

The entry is saved to Phone Book.

📨 INFORMATION

- Alternatively, in Standby, ■ → "Phone" → "Create New Entry" to create a new entry.
- To show contacts set for Secret, in Standby, ⬚ → ✉ (Menu) → "Settings" → "Displayed secret data" → "Displayed."

● **Saving New Entries to Phone Book from Other Functions**

Save currently shown phone numbers or mail addresses to Phone Book.

E.g.) Save a phone number from Incoming History

1 In Standby, ▶ → Select a phone number → ✉ (Menu) → "Save to phone book"

2 "Add new entry" → Enter each item

■ To add to an existing entry

"Add to entry" → Select a contact to add → ■ → Enter each item.

3 ⊕ (Save)

The entry is saved to Phone Book.

• When adding to an existing entry in step 2, select "Overwrite"/"Create new entry."

■ Making Calls from Phone Book

1 ⬚ in Standby

Entry List window appears.

2 Select a contact to make a call → ⬚

Handset dials the number.

- ⬚ to change a tab.
- Alternatively, enter a part of Reading to find the number.
- If no entry matches entered Reading, entries close to Reading appear.

■ To select a number to make a call

Select a contact → ■ → Select a phone number → ■ → "Call."

- If multiple phone numbers are saved, select a number to make a call.

■ Using Entry List Window

Operations such as registering new entries, editing, deleting are available.

1 In Standby, ⬚ → ⬚ (Menu) → Select each item

Item	Description
Add new entry	Save a new Phone Book entry. (P.2-14)
Edit	Edit entries. (P.2-14)
Delete	Delete entries. (P.2-16)
Send	Send contact information via S!Mail or infrared. (P.2-17, P.2-17)
View Mode Settings	Set entry display. (P.2-15, P.2-17)
Confirm memory	Show the number of entries.
Group	Set the group. (P.2-18)

● Deleting Entries

1 In Standby, ⬚ → Select a contact → ⬚ (Menu) → "Delete"

2 "One Item" → "Yes"

The entry is deleted.

■ **To delete multiple contacts**

"Delete multiple" → Check contacts to delete (☑)
→ 🌐 (Delete) → "Yes."
• While selecting contacts to delete, ☑ (Menu) →
"Check all"/"Uncheck all" to select/cancel all the
contacts.

● **Attaching Contacts to S!Mail to Send**

1 In Standby, 🔲 → Select a contact →
☑ (Menu) → "Send"

2 "Attach to mail"

3 "Attach one"

New S!Mail composition window with the con-
tact attached to appears.
• For the following operations, see "Creating/
Sending S!Mail" (P.4-6).

■ **To attach multiple contacts**

"Attach selection" → Check contacts to attach (☑
) → 🌐 (Done).
• While selecting contacts to attach, ☑ (Menu) →
"Check all"/"Uncheck all" to select/cancel all the
contacts.
• For the following operations, see "Creating/Send-
ing S!Mail" (P.4-6).

● **Sending Contact Information via Infra-red**

1 In Standby, 🔲 → Select a contact →
☑ (Menu) → "Send"

2 "Send Infrared" → "1 Record"/"All Records"

Infrared communication window appears.
• For the following operations, see "Sending
Data" (P.7-5).

● **Setting Display Picture of Entry List Window**

1 In Standby, 🔲 → Select a contact →
☑ (Menu) → "Settings"

2 "Display picture" → "Displayed"/"Not dis-
played"

The image in Entry List window is displayed/
not displayed.

● **Setting Change View of Entry List Window**

1 In Standby, 🔲 → Select a contact →
☑ (Menu) → "Settings"

2 "Change view" → "Name order"/"Group"

The order of entries in Entry List window display is changed.

■ Using Menu in Entry Details Window

Operations such as editing or deleting entries, sending S!Mail, sending infrared are available.

1 In Standby, 🔲 → Select a contact → 🔲
→ 🖾 (Menu) → Select each item

Item	Description
Edit	Edit entries. (P.2-14)
Delete	Delete entries. (P.2-16)
Attach to mail	Attach contacts to S!Mail to send. (P.4-6)
Send Infrared	Send contact information via infrared. (P.7-5)

■ Using Groups

Register multiple entries as a group to use.

■ Saving Groups

1 In Standby, 🔲 → "Phone" → "Group"

2 🖾 (Menu) → "Add new group" → "Group's name" → Enter a group name → 🔲

3 "Group's members" → Check members (✓) to register → 🌐 (Done) → 🌐 (Done)

The group is registered.

● Editing Group

1 In Standby, 🔲 → "Phone" → "Group"

2 Select a group → 🖾 (Menu) → "Edit group" → Select each item → 🔲 → Edit the contents → 🌐 (Done)

The group is edited.

Screenshot

● Deleting Groups

1 In Standby, $\boxed{■}$ → "Phone" → "Group"

2 Select a group → $\boxed{✉}$ (Menu) → "Delete group" → "Yes"

The group is deleted.

■ Using Groups

Find an entry from existing groups.

1 In Standby, $\boxed{■}$ → "Phone" → "Group"

2 Select a group → $\boxed{■}$

Entries that belong to the group are shown.

Capture a screenshot of the current screen.

・Available for all but some applications.
・Captured screenshots can be checked in "Pictures", etc. in Data Folder.

■ Capturing Screenshots

1 Long Press $\boxed{✉}$ and $\boxed{⊕}$ at the same time

to capture a screenshot of the current screen after the shooting sound.

3 Phone

Making Calls

There are four ways to make voice calls with handset.
- Entering a phone number (P.3-2)
- Selecting from Call Log (P.3-4)
- Using Quick Dial (P.3-5)
- Selecting from Phone Book (P.2-16)

INFORMATION

HD Voice
- Since HD Voice supports a wide range of sound from high-pitched to low tone, more natural and clearer voice calls are available. Available for communication with SoftBank/Y!mobile devices that support HD Voice.
- HD Voice supports VoLTE and 3G networks. Higher voice call quality is possible for the use of HD voice with VoLTE.

CAUTION

- Communication is not possible even inside the service area in places where the signal does not reach (e.g. tunnels and basements). Communication may be interrupted in poor reception areas. And if you move to a location with weak or poor signal reception during calls, calling may be suddenly interrupted.

■ Entering a Phone Number to Make a Call

1 In Standby, enter a phone number including area code

> **Input Dial**
>
> ℂ 090XXXXXXXX
>
> ✕ Hold:+
> Menu | Call
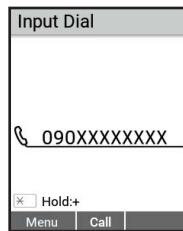

Dial Window

Dial window appears.
- Always enter area code even from within the same area code.
- When entering wrong number, move the cursor to the right of the digit you want to correct → CLEAR to delete the number.

2 📞/■ (Call)

Handset dials the number. Call begins when other party answers.
- To end call before other party answers: 📵

3

Phone

3-2

- To switch the speaker to ON/OFF before other party answers: ■ (HF ON)/■ (HF OFF)
- To use functions available during a call: (P.3-3)

3 After the call ends → 📵

Handset ends the call.

■ Using Notify Caller ID

Set whether to send your Caller ID to other party.
- Setting Notify Caller ID (P.3-19)
- Setting Notify/Hide Caller ID when placing calls.
  Notify: 186 + a phone number → 📶/■ (Call)
  Hide: 184 + phone number → 📶/■ (Call)

■ Operations during a Call

Operations during a call are as follows:

Item	Description
Adjust volume	🔲 • Adjustable to 6 levels.
End the call	📵
Show Phone Book	✉ (Menu) → "Phone Book" → Select a contact → ■ • Making a call is not available.

Item	Description
Show Call Log	✉ (Menu) → "History" → "Outgoing History"/"Incoming History" → Select a history → ■ • Making a call is not available.
Show your phone number	✉ (Menu) → "Profile"
Hold	📶 • Alternatively, ✉ (Menu) → "Hold" to put an incoming call on hold. • To release the call that is put on hold, press 📶/■ (Resume).
Speaker ON/speaker OFF	■ • Set/cancel to hear the caller's voice from the speaker. • To set the speaker to OFF, press ■ (HF OFF). • Alternatively, ✉ (Menu) → "Speaker ON"/"Speaker OFF" to toggle the speaker ON/OFF.
Mic OFF/Mic ON	✉ (Menu) → "Mic OFF"/"Mic ON" • If "Mic OFF" is selected, the third party cannot hear your voice.
Pause	✉ (Menu) → "Pause" → "Automatic(,)"/"Manual(;)"
Sound quality adjustment	⊕ (Setting) → "Clearly"/"Mildly"/"Normal"

■ Selecting from Call Log to Make a Call

1 ☒ in Standby

🔽: Show incoming call history
🔼: Show outgoing call history
• Call Log: (P.3-12)

2 Select a phone number or name

• When a name and phone numbers are registered to Phone Book, the name is shown.
• Press ☒ to toggle outgoing/incoming call history.

3 ☎

Handset dials the number.
• To end call before other party answers: ☎
• To use functions available during a call: (P.3-3)

4 After the call ends → ☎

Handset ends the call.

■ Confirming a Phone Number to Make a Call

Select a name from Call Log and confirm a phone number to make a call.

1 In Standby, ☒ → Select a name → ■

History Details window appears to confirm the phone number.

2 ☎

Handset dials the number.
• Alternatively, ☒ (Menu) → "Call" to make a call.
• To end a call before other party answers: ☎
• To use functions available during a call: (P.3-3)

3 After the call ends → ☎

Handset ends the call.

Registering to Dial Keys to Make a Call (Quick Dial)

If phone numbers are registered to Dial Keys, Long Pressing a dial key in Standby enables simple phone number entry.

Registering to Quick Dial

Up to 10 phone numbers in Phone Book can be registered.

1 In Standby, **■** → "Settings" → "Call Settings" → "Quick Dial"

Quick Dial window appears.

2 Select a phone number → **■** (Edit)

Phone Book appears.
- The first number corresponds to the number of Dial Keys.

3 Select a phone number or name to register → **■**

It is registered to the selected number.
- When multiple phone numbers are registered to an entry, select a phone number to register → **■**.

Making a Call by Quick Dial

1 Long Press **0** to **9** in Standby

Dial window with a phone number corresponding to the number of Dial keys appears.

2 **⌕**/**■** (Call)

Handset dials the number.
- To end call before other party answers: **⌾**
- To use functions available during a call: (P.3-3)

3 After the call ends → **⌾**

Handset ends the call.

Canceling Quick Dial Registration

1 In Standby, **■** → "Settings" → "Call settings" → "Quick Dial"

Quick Dial window appears.

2 Select a phone number or name to cancel → **✉** (Menu)

3 "Cancel One"/"Cancel All" → "Yes"

The number registered to Quick Dial is canceled.

Answering Calls

■ Making International Calls

Make voice calls from Japan to outside Japan.

1 In Standby, Long Press [✳] to enter "+"
→ Enter country code → Enter a phone
number → [📞]/[■] (Call)

- For more information on international call rates, visit SoftBank Website (https://www.softbank.jp/).
- To end call before other party answers: [📵]
- To use functions available during a call: (P.3-3)

2 After the call ends → [📵]

Handset ends the call.

Ringtone sounds for an incoming call.
The caller's phone number or name saved in Phone Book appears when Caller ID is sent.

- If not, neither a phone number or name appears.

1 While a call is arriving, [📞]/[■] (Answer)
→ Talk to the caller

```
Talking                    🔟
        ⊙
   Seiko Hanako
📞 090XXXXXXXX
   Talking Time
     00:12
📞 Hold
Menu    HF ON    Setting
```

Window during a Call

- To use functions available when a call arrives: (P.3-7)
- To use functions available during a call: (P.3-3)
- Alternatively, when Any Key Answer (P.10-8) is set to ON, press 📳/[文字]/[📷]/Dial Keys (except [#]) to answer a call.
- " 🔟 " appears for HD Voice during a call.

2 After the call ends → [📵]

Handset ends the call.

3

Phone

VoLTE

■ Functions Available When a Call Arrives

Use functions as follows when a call arrives.

Item	Description
Stop ringtone or vibration	井
Adjust ringtone volume	◪
Answer by SMS	◳ (Menu) → "Reply with SMS" → Select a message → ■ → ● (Send)
Answer by Answering Machine	Answering Machine: (P.3-8)
Put an incoming call on hold	Putting an incoming call on hold: (P.3-8)
Reject an incoming call	Rejecting an incoming call: (P.3-9)

VoLTE (Voice over LTE) is an LTE-based voice call system. Compared to voice calls with conventional 3G networks, higher-quality sound and shorter time until ringback tones sound are benefits (requires separate VoLTE subscription).

- Available for communication with SoftBank devices that support HD Voice.

  Handset/other devices must be in an FDD-LTE service area and "4G/3G Auto" settings must be enabled.
- As of September 2017, Simple Style does not support VoLTE.

  For details, see SoftBank Website.

■ Setting Mobile Network

Set Mobile Network to "4G/3G Auto" to use VoLTE.

1 In Standby, ■ → "Settings" → "Network" → "Mobile Network" → "Select Network" → "4G/3G Auto"

Mobile Network is set to "4G/3G Auto."

Operations when too Busy to Answer a Call

■ Putting an Incoming Call on Hold

Incoming calls can be put on hold.
- The state is during a call while the call is put on hold

1 While a call is arriving, ▭

The incoming call is put on hold.
- The caller hears a hold message.
- To answer a call that is put on hold: ⌒/■ (Answer)
- To end a call that is put on hold: ▭

■ Recording Answer Memo

Record the callers' messages (Answering Machine). The maximum recording time is 30 seconds per message, and the maximum number of messages to record is 5.

1 While a call is arriving, CLEAR

The caller hears a response message. After that, the caller's message will be recorded.
- Alternatively, while a call is arriving, ▣ (Menu) → "Answer Phone" to activate Answering Machine.

- Automatic activation of Answering Machine can be set. (P.3-8)
- When recorded messages are full, Answering Machine cannot be activated.
- To answer a call while Answering Machine is responding: ⌒/■ (Answer)

■ Checking Answer Memo

1 CLEAR in Standby

2 Select a phone number or name to play → ■ (Play)

The message is played.

■ Activating Answering Machine Automatically

When a call arrives, set to play the response message automatically and record Answer Memo.
- Answering Machine is not available when handset is powered off, Airplane mode is set or no signal is received.

● Setting/Canceling Answering Machine

1 Long Press CLEAR in Standby → "OK"

Answering Machine is set.
- To Cancel Answering Machine, Long Press

CLEAR again → "OK."
- In Standby, ■ → "Settings" → "Call Settings" → "Answering Machine" → Check/uncheck "Answering Machine" (☑)/(☐) to set/cancel Answering Machine.

● **Changing Time until the Caller Hears Response Message**

Set the time to 0 to 30 seconds until the caller hears a response message.
It is set to 10 seconds by default.

1 In Standby, ■ → "Settings" → "Call Settings" → "Answering Machine" → "Waiting Time"

2 Set the time → 🌐 (Done)

Waiting Time is set.

■ Rejecting an Incoming Call

1 While a call is arriving, ✉ (Menu) → "Reject"

The incoming call is rejected and the call ends.

Reject incoming calls from previously specified phone numbers or unregistered callers to Phone Book.

Incoming calls from the following phone numbers can be restricted by handset.
- Specified phone numbers (P.3-9)
- Unavailable phone numbers (P.3-11)
- Payphone (P.3-11)
- Withheld phone numbers (P.3-11)
- Unregistered phone numbers to Phone Book (P.3-11)

or only incoming calls from specified phone numbers can be accepted. (P.3-11)

■ Specifying Phone Numbers to Reject Incoming Calls from

Register phone numbers that you restrict for incoming calls to Black List.
Up to 20 phone numbers can be registered to Black List.

■ Registering to Black List

Enter phone numbers or select Phone Book or Call Log to register phone numbers to Black List.

1 In Standby, ■ → "Settings" → "Call Settings" → "Reject Incoming Calls"

2 "Reject List" → "Edit Black List"

3 Select <Add> → ■ (Edit)

 • When items of the registered phone numbers are selected, contents can be edited.

4 Enter a phone number → 🌐 (Done)

 The phone number is registered to Black List.
 • When "Phone Book"/"Call Log" is selected, phone numbers can be entered from Phone Book or incoming/outgoing call history.
 • To specify multiple phone numbers, repeat step 3 and 4.

● **Registering to Black List from Call Log**

1 In Standby, 📞 → Select a phone number or name to reject

2 📩 (Menu) → "Add To Rejection" → Select register location → ■

 The phone number is registered to Black List.
 • After selecting a registered entry, select "Yes."

■ **Deleting Phone Numbers from Black List**

1 In Standby, ■ → "Settings" → "Call Settings" → "Reject Incoming Calls"

2 "Reject List" → "Edit Black List"

3 Select a phone number to delete → 📩 (Menu)

4 "Delete One" → "Yes"

 The phone number is deleted.

■ **To delete multiple phone numbers**

 "Delete Multiple" → Check phone numbers (☑) to delete → 🌐 (Delete) → "Yes."
 • While selecting phone numbers to delete, 📩 (Menu) → "Check All"/"Uncheck All" to select/cancel all the phone numbers.

■ **Enabling/Disabling Reject Incoming Calls**

Set whether to reject incoming calls from phone numbers registered to Black List.

1 In Standby, ■ → "Settings" → "Call Settings" → "Reject Incoming Calls"

2 "Reject List" → "Reject Setting"

3 "Reject Message"/"No Message"/"OFF"

Reject Incoming calls is enabled/disabled.
• When "Reject Message" is selected, press ⊕ (Confirm) to play the message.

Rejecting Incoming Calls from Withheld/ Payphone/Unavailable Phones

1 In Standby, ■ → "Settings" → "Call Settings" → "Reject Incoming Calls"

2 "Withheld"/"Payphone"/"Unavailable"

3 "Reject Message"/"No Message"/"OFF"

Reject Incoming calls is enabled/disabled.
• When "Reject Message" is selected, press ⊕ (Confirm) to play the message.

■ **Rejecting Incoming Calls from Unknown Phone Numbers**

1 In Standby, ■ → "Settings" → "Call Settings" → "Reject Incoming Calls"

2 "Unknown"

3 "Reject Message"/"No Message"/"OFF"

Reject Incoming calls is enabled/disabled.
• When "Reject Message" is selected, press ⊕ (Confirm) to play the message.

Call Log

Check outgoing/incoming call history. And make a call from Call Log and register to Phone Book.

■ Call Log List Window

In Standby, press 🖱/🖱 to show Call Log list window.
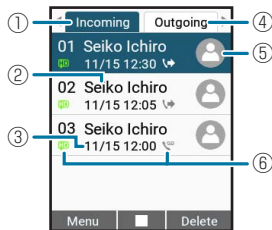

**Call Log List Window
(Incoming calls)**

Notes	Enter notes.

3 Phone

3 (Set)

Your profile is registered.

■ Using Menu in Profile Window

Operations such as editing profile, resetting, sending S!Mail, sending infrared are available.

1 In profile window, [✉] (Menu) → Select each item

Item	Description
Edit	Information such as name, mail address can be registered. (P.3-14)
Reset	Reset all the profiles except for your phone number (handset phone number).
Attach to mail	Send profile by S!Mail. (P.4-6)
Send Infrared	Send profile by infrared. (P.7-5)

Emergency Calls

Call 110 (Police), 119 (Fire & Ambulance) or 118 (Japan Coast Guard) even when Call Barring is activated.

● Situations Where Emergency Call is Available

- Airplane Mode is set
  ※ Making an emergency call disables Airplane Mode.
- Screen Lock is set
- All outgoing calls are barred
- In PIN entry window
- In PUK entry window

● Emergency Location Report

Your location is automatically reported to the corresponding agency such as police when you place an emergency call. This system is called "Emergency Location Report." The reported location is based on the positioning signals sent from base stations to handset.

- No application fees or connection fees apply.
- Reported location may be inaccurate, depending on the caller's location and signal strength. Make sure to provide your location, nearby landmarks and purpose on the phone.
- Dial "184" before emergency numbers not to report your location. However, first responders may obtain your location information for situations where an immediate and serious threat to life is concerned.

Using Call Services

■ Call Services

The following call services are available for handset.
・For more information on services, visit SoftBank Website (https://www.softbank.jp/).

Service	Description
Call Barring Service (P.3-17)	Restrict making/receiving calls and sending/receiving SMS.
Notify Caller ID Service (P.3-19)	Set whether to send your Caller ID to other party.

■ Setting Call Barring Service

Set to restrict outgoing/incoming calls.

● Outgoing Call barring

Item	Description
Bar All Outgoing Calls	All outgoing calls cannot be placed.
Bar All International Calls	International calls cannot be placed except for calls within a country where you stay.
Bar International Calls	International calls cannot be placed except for calls within a country where you stay and Japan.
Enable Outgoing Calls	Deactivate all outgoing call barring.

● Incoming Call barring

Item	Description
Bar All Incoming Calls	All incoming calls cannot be placed.
Bar All Roaming Calls	All incoming calls cannot be accepted except for Japan.
Enable Incoming Calls	Deactivate all incoming call barring.

1 In Standby, $\boxed{\blacksquare}$ → "Settings" → "Call Settings" → "Optional Services" → "Call Barring"

Call Barring window appears.

■ **Starting Call Barring Service**

● Setting Outgoing Call Barring

1 In Call Barring window, "Outgoing Calls" → "Bar All Outgoing Calls"/"Bar All International Calls"/"Bar International Calls" → "OK"

Outgoing call barring is activated.

● Setting Incoming Call Barring

1 In Call Barring window, "Incoming Calls" → "Bar All Incoming Calls"/"Bar All Roaming Calls" → "OK"

Incoming call barring is activated.

■ **Deactivating Call Barring**

● Deactivating outgoing call barring

1 In Call Barring window, "Outgoing Calls" → "Enable Outgoing Calls" → "OK"

Outgoing call barring is deactivated.

● Deactivating incoming call barring

1 In Call Barring window, "Incoming Calls" → "Enable Incoming Calls" → "OK"

Incoming call barring is deactivated.

■ Setting Notify Caller ID

Set to whether to notify the third party of your phone number when making a call.

1 In Standby, $\blacksquare$ → "Settings" → "Call Settings" → "Notify Caller ID"

2 "ON"/"OFF"

Notify Caller ID is set.

4 Mail

Mail Type

● S!Mail

Exchange mails with SoftBank mobile phones (S!Mail compatible devices), other mobile providers' terminals, computers/other email-compatible devices. Mail sending of text messages longer than SMS, attaching images, videos, etc. are possible.

● SMS

Exchange short text messages (70 double-byte/single-byte characters/alphanumerics) using phone numbers of mobile phones as recipients.

Mail Window

■ Mail List Window

In Standby, 📧 → "Inbox"/"Sent"/"Draft/Unsent" to show Mail List window.
・For Inbox, select the folder → ▣.

Changing Mail Address

Default account name is random alphanumerics. To avoid receiving spam, a mail address that cannot easily be guessed is preferable.

sbk123-abc @softbank.ne.jp

  Account   Domain Name
   Name
 (Customize
    this)

- For more information, visit SoftBank Website (https://www.softbank.jp/).

1 In Standby, **[✉]** → "Settings" → "Number/ Address Settings" → "Visit My SoftBank"

Connect to My SoftBank.
- Follow onscreen instructions.

■ Registering Mail Address

When the mail address is changed, SoftBank sends handset the notification that the mail address change is completed.
Follow the operations below to register the changed mail address to "Profile" in handset.

1 In Confirmation window " メールアドレスを更新しますか? (Update the email address?)", press **[✉]** (Yes)

The mail address is registered to handset.

Sending S!Mail/SMS

S!Mail/SMS that handset can send are as follows:

Item		S!Mail		SMS	
To	Mail Address	○	Up to 256 single-byte alphanumerics/ Up to 20 recipients	×	–
	Phone Number	○		○	Up to 256 single-byte alphanumerics/ Up to 1 recipients
Subject		○	Up to 50 double-byte characters Up to 100 single-byte alphanumerics	×	–
Mail Body		○	Up to 15000 double-byte characters Up to 30000 single-byte alphanumerics	○	Up to 70 double-byte/ single-byte characters/ alphanumerics
Attachment		○	*1	×	–

*1 Maximum S!Mail size is 2MB including the subject, message body and attachments.

■ Creating/Sending S!Mail

E.g.) Select a Phone Book entry to send S!Mail
・Recipients can be selected from Sent/Received history or entered directly. (P.4-7)

1 Long Press ✉ in Standby

New S!Mail composition window appears.
・Alternatively, in Standby, ✉ → "Create New" to show new S!Mail composition window.

2 Select Recipient field → ▣ → "Address book"

3 Select a recipient → ▣

4 Select mail address/phone number → ▣

5 Select Subject field → ▣ → Enter subject → ▣

6 Select Message Field → ▣ → Enter message → ▣

7 🌐 (Send)

The S!Mail is sent.

■ Attaching Files such as Images

E.g.) Attach a file from Data Folder

1 Select Attachment field in new S!Mail composition window → ▣

2 "DataFolder" → Select a folder → ▣ → Select a file → ▣ (Play)

・When SD Card is inserted, toggle "Phone"/"SD" with 🌐. (P.9-2)

■ Shooting Photo/Movie to Attach

"Camera(Photo)"/"Camera(Movie)" → Shoot Photo/Movie
・Shooting: (P.6-4, P.6-5)

3 🌐 (Done)

The file is attached.

■ To view/play attached file

Select Attachment field where a file is attached → ▣
・Some files may not be shown properly depending on the file type.
・Some functions of PDF file view are limited. (P.9-2)

■ Adding Attachments

Select Attachment field where a file is not attached → ▣

- For the following operations, follow step 2 in "Attaching Files such as Images." (P.4-6)

■ To delete attached files

" ⊗ " in Attachment field where a file is attached → "Yes."

⚠ CAUTION

- Some files cannot be attached depending on the file type or size.
- Some copyright protected files cannot be sent.

■ **Recipient Entry**

How to enter recipients is described.

1 Select Recipient field in new S!Mail composition window → (■)

■ To add recipients

Select Recipient field where the recipient is already entered in new S!Mail composition window → (■) → Select empty Recipient field → (■)

■ To edit recipients

Select Recipient field where the recipient is already entered in new S!Mail composition window → (■) → Select the recipient to edit → (■)
- Select a recipient to edit → (☒) (Menu) → "Change to To"/"Change to Cc"/"Change to Bcc" to change the recipient to To/Cc/Bcc.

■ To delete recipients

" ⊗ " on the recipient in new S!Mail composition window → "Yes"
- Alternatively, select Recipient field where the recipient is already entered in new S!Mail composition window → (■) → Select the recipient to delete → (☒) (Menu) → "Delete" → "Yes" to delete.

2 Enter a recipient

The recipient is entered.

■ To quote Phone Book

"Address book" → Select a recipient → (■)

■ To quote Sent/Received history

"Sent history"/"Received history" → Check history (☑) → (●) (Accept)

■ To quote My profile

"My profile"
- Handset phone number is entered.

■ To quote Mail Group

"Mail Group" → Select mail groups → (■)
- Mail Group: (P.4-22)

■ To input recipients directly

"Direct input" → Enter mail address/phone number → (■)

4

Mail

■ Using Menu While Creating S!Mail

Operations such as changing to SMS, saving as draft, discarding, previewing are available.

1 In new S!Mail composition window, $\boxdot$ (Menu) → Select each item

Item	Description
Change to SMS	Change the S!Mail to SMS.
Save*	Save the S!Mail that you are creating as draft.
Discard	Discard the S!Mail that you are creating.
Preview*	Preview the S!Mail that you are creating.

* Not available unless recipient/subject/message is entered.

■ Limiting S!Mail File Size

Limit S!Mail file size to create.

1 In Standby, $\boxdot$ → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Send Mail Size" → "300KB"/"2MB"

The file size to send is limited/unlimited.

■ Quote Replay

Set whether to quote original text when replying to S!Mail.

1 In Standby, $\boxdot$ → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Quote Reply" → "Quote"/"Not quote"

Quote Reply is set/canceled.

■ Limiting Image Size to Send

Limit the image file size to attach to S!Mail.

1 In Standby, $\boxdot$ → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Sending Image Size" → "300KB"/"No Limit"

The image size to send is set/canceled.

■ Checking Delivery Reports

Delivery reports can be received when other party receives SMS.

1 In Standby, $\boxdot$ → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Delivery Reports" → "Set"/"Do not set"

Delivery Reports are set/canceled.

■ Setting Signature

Set whether to add signature when creating S!Mail.

1 In Standby, [✉] → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Signature" → "Set"/"Do not set"

Signature is set/canceled.
• When "Set" is selected, enter signature → [■] → [🌐] (Done) to edit Signature.

■ Setting Text Encoding

Set Text Encoding for S!Mail that you send.

1 In Standby, [✉] → "Settings" → "Send/ Receive Settings" → "Send Settings"

2 "Charset of Composer" → "UTF-8"/"Shift_ JIS"

Change the text encoding.

■ Creating/Sending SMS

E.g.) Select a Phone Book entry to send SMS
• Recipients can be selected from Sent/Received history or entered directly. (P.4-9)

1 In Standby, [✉] → "Create New SMS"

New SMS composition window appears.

2 Select Recipient field → [■] → "Address book"

3 Select a recipient → [■]

• When multiple phone numbers are registered, select a phone number to send.

4 Select Message Field → [■] → Enter message → [■]

5 [🌐] (Send)

SMS is sent.

■ Recipient Entry

1 Select Recipient field in new SMS composition window → [■]

■ **To edit recipients**

Select Recipient field where the recipient is entered in new SMS composition window → ■

■ **To delete recipients**

In new SMS composition window, " ⊗ " → "Yes"

2 Enter a recipient

The recipient is entered.

■ **To quote Phone Book**

"Address book" → Select a recipient → ■

■ **To quote Sent/Received history**

"Sent history"/"Received history" → Check history (☑) → 🔘 (Accept)

■ **To quote My profile**

"My profile"

• Handset phone number is entered.

■ **To input recipients directly**

"Direct input" → Enter a phone number → ■

■ Using Menu While Creating SMS

Operations such as changing to S!Mail, saving as draft, discarding, previewing are available.

1 In new SMS composition window, ✉ (Menu) → Select each item

Item	Description
Change to Mail	Change SMS to S!Mail.
Save*	Save SMS that you are creating as draft.
Discard	Discard SMS that you are creating.
Preview*	Preview SMS that you are creating.

* Not available unless recipient/message is entered.

■ Using Draft

Reedit S!Mail/SMS that are saved as draft.

1 In Standby, ✉ → "Draft/Unsent"

2 Select draft → ■

Saved draft, new S!Mail composition/new SMS composition window appears.

• For the following operations, see "Creating/Sending S!Mail" (P.4-6), "Creating/Sending SMS" (P.4-9).

Receiving Mails

S!Mail and SMS are received automatically. Alternatively, mails and SMS can be received manually.

■ Checking New Mails

"🖂" and information message appear when you receive new mails.

1 "New mail" in Information

Mail Details window appears.
• When multiple new mails are received, Inbox appears.

✉ INFORMATION

• Open Inbox after Information appears. And then, Information does not appear even if unread mails are still left.

■ Receiving New Mails Manually

Unreceived mails are stored in server.
Mails stored in server can be received manually.

1 In Standby, 🔲 → "Inbox" → 🌐 (Receive)

The mails are received.
• "No New Mail" appears when no new mail is received.

■ Receiving Server Mails

Both mails stored in server and partially received S!Mail can be received in one operation.

1 In Standby, 🔲 → "Inbox" → 🔲 (Menu) → "Receive all server mail"

Handset connects to server and receives mails.
• "No New Mail Server" appears when no server mail is received.

Managing/Using Mail

■ Checking Mails

1 In Standby, 〔✉〕 → "Inbox"/"Sent"/"Draft/ Unsent"

- For Inbox, Inbox list window appears. Repeatedly, select the folder → 〔■〕.
- When there are unread mails, the number of unread mails appears on the folder.

2 Select mail → 〔■〕

Mail Details window appears.

✉ INFORMATION

- Menu in Mail List Window: (P.4-15)
- Menu in Mail Details Window: (P.4-15)

■ Replying to Mails

● Replying in Mail List Window

1 In Mail List window, select a mail → 〔✉〕 (Menu) → "Reply"/"Reply to all"

2 Create mail → 〔⊕〕 (Send)

The mail is replied to.
- When a S!Mail is replied to, "Re:" appears at the beginning of subject.

● Replying in Mail Details Window

1 In Mail Details window, 〔⊕〕 (Reply)

- Alternatively, in Mail Details window, 〔✉〕 (Menu) → "Reply"/"Reply to all" to reply.

2 Create mail → 〔⊕〕 (Send)

The mail is replied to.
- When a S!Mail is replied to, "Re:" appears at the beginning of subject.

1   In Mail List window, select a mail → ☒ (Menu) → "Forward"

- Alternatively, in Mail Details window, ☒ (Menu) → "Forward" to forward the mail.

2   Select Recipient field → ■ → Enter a recipient → Create the mail to forward → ⊕ (Send)

The mail is forwarded.

- To enter recipients: (P.4-7)
- When a S!Mail is forwarded, "Fw:" appears at the beginning of subject and the original text is quoted.

■ Protecting/Unprotecting Mails

1   In Mail List window, select a mail → ☒ (Menu) → "Protect"/"Unprotect"

- Alternatively, in Mail Details window, ☒ (Menu) → "Protect"/"Unprotect" to protect/ unprotect the mail.

2   "One Item"

The mail is protected/unprotected.

■ To protect/unprotect multiple mails

"Select Item" → Check mails (☑) to protect → ⊕ (Accept) → "Protect"/"Unprotect"

- While selecting mails to protect, ☒ (Menu) → "Select all"/"Unselect all" to select/cancel all the mails.

4

Mail

■ Deleting Mails

1 In Mail List window, select a mail → 📧 (Menu) → "Delete"

2 "One Item" → "Yes"

The mail is deleted.

■ To delete multiple mails

"Select Item" → Check mails (☑) to delete → 🌐 (Accept) → "Yes"
- While selecting mails to delete, 📧 (Menu) → "Select all"/"Unselect all" to select/cancel all the mails.

● Deleting in Mail Details Window

1 In Mail Details window, 📧 (Menu)

2 "Delete" → "Yes"

The mail is deleted.

■ Saving Attachment to Data Folder

1 In Mail Details window, select attachment → ■

2 "Save to Other Storage"

The attachment is saved to Data Folder.
- Saved data can be checked in Data Folder. (P.9-2)
- Files that handset does not support are saved in Other Documents. However, some data may not be saved.

■ Using Menu of Mails

Operations such as replying or forwarding mails, deleting are available.

■ Menu in Mail List Window

1 In Standby, [✉] → "Inbox"/"Sent"/"Draft/ Unsent"

- For Inbox, select the folder repeatedly → [■].

2 [✉] (Menu) → Select each item

Item	Description
Reply[*1]	Reply to the mail.
Reply to all[*1]	Reply to all members.
Forward[*1]	Forward mails.
Copy and Edit[*2]	Copy and edit mails.
Edit[*3]	Edit mails.
Delete	Delete mails.
Move[*1]	Move mails to another folder.
Unread/Read[*1]	Change mails to unread/read.
Protect/Unprotect	Change mails to protect/unprotect.
Flag	Flag/unflag mails.

Item	Description
Sort	Sort mails.
Search	Search mails.

*1 Only available for Inbox
*2 Only available for Sent
*3 Only available for Draft/Unsent

■ Menu in Mail Details Window

1 In Standby, [✉] → "Inbox"/"Sent"

- For Inbox, select the folder repeatedly → [■].

2 Select mail → [■]

3 [✉] (Menu) → Select each item

Item	Description
Reply[*1]	Reply to the mail.
Reply to all[*1]	Reply to all members.
Forward[*1]	Forward mails.
Resend[*2]	Resend mails.
Delete	Delete mails.

*2 Only available for Sent

Managing Inbox

Creating Folder

Folders can be newly created in Inbox.

・ Add the filtering rules to created folders to filter mails automatically. (P.4-17)

1 In Standby, **[✉]** → "Inbox"

2 **[✉]** (Menu) → "Create Folder"

3 Select Folder name field → **[■]** → Enter folder name → **[■]**

・ If you check "Secret Setting" (☑), the created folder does not appear. To show the folder temporarily, **[✉]** (Menu) in Mail list window → "Displayed secret data."

4 **[⊕]** (Save)

The folder is created.

■ Filtering Mails in Inbox

Mails can be automatically filtered according to other party's mail addresses, subjects.
・Filtering rules can be set to only created folders.

1 In Inbox list window, select a folder that you add Filtering Rules to → 🖂 (Menu) → "Edit Folder" → "Filtering Rules" → "Add Filtering Rules"

■ Deleting Filtering Rules that You Set

In Inbox list window, select a folder that you delete Filtering rules of → 🖂 (Menu) → "Edit Folder" → "Filtering Rules" → Select Filtering Rules to delete → ⬛ → "Yes" → ⬕ (Done) → ⬕ (Save)

2 "Mail Address" → Select each item

・When an item other than "Mail Address" is selected, select "Domain"/"Subject."

Item	Description
Mail Address	Filter mails according to mail address.
Domain	Filter S!Mail according to domain.
Subject	Filter S!Mail according to subject. ・SMS cannot be filtered according to subject.

3 Select entry field → ⬛ → Follow the screen display and enter Mail Address/ Domain/Subject to filter → "OK" → ⬕ (Done) → ⬕ (Save)

Filtering Rules are set.

■ Editing Folder

1 Select a folder to edit in Inbox list window
→ 📩 (Menu) → "Edit Folder"

Folder edit window appears.

• For the following operations, see "Adding Folder" (P.4-16).

■ Deleting Folder

1 Select a folder to delete in Inbox list window → 📩 (Menu) → "Delete Folder" → "Yes"

The folder is deleted.

□ Using Spam Mail Folder

When function to sort spam mail is enabled, mails from unregistered contacts to Phone Book are not notified. Spam mails are stored in Spam Mail folder.

1 In Standby, 📩 → "Settings" → "Spam Mail Setting" → Check "Enable function to sortspam mail" (✓)

Function to sort spam mail is enabled.

📩 INFORMATION

• To check Spam mails stored in Spam Mail folder, the operations are as follows:
In Standby, 📩 → "Spam Mail"

Urgent News

Handset receives and shows "Earthquake Early Warning"[*], "Tsunami Warning" from Japan Meteorological Agency, "Disaster and Evacuation Information" from national or local government agencies, etc.

- It is set to ON by default.
- Alerts are not received during calls/transmissions or in poor signal conditions.
- Depending on usage/situation, handset may receive alerts for other areas or no alerts.
- Standby time may become short when Urgent News is set to ON.
- SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received or unreceived information, reception timing or reception failure.

[*] Earthquake Early Warning is information that notifies you of areas where strong quakes (over intensity 4) are expected as soon as possible when the maximum intensity of the earthquake is estimated to be intensity 5 lower or more through the process that observation data detected near the epicenter is analyzed and the epicenter and scale (magnitude) are estimated immediately after an earthquake occurs.

■ Not Receiving Urgent News

Receiving Urgent News is enabled by default. Set not to receive Urgent News.

1 In Standby, ■ → "Tool" → "Disaster" → "Urgent News"

2 ✉ (Menu) → "Receive Setting" → Uncheck "Alert receiving setting" (□)

Receiving Urgent News is disabled.

INFORMATION

- In Standby, ■ → "Tool" → "Disaster" → "Urgent News" → ✉ (Menu) → "About Urgent News" to check Urgent News.

■ Using Urgent News

" 🚨 " and information message appear and you are notified by specified ringtone and vibration when you receive Urgent News.

- Each specified ringtone varies for Earthquake Early Warning, Disaster and Evacuation Information/Tsunami Warning.
- Press any key to stop the specified ringtones and vibrations.
- The specified ringtones sound even in Manner Mode.

✉ INFORMATION

- To cancel Vibration, in Standby, ■ → "Tool" → "Disaster" → "Urgent News" → ✉ (Menu) → "Receive Setting" → Uncheck "Vibrate" (☐).

■ Checking Urgent News

1 In Standby, ■ → "Tool" → "Disaster" → "Urgent News"

2 Select mail → ■

Urgent News appears.
- When the number of received Urgent News exceeds 30, the oldest Urgent News is deleted in order.

Other Functions

■ Setting Font Size

Set font size in Mail Details window

1 In Standby, [✉] → "Settings" → "Font Size" → "Large"/"Middle"/"Small"

Font Size is changed.

■ Viewing Storage Information

Check the number and capacity of mails stored in handset.

1 In Standby, [✉] → "Settings" → "Storage Information"

2 Select each item

Item	Description
Inbox	Show the number of mails in Inbox.
Sent	Show the number of mails in Sent.
Draft/Unsent	Show the number of mails in Draft/Unsent.
Capacity	Show Capacity of mails stored in handset.

■ Using Send/Receive Settings

Make Send/Receive Settings.

■ Receive Settings

When S!Mail whose size is more than 300KB is received, set whether to partially receive text, etc.

1 In Standby, [✉] → "Settings" → "Send/Receive Settings" → "Receive Settings" → "Receive Mail Option" → "Receive All"/ "Receive All (Less than 300KB)"

Whether to partially receive text is set.

■ Send Settings

Make S!Mail/SMS Send Settings.
・To limit mail file size to create: (P.4-8)
・To quote original text when replying to mail: (P.4-8)
・To limit image size to attach to S!Mail: (P.4-8)
・To receive Deliver reports of sent SMS: (P.4-8)
・To attach Signature to mail: (P.4-9)

• To set Text Encoding for mails that you send: (P.4-9)

Mail Group

Create and delete Mail Group.

1 In Standby, 📧 → "Settings" → "Mail Group Settings"

2 "Add group" → Enter a group name → ■

Mail Group is created.
• When Mail Group is already created, ⊕ (Add) → Enter a group name → ■.

Deleting Mail Group

1 In Standby, 📧 → "Settings" → "Mail Group Settings"

2 Select a group to delete → 📧 (Menu) → "Delete" → "Yes"

Mail Group is deleted.

■ **To delete multiple mail groups**

📧 (Menu) → "Select delete" → Check Mail Group (☑) to delete → ⊕ (Delete) → "Yes"
• While selecting Mail Group to delete, 📧 (Menu) → "Select all"/"Unselect all" to select/cancel all the groups.

Viewing Your Phone Number/Mail Address

Show phone numbers, mail addresses registered in handset and My SoftBank.

1 In Standby, 📧 → "Settings" → "Number/Address Settings"

2 Select each item

Item	Description
Phone Number	Handset phone number appears.
Mail Address	Your mail address appears. • Register mail address in handset beforehand. (P.4-5)
Visit My Softbank	Show My SoftBank. (P.5-4)

■ Resetting Mail Settings

1 In Standby, [✉] → "Settings" → "Reset"

2 "Reset settings" → "Yes"

Mail settings are reset to default.

■ Resetting Mail Receive/ Send History

1 In Standby, [✉] → "Settings" → "Reset"

2 "Reset receive/send history" → "Yes"

All receive/send histories are deleted.

■ Deleting All Server Mails

Delete all mails stored in server.

1 In Standby, [✉] → "Settings" → "Reset"

2 "Delete server mail" → "Yes"

All mails stored in server are deleted.

Before Using Browser

■ About SSL/TLS

Secure Sockets Layer (SSL) and Transport Layer Security (TLS) are encryption protocols that secure Internet transmissions of important/sensitive information such as credit card numbers and corporate secrets, providing protection against online threats (eavesdropping, falsification, impersonation, etc.).

(!) CAUTION

• When opening a secured page, users must decide as their responsibility whether or not to open the page with use of SSL/TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of SSL/TLS.

Using Browser

View various websites or homepages by connecting to Internet.
Internet search by keyword is also available.

1　🌐 in Standby

Browser window appears.

• If Confirmation window appears, select "Yes." In Confirmation window, check "Don't ask again" (☑) → "Yes" not to show Confirmation window from next time.

■ Browser Window

In Standby, press 🌐 to show Browser window.

Browser Window

① Site name

② Contents

③ The number of tabs

The number of opened tabs appears.

■ Using Browser Menu

View Bookmark list, check Browsing history, make settings for browser, etc.

1 Long Press (⊕) in Standby

2 Select each item

Item	Description
Homepage	Show Homepage. (P.5-2)
My SoftBank	Connect to My SoftBank. (P.5-4)
Bookmark	Show Bookmark list. (P.5-5)
Web Search	Enter keyword or URL to show website.

Download	Show downloaded data list window. (P.5-6)
Browser Settings	Show Browser Settings window. (P.5-8)

■ Scrolling the Screen

1 🔄 in Browser window
• Long Press 🔄 to scroll the screen continuously.

■ Stopping Loading Webpages

1 (⊕) (Stop) in Browser window
• Only available during webpage-loading.

■ Going Back to Previous Screen

1 (⊕) (Back) in Browser window
• To go to next screen, (☒) (Menu) → "Forward."

My SoftBank

■ Using Menu of Browser Window

Operations for Bookmark, Browsing history view, etc. are available.

1 In Browser window, 📧 (Menu) → Select each item

Item	Description
Bookmark	Show Bookmark list. (P.5-5)
Regist Bookmark	Register the current website to Bookmark. (P.5-5)
History	Show History window. (P.5-5)
Web Search	Enter keyword or URL to show website.
Tab	Show the displayed tab list.
Reload	Reload to update website.
Forward	Go to next screen.
Pointer	Show Pointer.
Browser Settings	Make Browser Settings. (P.5-8)

Connect to My SoftBank.

1 Long Press 🌐 in Standby → "My SoftBank"

My SoftBank appears.
- Alternatively, in Standby, 📧 → "Settings" → "Number/Address Settings" → "Visit My Softbank" to show My SoftBank.

Bookmark

◼ Registering Bookmark

1 In Standby, 🌐 → Show website to register

2 📧 (Menu) → "Regist Bookmark" → "Yes"

Bookmark is registered.

◼ Viewing Bookmark

1 In Standby, Long Press 🌐 → "Bookmark"

Bookmark list window appears.
• Alternatively, in Browser window, 📧 (Menu) → "Bookmark" to show Bookmark.

2 Select Bookmark → ■ (Open)

Website registered to Bookmark appears.

Browsing History

1 In Standby, Long Press 🌐 → "History"

History window appears.
• Alternatively, in Browser window, 📧 (Menu) → "History" to show History.
• 📧 (Menu) → "Open in new tab" to show in new tab.
• Select History to delete → 📧 (Menu) → "Delete" → "Yes" to delete History.
• Select History → 🌐 (Detail) to show Web page information.

2 Select History → ■ (Open)

Website appears.

Browser

Using Downloaded Data

■ Checking Downloaded Data

1 In Standby, Long Press ⊕ → "Download"

Downloaded data list window appears.

2 Select data → ■

The data is played/shown.

■ Changing View Mode of Downloaded Data List Window

Set View Mode of downloaded data list window.

1 In Downloaded data list window, ⊠ (Menu) → "View Mode" → "Thumbnail"/"List"/"List(Details)"

View Mode is changed.

■ Deleting Data

1 In Downloaded data list window, ⊠ (Menu) → "Delete"

2 "Delete One" → "Yes"

The data is deleted.

■ To delete multiple data

"Delete Multiple" → Check data (☑) to delete → ⊕ (Delete) → "Yes"

・ While selecting downloaded data to delete, ⊠ (Menu) → "Check all"/"Uncheck all" to select/cancel all the data.

■ Sending Data by S!Mail

1 In Downloaded data list window, [✉] (Menu) → "Send"

2 "Send One"

New S!Mail composition window with data attached to appears.

・For the following operations, see "Creating/Sending S!Mail" (P.4-6).

■ To attach multiple contacts

"Send Multiple" → Check data (☑) to send → [🌐] (Send)

・While selecting data to send, [✉] (Menu) → "Check all"/"Uncheck all" to select/cancel all the data.

・For the following operations, see "Creating/Sending S!Mail" (P.4-6).

■ Editing Titles

1 In Downloaded data list window, select data → [✉] (Menu) → "Edit Title" → [■] → Edit the title → [■] → [🌐] (Done)

The data title is changed.

■ Viewing Details

1 In Downloaded data list window, select data → [✉] (Menu) → "Details" → "OK"

Details on data appear.

Browser Settings

Set Browser operations.

1 In Standby, 🌐 → ✉ (Menu) → "Browser Settings"

Browser Settings window appears.
• Alternatively, in Standby, Long Press 🌐 → "Browser Settings" to show the window.

2 Set each item

Item	Description
Privacy/Security	Make settings for Browser security such as Cache, deleting browsing history. (P.5-8)
Font Size	Set displayed Font Size. (P.5-10)
Search Engine	Select Search Engine. (P.5-10)
Browser Reset	Reset Browser Settings. (P.5-10)

■ Setting Privacy/Security

Delete Cache, browsing history and set Cookies.

■ Deleting Cache

1 "Privacy/Security" in Browser Settings window

2 "Clear Cache" → "Yes"

Cache is deleted.

■ Deleting History

Delete all saved browsing history.

1 "Privacy/Security" in Browser Settings window

2 "Clear History" → "Yes"

Browsing history is deleted.

■ Accepting Cookie

Set whether to save and accept Cookies.

1 "Privacy/Security" in Browser Settings window

2 Check/Uncheck "Accept Cookies" (☑)/ (☐)

Saving and accepting Cookies are enabled/disabled.

■ Deleting Cookies

1 "Privacy/Security" in Browser Settings window

2 "Clear all Cookies" → "Yes"

Cookies are deleted.

■ Enabling Javascript

Set whether to use Javascript.

1 "Privacy/Security" in Browser Settings window

2 Check/Uncheck "Enable Javascript" (☑)/ (☐)

Javascript is enabled/disabled.

■ Blocking Pop-ups

Set whether to show Pop-ups in Browser window.

1 "Privacy/Security" in Browser Settings window

2 Check/Uncheck "Block Pop-ups" (☑)/ (☐)

Pop-ups are blocked/unblocked.

5

Browser

◼ Setting Font Size

Set displayed Font Size in Browser.

1 In Browser Settings window, "Font Size" →
"Large"/"Middle"/"Small"

Font Size is changed.

◼ Selecting Search Engine

Select Search Engine for keyword search.

1 In Browser Settings window, "Search
Engine" → "Google"/"Yahoo! JAPAN"/
"Bing"

Search Engine is set.

◼ Resetting Browser Settings

1 In Browser Settings window, "Browser
Reset" → "Yes"

Browser Settings are reset to default.

6 Camera

Precautions for Using Camera

- Mind etiquette when using Camera. Before capturing an important scene, take some test shots and view results to ensure the scene will be captured properly.
- Do not use Camera where prohibited.
- Images taken with Camera are intended for personal use, and may not be used or forwarded without the permission of the copyright holder (photo subject), etc.
- Lenses soiled with fingerprint smudges and grease may not focus well. Clean Lens off with a soft cloth.
- Hold handset firmly to avoid camera shaking, which may blur images especially in dark places.
- If handset has been left in a hot place for a prolonged period of time, image quality when shooting and saving images may be affected.
- Exposing Lens to direct sunlight may degrade Internal Color Filter, resulting in poor image quality.
- Camera cannot be activated when Battery level is low.
- When Battery level is low or no operations are performed for two minutes after Camera is activated, Camera is deactivated.

■ Shutter Click

Even in Manner mode, the shutter click sounds for photos. Also during video shooting, start and stop beeps sound. Sound volume is fixed.

■ File Formats/Save Location

Captured Images/Videos are saved to handset or SD Card. Saved Images/Videos can be checked in Data Folder (P.9-2). File Formats are as follows:

Item	File Formats
Image	JPEG (.jpg)
Video	MP4 (.mp4)

To save to SD Card, change the save location. (P.6-4, P.6-5)
To check memory space: (P.10-10)

■ Photo Size/Movie Size

Photo size and Video size to set are as follows:

Item	Photo/Video Size
Image	1200 × 1600 (UXGA)
	1024 × 1280 (SXGA)
	960 × 1280 (WXGA)
	768 × 1024 (XGA)
	600 × 800 (SVGA)
	240 × 320 (QVGA)
Video	HD 720p
	SD 480p
	QVGA

Photo Shooting

■ Photo Shooting Mode

Photos are shot in portrait view.
Shooting size, self-timer, exposure, picture quality, scene, effect can be set for photo shooting. (P.6-4)

■ Shooting Photos

1 [📷] in Standby

Photo Viewfinder appears.
• Alternatively, in Standby, [■] → "Camera" to activate Camera. Or in Standby, Long Press [📷] → "Photo" to activate Camera.

2 Aim Camera at subject → [■] (Shoot)/ [📷]

The shutter click sounds; image is shot and saved.
• Press [⊕] (Gallery) to check an image that you shot.

■ Using Menu of Photo Viewfinder

Switch to Movie and change settings.

1 In Standby, [📷] → [✉] (Menu)

2 Select each item

Item		Description
Switch to Movie		Switch shooting mode to Movie.
Setting (Photo)	Size	Set shooting size. (P.6-3)
	Self-timer	Use self-timer.
	Exposure	Adjust exposure.
	Picture Quality	Set picture quality.
	Scene	Set shooting scene.
	Effect	Set effect.
Setting (General)	Storage (Phone or SD)	Set save location.
	Camera Initialize	Initialize photo settings.

6

Camera

Movie Shooting

■ Movie Shooting Mode

Movies are shot in portrait view.
Recording size can be set for movie shooting. (P.6-5)

■ Shooting Movies

1 Long Press [📷] in Standby → "Movie"

Movie Viewfinder appears.
· In Photo Viewfinder, [✉] (Menu) → "Switch to Movie" to activate.

2 Aim Camera at subject → [■] (Rec)/[📷]

Shooting start beep sounds, and recording starts.

3 [■] (Stop)/[📷]

Shooting stop beep sounds, and video is saved.
· Press [⊕] (Gallery) to check a video that you recorded.

■ Using Menu of Movie Viewfinder

Switch to Photo and change settings.

1 Long Press [📷] in Standby → "Movie" → [✉] (Menu)

2 Select each item

Item		Description
Switch to Photo		Switch shooting mode to Photo.
Setting (Movie)	Size	Set recording size. (P.6-3)
Setting (General)	Storage (Phone or SD)	Set save location.
	Camera Movie Initialize	Initialize movie settings.

Checking Images/Videos

■ Viewing/Playing Images/ Videos

View images and play videos.

1 In Standby, **(■)** → "Data Folder"

2 "Pictures"/"Videos"

- When checking images/videos saved to SD Card, press **(●)** (SD) to switch to SD Card.

3 Select a folder → **(■)**

4 Select an image/a video → **(■)**

The image/video appears.
- For videos, press **(■)** (Play) repeatedly to play video.
- Operations for images: (P.9-3)
- Operations for videos: (P.9-4)

■ Editing Images

Images can be edited such as changing size or effect, rotating images.
- Images cannot be edited depending on the type and size of image.

1 In Standby, **(■)** → "Data Folder"

2 "Pictures" → Select a folder → **(■)** → Select an image to process → **(■)**

3 **(■)** (Edit)

4 **(✉)** (Menu) → Select each item

Item	Description
Resize	Resize the image.
Rotate	Rotate the image with **(✉)** (Left) and **(●)** (Right).
Effect	Change the effect.
Cancel	Cancel editing images.

5 **(■)** → Edit image → **(●)** (Save) → "Yes"

The edited image is saved.

7 Useful Functions

Alarm

You are notified by alarm at the specified time.

■ Registering Alarm

Up to twenty alarms can be added.
• After Alarm is set, " 🔘 " appears in Status Bar.

1 In Standby, (■) → "Alarm" → "Alarm" →
(✉) (Menu) → "Add"

2 Select each item

Item	Operation/Description
Alarm set time	Enter start time for Alarm.
Repeat	Select whether to repeat Alarm. To select "Specify day": Check days of the week (☑) to specify → (●) (Done)
Snooze settings	Select Snooze interval. When Snooze is set, Alarm goes off repeatedly at the specified interval after Alarm stops ringing.
Label	Enter Alarm name
Prioritize alarm	Set whether to play alarm in Manner mode. Check/Uncheck "Prioritize alarm" (☑)/(☐)

3 (⊕) (Set)

Alarm is registered.

■ Turning Alarm OFF

1 In Standby, (■) → "Alarm" → "Alarm" →
Uncheck Alarm (☐) to turn OFF

Alarm is turned OFF.

■ Editing Alarm

1 In Standby, (■) → "Alarm" → "Alarm" →
Select Alarm to edit

2 (⊕) (Edit) → Enter each item → (⊕) (Set)

Editing Alarm is completed.

Timer

■ Deleting Alarm

1 In Standby, ▣ → "Alarm" → "Alarm" → Select Alarm to delete

2 ✉ (Menu) → "Delete" → "Yes"

Alarm is deleted.

■ Stopping Alarm Sound

1 Press any key after Alarm goes off

Alarm sound is stopped.
・ To cancel Snooze, ▣/⟲/[CLEAR] → "Yes."

■ Using Timer

1 In Standby, ▣ → "Alarm" → "Count Down Timer"

Count Down Timer window appears.

2 ✉ (Edit) → Specify time → ⊕ (Done)

・ To have the timer go off even in Manner Mode, ⊕ (Settings) → Check "Prioritize timer" (☑).

3 ▣ (Start)

The timer starts counting down.
・ To stop the timer counting down, press ▣ (Stop). Press ▣ (Start) again to have the timer restart counting down.
・ To reset the timer, press ⊕ (Reset) while the timer is counting down or counting down is stopped.

Stop Watch

❙ Using Stop Watch

1 In Standby, ■ → "Alarm" → "Stop Watch"

Stop Watch window appears.

2 ■ (Start)

Stop Watch starts measuring.
- To stop Stop Watch, press ■ (Stop) while Stop Watch is measuring. Press ■ (Start) again to have Stop Watch restart measuring.
- To record lap time and split time, press ✉ (LAP) while Stop Watch is measuring.
- To reset the measurement result, press ⊕ (Reset).

Infrared

Exchange data (profile, Phone Book entries, etc.) with other devices such as mobile phones using infrared. With handset and other device close together, align their infrared ports in a straight line.
- Operations may differ depending on the type of data being sent/received.

⦅!⦆ CAUTION

- It may not be possible to use infrared transmission or to transmit properly depending on the other device or on the data. If another application activates during transmission, it will also cause transmission to end.
- Do not point Infrared Port at eyes while transmitting. May affect vision.

❙ Receiving Data

1 In Standby, ■ → "IrDA"

2 "Receive" → "1 Record"/"All Records"

3 Align infrared ports on handset and sending device

Infrared transmission starts, and the data is received.
- When "All Records" is selected, input the same auth code as the sender's → ■ → ⊕ (Accept)

4 "Yes" → "OK"

Data is saved.

- When all contacts in Phone Book are received, confirmation window of additional/overwriting registration appears. Follow onscreen instructions.

■ Sending Data

■ Sending 1 Contact

1 In Standby, ■ → "IrDA" → "Send"

2 "1 Record" → Select a contact to send → ■

3 Align infrared ports on handset and receiving device

Infrared transmission starts, and the contact is sent.

4 "OK"

The contact is sent.

■ Sending All Contacts

1 In Standby, ■ → "IrDA" → "Send"

2 "All Records" → Enter a password → ■ → Enter the same auth code as the receiver's → ■ → ⊕ (Accept) → "Yes"

3 Align infrared ports on handset and receiving device

Infrared transmission starts, and the contacts are sent.

4 "OK"

All contacts are sent.

■ Sending Profile

1 In Standby, ■ → "IrDA" → "Send"

2 "My Profile"

3 Align infrared ports on handset and receiving device

Infrared transmission starts, and the profile is sent.

4 "OK"

Your profile is sent.

Disaster

■ Urgent News

For details, see "Urgent News" (P.4-19).

■ Registering Safety Information (Disaster Message Board)

Disaster Message Board is a service that you register your safety information when your call may not go through easily due to voice transmission congestion in the event of a large-scale disaster. And if Setup Auto Notify is set, your safety information can be automatically sent by mail to your family or friends that you registered beforehand when you register safety information.

・Registered information can be viewed on mobile phones by SoftBank as well as other carriers' phones. For details on Disaster Message Board, see SoftBank Website.

1 In Standby, (■) → "Tool" → "Disaster" → "Disaster Message Board"

Disaster Message Board menu appears.
・If Confirmation window appears, follow on-screen instructions.

2 "Register"

3 Check the state (✓) → Select Enter Message field → (■) → Enter comment → (■) → "Register"

Safety information is registered.

■ Deleting Registered Safety Information

1 In Disaster Message Board menu, "Delete" → Select safety information to delete → (■) → "Delete"

・In Disaster Message Board menu, "Delete" → "Delete All" → "Yes" to delete all safety information.

■ Checking Safety Information

1 "Confirm" in Disaster Message Board menu

2 Enter phone number to confirm → (■) → "Search"

3 Select date and time to confirm → (■)

Safety information appears.

- ☒ (Menu) → "Get the latest" to update safety information.

■ Registering Recipient Address for Automatic Transmission

1 "Setup Auto Notify" in Disaster Message Board menu

2 Select Recipient Field → ■ → Enter a recipient → ■

- When entering recipients, ☒ (Search) → "Search Contacts" to refer to recipients from Phone Book.

3 "OK"

Registering the recipient is completed.

■ Sending Voice Message (Disaster Voice Messaging)

Disaster Voice Messaging is a service that records and sends a voice message to desired recipients when your call may not go through easily due to voice transmission congestion in the event of a large-scale disaster.

- Not available when you receive no signal or Airplane mode is set. For details on Disaster Voice Messaging, see SoftBank Website.

1 In Standby, ■ → "Tool" → "Disaster" → "Disaster Voice Messaging"

Disaster Voice Messaging window appears.
- If Confirmation window appears, follow on-screen instructions.

2 "Send Voice"

3 "Name or phone number" → Enter a recipient → ■ → ⊕ (Next)

- When entering recipients, ☒ (Search) → "Search Contacts"/"Search History" to refer to recipients from Phone Book or Call Log.

4 ■ (Record) → Record a message → ■

The voice message is recorded.

5 "Send" → "Yes"

Voice message is sent.
- Select "Play" to confirm record message.
- To record again, "Record again" → "Yes" → ■ (Record).

7 Useful Functions

■ Playing Received Voice Message (Disaster Voice Messaging)

When you are notified of received voice message by SMS, " 🔳 " appears in Status Bar. Receive (download) and play a voice message to hear the sender's voice.

1 In Standby, ▣ → "Tool" → "Disaster" → "Disaster Voice Messaging"

Disaster Voice Messaging window appears.
• If Confirmation window appears, follow on-screen instructions.

2 "Listen"

Listen list window appears.

3 Select a message → ▣ → "Yes"

Received voice message window appears, and voice message is played automatically.
• To stop the message, press ▣ (Stop) while playing the message.
• To update the message, press ⊕ (Update).
• To change the volume, ▣ (Menu) → "Volume" → ◪ → ▣.
• To change the speaker, ▣ (Menu) → "Speaker" → "On"/"Off."

■ Replying by Voice Message

1 ⊕ (Reply) in Received voice message window

• Follow onscreen instructions.

■ Deleting Messages

1 In Listen list window, select a message to delete → ▢ (Delete)

2 "Selected" → "Yes"

The message is deleted.

■ To delete multiple messages

"More" → Check message (☑) to delete → ⊕ (OK) → "Yes"

Calendar

■ **Viewing Calendar**

1 (⌦) in Standby

Calendar window appears.

- Alternatively, in Standby, (■) → "Tool" → "Calendar" to show Calendar window.
- Press (⊕) (Change) to change Calendar to one week display.

■ **Registering Schedule**

1 In Calendar window, (✉) (Menu) → "Add"

Schedule creation window appears.

2 Enter each item

Item	Description
Subject	Enter Subject.
Start date	Select Start date.
Start time	Select Start time.
End date	Select End date.
End time	Select End time.

Item	Description
All day	Set whether to have schedule All day. Check/Uncheck "All day" (☑)/ (☐)
Repetition	Set whether to register repeatedly.
Notification	Set whether to notify.
Location	Enter Location.
Color	Select Color of schedule.
Detail	Enter Detail.

3 (⊕) (Set) → "OK"

Schedule is registered.

■ Viewing Schedule List

1 In Calendar window, [✉] (Menu) → "List Display" → "Schedule"

Schedule list window appears.

■ Viewing Birthday List

View contacts whose birthdays are registered to Phone Book as a list.

1 In Calendar window, [✉] (Menu) → "List Display" → "Birthday"

Birthday list window appears.

● **Setting Birthday Reminder**

Set to remind you of Birthday at the specified time.

1 In Birthday list window, [✉] (Settings) → "Birthday reminder time" → Select time → [■]

Birthday reminder time is set.

■ Checking Schedule

1 In Calendar window, select a date → [■]

Schedule list window appears.

2 Select schedule → [■]

Schedule Details window appears.

■ Editing Schedule

1 In Schedule Details window, [✉] (Menu) → "Edit"

2 Enter each item → [🌐] (Set) → "OK"

Edit is completed.

Notepad

Deleting Schedule

1 In Calendar window, select a date → ■ → Select schedule to delete

2 [✉] (Menu) → "Delete events"

3 "Delete one" → "Yes" → "OK"

Schedule is deleted.

■ To delete multiple schedules

"Delete multiple" → Check schedules (☑) to delete → ● (Delete) → "Yes" → "OK"
• While selecting schedules to delete, [✉] (Menu) → "Check all"/"Uncheck all" to select/cancel all the schedules.

Creating Memos

1 In Standby, ■ → "Tool" → "Notepad"

Notepad Entry window appears.
• When Notepad list window appears, [✉] (Menu) → "Add."

2 Enter contents → ■ → "OK"

Notepad is saved.

Checking Memos

1 In Standby, ■ → "Tool" → "Notepad"

Notepad list window appears.

2 Select a memo → ■ (Detail)

Notepad Details window appears.

Voice Recorder

■ Editing Memo

1 In Notepad list window, select a memo →
⊕ (Edit)

Notepad Entry window appears.
• Alternatively, in Notepad list window, press
⊕ (Edit) to show.

2 Edit contents → ■ → "OK"

Editting the memo is completed.

■ Deleting Memo

1 In Memo list window, select a memo to
delete

2 ☑ (Menu) → "Delete"

3 "Delete one" → "Yes" → "OK"

The memo is deleted.

■ To delete multiple memos

"Delete multiple" → Check memos (☑) to delete →
⊕ (Delete) → "Yes" → "OK"
• While selecting memos to delete, ☑ (Menu) →
"Check all"/"Uncheck all" to select/cancel all the
memos.

■ Recording Voice

1 In Standby, ■ → "Tool" → "Voice Recorder"

Voice Recorder window appears.

2 "Record"

3 ■ (Record)

Recording starts.

4 Record voice → ■ (Stop) → "OK"

Voice data is saved.
• Press ⊕ (Pause) to pause the recording
while recording voice. Press ⊕ (Record) to
resume recording.
• Voice Play window appears after recording.

■ Setting Save Location for Voice

Change save location for voice to handset storage/
SD Card

1 In Voice Recorder window, ☑ (Menu) →
"Storage" → "Phone"/"SD" → "OK"

Save location is set.

Playing Voice

1 In Voice Recorder window, "Play"

Voice list window appears.

2 Select voice to play → (■) → (■) (Play)

Voice Play window appears, and recorded voice
is played.

• Operations while playing voice: (P.9-3)

Deleting Voice

1 In Voice list window, select voice to delete

2 (☒) (Menu) → "Delete"

3 "Delete one" → "Yes" → "OK"

Voice is deleted.

• Alternatively, in Voice play window, (☒) (Menu)
→ "Delete" → "Yes" to delete voice.

■ To delete multiple voices

"Delete Multiple" → Check voices (☑) to delete →
(●) (Delete) → "Yes" → "OK"

• While selecting voices to delete, (☒) (Menu) →
"Check all"/"Uncheck all" to select/cancel all the
voices.

Viewing Voice Details

Check save date, size, etc.

1 In Voice list window, select voice that you
show details on → (☒) (Menu) → "Details"

Details on voice appear.

• Alternatively, in Voice play window, (☒) (Menu)
→ "Details" to show details.

Calculator

Using Calculator

1 In Standby, $\blacksquare$ → "Tool" → "Calculator"

Calculator window appears.

2 Enter formula

Calculation result appears.
· Press 🖂 (Menu) to copy and paste the result.

Operations for Calculator

Operations for Calculator are as follows:

Calculation	Operation key
+ (Add)	😐
- (Subtract)	🖼
× (Multiply)	🖼
÷ (Divide)	🖼
= (Equal)	$\blacksquare$ (=)
c (Clear)	📷 / CLEAR
AC (All clear)	Long Press 📷
. (Decimal point)	文字

Calculation	Operation key
% (Percent)	🌐 (%)
+/- (Symbol change)	#

Converter

Convert the unit of length, weight, area, temperature.

Converter Window
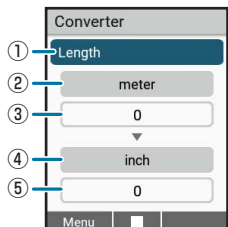

Converter Window

① Unit type
② Unit to convert
③ Numerical value to convert
④ Converted unit
⑤ Converted numerical value

Using Converter

1 In Standby, (■) → "Tool" → "Converter"
Converter window appears.

2 Select unit type field → (■) → Select unit type to convert → (■)

3 Select unit field to convert → (■) → Select unit to convert → (■) → Select numerical value field to convert → (■) → Enter numerical value to convert → (■)

4 Select converted unit field → (■) → Select converted unit → (■)
The result appears in converted numerical value field.

あんしんバックアップ (Anshin Backup)

This application saves each data such as Phone Book/Calendar/Call Log/image/music/movie to cloud server or SD Card, or returns data stored in server to handset. It is convenient to transfer data from an old handset to your new handset in the case of handset upgrade/replacement.

- When SD Card is not inserted, data is saved to handset memory. When saving is completed, save location appears.
- Be sure to delete data beforehand in the case of contract change such as the ownership of handset is handed over to a third party. Some data may not be deleted depending on the type of contract change.
- Note that SoftBank Corp. is not liable for any loss/alteration of saved/restored data. And SoftBank Corp. is not liable for any results arising from this application use.
- Specifications may change without notice.

File Name of Saved Data

The file name of saved data is a save date. For example, if a contact file is saved on November 15 in 2017, the name will be "17111500.vcf." When multiple files are saved on the same day, the name will be "17111501.vcf" and the lower 2-digit number will be increased.

Savable Number of Files

Up to 100 files can be saved to server/SD Card, etc. respectively for each Phone Book data/Calendar data/Call Log data/image data/music data/movie data.

When Data Cannot be Saved

When you make settings such as Secret Mode so that you do not allow a third party to view data, some data may not be saved to server.

Restored Data

For data restored by this application, various applications corresponding to each data are available.

■ Login with another SoftBank Account

When saving to data server/restoring from data server, the account that you use can be changed.

1 In Standby, **(■)** → "Tool" → "あんしんバックアップ (Anshin Backup)"
  - If Confirmation window appears, follow on-screen instructions.

2 "その他の機能 (Other Functions)" → "他のアカウントでログイン (Login with another account)"

3 Enter the phone number and password → "ログイン (Login)" → "同意する (Agree)"
  - If Confirmation window appears, follow on-screen instructions.
  - Enter SoftBank account to use.

■ Checking Save/Restore History

1 In Standby, **(■)** → "Tool" → "あんしんバックアップ (Anshin Backup)"

2 "その他の機能 (Other Functions)" → "保存履歴 (Save History)"
  Save history appears.

■ Checking Help in あんしんバックアップ (Anshin Backup)

Check application usage, terms of use, application information.

1 In Standby, **(■)** → "Tool" → "あんしんバックアップ (Anshin Backup)"

2 "その他の機能 (Other Functions)" → "ヘルプ (Help)"

7

Useful Functions

3 " ヘルプ (Help)"/" 利用規約 (Terms of use)"/"
アプリケーションについて (About applica-
tions)"

Each information appears.

■ Saving Data

Save (back up) each data to server/SD Card, etc.
- Since data is saved as available format for other
  mobile phones, some part of the data may be dis-
  carded or altered.
- Call Log/image/music/movie can be saved to
  only SD Card.

1 In Standby, ■ → "Tool" → " あんしんバック
アップ (Anshin Backup)"

- If Confirmation window appears, follow on-
  screen instructions.

2 " データの保存 (Data Save)"

3 " サーバーにデータを保存 (Save data to
server)"/"SD カードにデータを保存 (Save
data to SD Card)"

- If Confirmation window appears, follow on-
  screen instructions.

- When authentication screen appears, enter
  the phone number and password → " ログイン
  (Login)" → " 同意する (Agree)."

4 Check item (✓) to save → ■

5 ⊕ (実行 (OK)) → "OK"

The data is saved.
- To suspend saving, select " キャンセル (Can-
  cel)."
- When data saving is suspended, the data is
  not saved.

■ Restoring Data

Select data stored to server/SD Card, etc. and re-
store it to handset memory.
- Call Log/image/music/movie can be stored from
  only SD Card.
- Some data may not be restored depending on
  data. And some part of restored data may be dis-
  carded or changed.
- The contents of saved data are restored addition-
  ally.

1 In Standby, ■ → "Tool" → " あんしんバック
アップ (Anshin Backup)"

2 " データの復元 (Data Restore)"

3 " サーバーからデータを復元 (Restore data
from server)"/"SD カードからデータを復元
(Restore data from SD Card)"

- If Confirmation window appears, follow on-screen instructions.
- When authentication screen appears, enter the phone number and password → " ログイン (Login)" → " 同意する (Agree)."

4 Check item (✓) to restore → Select
data to restore → ■

- If Confirmation window appears, follow on-screen instructions.

5 ⊕ (実行 (OK)) → "OK"

The data is restored to handset.
- To suspend restoring, select " キャンセル (Cancel)."
- When data restoring is suspended, data is not restored.

■ Saving Data Regularly and Automatically

Save each data to server/SD Card, etc. regularly and automatically.
- Regular save is enabled by default.
- Save all Phone Book data/Calendar data/Call Log data/image data/music data/movie data to server/SD Card, etc.
- Saving data by selecting data one by one or part of data is not available.
- When " サーバーに保存 (Save to server)" is set for save location, only Phone Book data/Calendar data is saved.
- Since data is saved as available format for other mobile phones, some part of data may be discarded or altered.

1 In Standby, ■ → "Tool" → " あんしんバック
アップ (Anshin Backup)"

- If Confirmation window appears, follow on-screen instructions.

2 " 定期保存 (Regular save)"

- If Confirmation window appears, follow on-screen instructions.

3 Set 更新頻度 (Update frequency)/ 日付
(Date)/ 保存先 (Save location)/ 対象 (Sub-
ject) → 🌐 (保存 (Save))

Regular save is set.

Reloading Phone Book Data Saved to Server in Case of Handset Upgrade/Replacement

You can transfer data stored in the S!Phone Book backup server to Phone Book of your new handset if you previously used 3G mobile phone and S!Phone Book backup service.

1 In Standby, ■ → "Tool" → " あんしんバック
アップ (Anshin Backup)"

- If Confirmation window appears, follow on-
  screen instructions.

2 " 電話帳の移行 (Data transfer of address
book)"

3 "OK" → "Yes"

Loading the data is completed.
- If Confirmation window appears, follow on-
  screen instructions.
- When authentication screen appears, enter
  the phone number and password → " ログイン
  (Login)" → " 同意する (Agree)."

Deleting Saved Data

Delete data saved to server/SD Card, etc.
Note that deleted data cannot be restored.

1 In Standby, ■ → "Tool" → " あんしんバック
アップ (Anshin Backup)"

2 " その他の機能 (Other Functions)"

3 " 保存データの削除 (Delete saved data)"

4 " サーバーのデータを削除 (Delete data in
server)"/"SD カードのデータを削除 (Delete
data in SD Card)"

- If Confirmation window appears, follow on-
  screen instructions.
- When authentication screen appears, enter the
  phone number and password → " ログイン (Login)"
  → " 同意する (Agree)."

5 Check files (✓) to delete → ■ → 🌐
(Delete)

- While selecting files to delete, ✉ (Menu) →
  "Check all"/"Uncheck all" to select/cancel all
  the files.

Notification List

6 "OK" → "OK"

The data is deleted.
- To suspend deleting, select " キャンセル (Cancel)."

Check new notifications (incoming call, mails, etc.) or notifications from each function.

1 In Standby, ■ → "Tool" → "Notification List"

Notification List window appears.
- Selecting notification activates corresponding function.

Application

Check the list of installed applications in handset.

1 In Standby, ■ → "Tool" → "Application"

Application list window appears.
• Select application → ■ to activate application.

8 Security

Handset Code

Set a four- to eight-digit code.

■ Registering Handset Code

Registering handset Code is required for the first time activation. Operations to register are as follows:

1 In Standby, ⬛ → "Settings" → "Security" → "Chg. Handset Code" → "OK"

2 Enter a password to register → ⬛

3 Enter a password to register again → ⬛ → "OK"

Handset Code is set.

■ Changing Handset Code

1 In Standby, ⬛ → "Settings" → "Security" → "Chg. Handset Code"

2 [CLEAR] → "Password change" → "OK"

3 Enter current password → ⬛ → "OK"

4 Enter new password → ⬛

5 Enter new password again → ⬛ → "OK"

Handset Code is changed.

■ Resetting Handset Code

1 In Standby, ⬛ → "Settings" → "Security" → "Chg. Handset Code"

2 [CLEAR] → "Password Reset" → "Yes" → Follow onscreen instructions

Handset Code is reset.
• To reset Handset Code, My SoftBank authentication is required. My SoftBank authentication can be set from My SoftBank Website.

Security Functions

Various security functions protect handset and data in handset.

Using Screen Lock

When turning on the screen, only entering PIN or password enables handset operations.

- When Screen Lock is not canceled, press 🖂 (EMG.CALL) to call 110 (Police), 119 (Fire & Ambulance) or 118 (Japan Coast Guard).

1 In Standby, ▣ → "Settings" → "Security" → "Screen Lock"

Screen Lock setting window appears.

- When "PIN" or Password" has already been set, operations for canceling Screen Lock is required.

2 "PIN" / "Password" → "OK"

3 Enter PIN/password → ▣ → Enter Pin/ password again → ▣

Screen Lock is set.

((!)) CAUTION

- Be sure to make a separate note of PIN/password that you registered for canceling Screen Lock so that you will not forget it. If you forget the code, servicing is required at your nearest SoftBank shop. In that case, note that the contents that you registered/set will be lost.

Canceling Screen Lock

When PIN/Password Entry window appears after the screen is turned on, canceling Screen Lock is as follows to use handset:

1 Enter PIN/password that you set in PIN/ Password Entry window → ▣

Screen Lock is canceled.

Canceling Screen Lock Settings

1 In Standby, ▣ → "Settings" → "Security"

2 Enter PIN/password → ▣ → "None"

Screen Lock settings are canceled.

■ Long Pressing ▣ to Set Screen Lock

Long Press ▣ (Center Key) in Standby to set Screen Lock.

1 In Standby, ▣ → "Settings" → "Security" → "Screen Lock"

2 "Long Press Center Key"

Screen Lock is activated by Long Pressing ▣.
• Long Press ▣ or 文字 to cancel Screen Lock.

✉ INFORMATION

• When "Long Press Center Key" is not set, Long Press 文字 to lock the screen.

❏ Using Secret Mode

Set whether to hide contacts, etc. set to Secret Mode.

1 In Standby, ▣ → "Settings" → "Security"

2 "Secret Mode"

3 Enter a password → ▣

4 "Hide"/"Show"

Contacts, etc. registered as Secret Mode are hidden/shown.

9 Data Folder

Data Folder

View/play files such as images, videos, music/audio saved to handset/SD Card.

■ Viewing/Playing Files

1 In Standby, ■ → "Data Folder"

Data Folder window appears.
・Press (Phone)/(SD) to toggle handset memory/SD Card.

2 Select folder type

Item	Description
Pictures	Show images.
Music	Show music/audio.
Videos	Show videos.
Other Documents	Show files except for images, music/audio, videos.
Download	Show all downloaded files.
File Manager	Activate File Manager.

3 ■ → Select a folder → ■

File list window appears.

4 Select a file → ■

The file is shown or played.

⚠️ CAUTION

・ Some files cannot be shown.
・ PDF files with password set cannot be shown. Some PDF files whose display size is extremely large or layout is special may not be shown properly.

■ Using Menu of Folder/File

Operations such as registering to wallpaper, etc. sending S!Mail, coping, deleting are as follows.

1 In Data Folder window/File list window, ✉ (Menu) → Select each item

Item	Description
Set*1*2	Register to Wallpaper, Contact Picture.
Send*2	Send by S!Mail (P.4-6)
Copy to Phone/Copy to SD*2	Copy to handset memory/SD Card. (P.9-5)
Delete*2	Delete files. (P.9-5)
Edit Title*2	Change Title. (P.9-5)

Item	Description
View Mode	Set View Mode.
Details	Show Details.

*1 Only available for image files.
*2 Only available in File list window.

■ Showing Images

1 Select an image in File list window → ■

• Image operations are as follows:

Item	Operation
Enlarge/reduce	● (Zoom) → Select zoom level • When the image is enlarged to 200%, press ⊠ to scroll.
Full Screen	⊠ (Menu) → "Full Screen"
Register to Wallpaper, Contact Picture.	⊠ (Menu) → "Set" → "Wallpaper"/"Contact Picture" To set Wallpaper: (P.10-3)
Attach a file to mail to send	⊠ (Menu) → "Send" → Create S!Mail to send To create S!Mail: (P.4-6)

Item	Operation
Delete	⊠ (Menu) → "Delete" → "Yes"
Check Details	⊠ (Menu) → "Details"
Edit	■ (Edit) → ⊠ (Menu) → Edit the image To edit images: (P.6-6)
View previous file and next file	⊠

■ Playing Music/Audio

1 In File list window, select music/audio → ■

• Operations of music/audio are as follows:

Item	Operation
Play	■ (Play)
Pause*	■ (Pause) while playing music/audio
Adjust volume*	⊠
Fast rewind/fast forward*	⊠

Data Folder

All Reset

Erase all data that you registered in handset and reset contents of each function to default.

■ Resetting Handset to Default

1 In Standby, $\blacksquare$ → "Settings" → "Security"

2 "All Reset" → "Reset phone"
  - To erase data in SD Card, check "Erase SD card as well" (☑).

3 Enter Handset Code → $\blacksquare$ → "Erase everything"

Handset is all reset.
  - The power turns on again after turning off automatically.

🔊 CAUTION

  - Reset handset when battery is fully charged.
  - Handset code is reset to default.
  - Performing all reset erases contents and history that you registered. Note that erased data cannot be restored.

Encrypt Phone

Encrypt data in handset.

1 In Standby, $\blacksquare$ → "Settings" → "Security"

2 "Encrypt Phone" → "Encrypt phone" → Enter PIN/password

3 "Encrypt phone"

Data in handset is encrypted.

🔊 CAUTION

  - When "None" or "Long Press Center Key" is set to cancel Screen Lock, PIN/Password entry is not required.
  - Encrypt handset with battery both fully charged and being charged.
  - Note that all data in handset is deleted if encrypting handset is suspended.

Software Update

At specified time, handset checks whether software updates are required and automatically downloads firmware updates as required.

- Checking/updating does not incur communication charges.
- Handset cannot be used until software is updated. It may take time to update software.
- Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during an update may cause an update failure.
  If updating of software fails, handset may no longer be usable. In such case, contact Inquiries (P.11-25).
- Other functions cannot be operated while software update is performed.
- We recommend that you back up needed data before updating software (some downloaded data is not able to be backed up). Data saved on handset before updating remains saved, but depending on handset condition (malfunctions, etc.), data may be lost. SoftBank Corp. is not responsible for damages from loss of data.
- While updating software, absolutely do not remove Battery, USIM Card, or power off. Updating may fail.

■ Updating Software Manually

1 In Standby, $\boxed{\blacksquare}$ → "Settings"

2 "About Phone" → "Software Update"

3 "Software Update"

After downloading the update, handset automatically restarts and software update begins. Handset restarts again, and update completion information appears.

((ı)) CAUTION

- If handset does not restart after the software update is completed, remove Battery, and install it again and power on handset. Contact Inquiries (P.11-25) if handset does not still restart.
- Note that SoftBank Corp. is not liable for any data loss due to software update.

Troubleshooting

INFORMATION

- To set whether to update the software automatically, in Standby, ■ → "Settings" → "About Phone" → "Software Update" → "Automatic Update Settings" → ■.
- To change the schedule to update the software automatically, in Standby, ■ → "Settings" → "About Phone" → "Software Update" → "Update Schedule Settings" → Enter time → ⊕ (Confirm).

● Handset does not power on
- Are you Long Pressing ⌂ for at least 1 second?
- Is Battery level sufficient?
- Is Battery installed properly? (P.1-11)

● Handset functions do not work after turned on
- Does PIN entry window appear? PIN code (P.1-21) is enabled. Enter PIN code.

● "No SIM card" appears when handset is turned on or operations attempted
- Is USIM Card installed properly? (P.1-6)
- Is wrong USIM Card installed? An unusable USIM Card may be installed. Make sure that the right USIM Card is installed.
- Are there any fingerprints, etc. or other soiling on the IC part on USIM Card? Remove USIM Card, wipe with a clean, dry cloth, and install it again properly.

● Handset freezes/operation is unstable
- Is USIM Card installed properly? (P.1-6)
- If operation is unstable, power off handset, then power on handset to restart.
- If handset cannot be powered off, remove Battery, and install it again and power on handset. (P.1-11)

● Key operations do not work
  - Is "Long press[Center key]to start" shown?
    "Long Press Center Key" is set for Screen Lock.
    Cancel "Long Press Center Key." (P.8-4)

● Display is blurred
  - Adjust display brightness. (P.10-3)

● Calls do not connect/cannot use mail or Internet
  - Is " (No Signal icon)" shown on Status Bar?
    Are you where handset receives a weak signal?
    Change locations and operate again.
  - Is " (Airplane Mode icon)" shown on Status Bar?
    Cancel Airplane Mode. (P.1-20)
  - Are you using handset overseas?
    Handset cannot be used overseas.
  - Is "Mobile Data" disabled?
    Enable "Mobile Data."
    (P.10-9)

● Cannot make a call
  - Is area code entered?

● Outgoing calls will not connect or busy signal sounds
  - Is area code entered?

● Display clock is reset
  - Replacing battery does not reset Display clock; however, if battery is removed for a long period or left uncharged, the clock may be reset. Set Date & Time again. (P.10-11)

● Cannot charge/Charging takes time
  - Is AC Adapter firmly connected to handset? (P.1-13)
  - Is AC Adapter firmly plugged into a household AC outlet?
  - Is Battery installed into handset? (P.1-11)
  - Are the terminals soiled? Clean terminals (handset external connection terminal, Battery terminal, AC Adapter terminal).
  - Is ambient temperature between +5℃ and +35℃ ? Otherwise, battery may not reach full charge.

● Handset/AC Adapter feel warm
  - AC Adapter may warm during charging. Handset may warm during long use. This is normal if you can hold it comfortably. Low temperature burns may occur if handset is held against skin for long periods.

● Battery operating time is greatly reduced
  - Battery Operating Time may be reduced by environmental factors such as temperature, charging conditions or signal strength, as well as by operations or settings.
    See "Main Specification" (P.11-5), "Battery Life" (P.1-10).

Main Specification

● Main Unit

Weight	Approx. 115 g (Battery installed)
Dimensions (W × H × D)	Approx. 50 × 132 × 13.8 mm
Continuous Stand-by Time	Approx. 670 hours (3G) Approx. 500 hours (4G)
Continuous Talk Time	Approx. 600 minutes (3G) Approx. 600 minutes (4G)
Charging Time	Approx. 180 minutes
Maximum Output	0.25 W (3G) 0.2 W (4G)

● Battery (SIBAF1)

Voltage	3.8 V
Battery	Lithium-ion
Capacity	1770 mAh
Dimensions (W × H × D)	Approx. 38.7 × 86.6 × 4.25 mm

Materials Used

● Main Unit

Parts	Material/Finishing
Display Panel	Acrylic resin
Exterior Case (Front Case)	PC + GF resin/UV-cured coating
Camera Panel	Acrylic resin
Exterior Case (Battery Cover)	PC resin/UV-cured coating
Key	PC resin + silicone rubber/UV-cured coating
Screw	Carbon steel
Interior Case	PC resin
Top of Interior Case (Built-in Antenna)	Cu-Ni alloy
USIM Card Slot Cover	SUS
SD Card Slot Cover	SUS
SD Card Slot Terminal	Cu alloy/Gold plating
Speaker Mesh	PET/Polyester synthetic fiber
Speaker Cushion	Polyurethane foam
Battery Terminal (Main Unit)	Cu alloy/Gold plating
Sheet Metal (Battery Compartment)	SUS
Label	PET

● Battery (SIBAF1)

Parts	Material/Finishing
Case (Side)	PC resin
Terminal Part	Cu alloy/Gold plating
Label	PET

Safety Precautions

● For proper handset use, carefully read this "Safety Precautions" beforehand. After you have finished reading this guide, keep this guide in a safe place.

● Observe these safety precautions to prevent injury or damage to other people and property.

● The labels below differentiate between the levels of danger that can occur if handset is not used within the specified guidelines.

⚠DANGER	Great risk of death or serious injury[*1] from improper use
⚠WARNING	Risk of death or serious injury[*1] from improper use
⚠CAUTION	Risk of injury[*2] or damage to property[*3] from improper use

*1 Serious injury includes: Loss of eyesight, physical injury, high temperature burns, low temperature burns, electric shock, fractures, poisoning and other conditions having side effects or requiring hospitalization or long-term treatment.
*2 Injury includes: Physical injury, high-temperature burns, low-temperature burns, electric shock, and other conditions not requiring hospitalization or long-term treatment.
*3 Damage to property includes: Incidental damage to structures and household property and/or to pets and livestock.

■ Explanation of Graphic Symbols Used in This Manual

⊘ Don't	Action prohibited
⊘ No disassembly	Disassembly prohibited
⊘ No liquids	Exposure to liquids prohibited
⊘ No wet hands	Handling with wet hands prohibited
❗ Do	Action compulsory
⊟ Unplug	Unplug from outlet

■ Handling Handset, Battery, USIM Card, AC Adapter (Sold Separately) (Common)

⚠DANGER

⊘ Don't Do not use, store, or leave handset or related hardware in places subject to high temperatures or where heat collects (near an open flame or heating equipment, under a kotatsu or blanket, in direct sunlight, or inside a car on a hot day).
May cause fire, burns, injury, electric shock, etc.

◯ Do not place handset or related hardware in or
Don't near a heating cooker such as a microwave
oven, IH cooking heater, or high-pressure
containers such as pressure cooker.
May cause fire, burns, injury, electric shock,
etc.

◯ Do not place handset or related hardware
Don't directly on or get soiled with sand, dirt or mud.
Do not touch if hands are dirty with sand, etc.
May cause fire, burns, injury, electric shock,
etc.

◯ Do not charge while handset or related
Don't hardware are wet with water and other liquids
(beverage, sweat, seawater, pet urine, etc.).
May cause fire, burns, injury, electric shock,
etc.

◯ Do not subject handset to strong pressure or
Don't break handset. Especially when bringing
handset putting in a pocket of clothes, do not
let handset hit against surroundings or being
put between the objects.
May cause fire, burns, or injury due to battery
ignition, rupture, overheat, or leakage damage.
* Examples to avoid
・Sitting or squatting with handset put in a
pocket of trousers or skirt
・Putting handset in a pocket of outer wear
and catching them in a door or a door of car
・Stepping on handset on a soft object such
as a sofa, bed, or bedding, or on a floor

◯ Do not disassemble or modify.
No
disassembly May cause fire, burns, injury, electric shock,
etc.

◯ Do not get wet with water or other liquid
No liquids (beverage, sweat, seawater, pet urine, etc.).
May cause fire, burns, injury, electric shock,
etc.

◯ Do not allow water or other liquid (beverage,
No liquids sweat, seawater, pet urine, etc.) to get in
External Connection Terminal.
May cause fire, burns, injury, electric shock,
etc.

⚠ WARNING

◯ Do not drop, step on, throw, or otherwise
Don't subject to strong force or impact, or to
vibration.
May cause fire, burns, injury, electric shock,
etc.

◯ Be careful that conductive objects (metal,
Don't pencil lead, etc.) do not come in contact with
External Connection Terminal and that dust
does not get in them.
May cause fire, burns, injury, electric shock,
etc.

◯ Do not cover or wrap with a blanket, etc.
Don't during use or while charging.
May cause fire, burns, etc.

❶ If charging does not complete even after
Do specified charging time, stop charging.
Overcharging or other conditions may cause
fire, burns, injury, etc.

Materials/Appendix

11

11-7

Do Always turn off handset as well as stop charging before entering gas stations or other places where flammable gases or fine particulates generate.

Using handset in presence of flammable gases may cause explosion, fire, etc.

Do If you notice an unusual odor, unusual sound, smoke, overheating, discoloration, deformation, etc. while using, charging or storing handset, do the following.
- Unplug from outlet.
- Power off handset.
- Remove Battery from handset.

Not doing the above may cause fire, burns, injury, electric shock, etc.

⚠CAUTION

Don't Do not use damaged.

May cause fire, burns, injury, etc.

Don't Do not place on an uneven or unstable surface. Be particularly careful while vibrator is activated.

May fall, leading to injury, etc.

Don't Do not store in a humid or dusty location or any place that reaches a high temperature.

May cause fire, burns, electric shock, etc.

Don't Before a child uses handset or related hardware, a parent/guardian should provide instruction and ensure proper usage.

Failure to do so may cause injury, etc.

Don't Keep out of reach of infants.

Failure to do so may result in small parts being accidentally swallowed or may cause injury, electric shock, etc.

Do Exercise caution when using handset continuously for a long time or while charging. Also be careful not to unintentionally be in contact with handset for a long time (falling asleep, etc.).

Handset, Battery, and AC Adapter may become hot with long-period use such as calling and charging. Long contact with hot parts may cause redness, itchiness, rash, low-temperature burns, etc. depending on the individual.

■ Handling Handset

⚠DANGER

Don't Do not pierce, hammer, step on, or otherwise subject to excessive force.

May cause fire, burns, injury, etc.

⚠WARNING

Don't Do not look into Infrared Port when sending data by infrared.

May affect eyesight.

Don't When using infrared transfer, do not point Infrared Port at an appliance or other apparatus having infrared capability.

May cause appliance, etc. to misoperate and cause an accident, etc.

Materials/Appendix

11

11-8

⊘ **Do not look at a repeatedly flickering screen for a long period.**
Don't
May cause convulsions, loss of consciousness, etc.

⊘ **Do not allow water or other liquid (beverage, sweat, seawater, pet urine, etc.) or foreign matter (metal, burnable material, etc.) to get in USIM Card/SD Card Slot.**
Don't
Do not mistake orientation of USIM Card and SD Card or where to insert.
May cause fire, burns, injury, electric shock, etc.

⊘ **Do not allow direct sunlight, etc. to shine on Camera Lens for long period.**
Don't
Concentration of light by the lens may cause fire, burns, injury, etc.

❗ **Before boarding an aircraft, power off handset or place handset in Airplane mode.**
Do
Restrictions are in place for use aboard aircraft; follow airline instructions.
May affect aircraft instrumentation.
Prohibited use aboard an aircraft may be punishable by law.

❗ **Follow instructions of each medical institution for use in a hospital.**
Do
Power off handset where use is prohibited.
May affect electronic devices and electric medical equipment.

❗ **Always keep handset off of the ears when using handsfree calling, the ringtone is sounding, or when waiting for a call.**
Do
If an earphone-microphone, etc. is attached for gaming or video/music playback, adjust to a moderate volume.
When using the handsfree call, loud noise sounds from handset.
Even when waiting for a call, ringtone and vibrator may work suddenly.
Too loud a volume or use for a long period may affect hearing.
Inability to hear surrounding sound may also cause an accident.

❗ **Individuals with a weak heart should take care with handset vibration and ringtone settings for new calls/mail.**
Do
Sudden ringtone vibration and ringtone surprise you, it may cause harmful effect on heart.

❗ **Individuals with an electric medical device should consult with the device manufacturer or distributor regarding any effects from electronic signals before using handset.**
Do
May affect the electric medical device.

Do Keep handset power off near high precision electronic devices or devices using weak signals.

May cause devices to misoperate, etc.

* Devices that may be affected
Hearing aids, implanted cardiac pacemakers and implanted defibrillators, other electric medical equipment, other automatically controlled equipment, etc. Individuals using an implanted cardiac pacemaker, implanted defibrillator, or other electric medical equipment should consult with the device manufacturer or distributor regarding any effects from electronic signals.

Do Be careful of any internal components that become exposed if Display or Camera Lens breaks.

Touching broken portions or exposed components may cause burns, injury, electric shock, etc.

⚠**CAUTION**

Don't Do not swing handset by strap.

May hit you, others, or surrounding objects, causing injury or other accident.

Don't If Display breaks and internal matter leaks, do not allow it to get on face, hands or other part of your skin, or on clothing, etc.

May cause blindness, harm to your skin, etc.
If internal matter should get in your eyes or mouth or on your skin or clothing, immediately rinse with clean water.
If in your eyes or mouth, immediately seek medical attention after rinsing.

Don't To remove Battery Cover, use only as much strength as necessary.

Battery Cover may break, causing injury, etc.

Don't When attaching Battery Cover, be careful not to let a part of yourself (fingers, etc.) get caught in it.

Failure to do so may cause injury, etc.

Don't Do not use handset with Battery Cover removed.

May cause burns, injury, electric shock, etc.

Do Before using handset in a vehicle, consult with the vehicle manufacturer or distributor regarding any effects from electronic signals.

Although rarely, some makes of car may have onboard electronic devices that can be affected. Immediately discontinue use if such devices are onboard.

Do If any skin abnormality occurs with use of handset, immediately discontinue use and seek medical attention.

Failure to do so may cause itchiness, rash, eczema, etc. depending on the individual.
For details on materials used in handset ⇒P.11-5 "Materials Used"

Do Handset Speaker, Receiver use magnetic components; check that metal objects (cutter blades, staples, etc.) are not attached to it.

Attached objects may cause injury, etc.

Do When viewing Display, view in a sufficiently bright place with Display at an adequate distance.

Viewing in a dark place too closely may affect vision, etc.

■ Handling Battery

⚠**DANGER**

Don't Do not allow metal objects (necklaces, hairpins, etc.) and conductive materials to come in contact with connection terminals. Do not carry or store such objects or materials with Battery.

May cause fire, burns, injury, etc.

Don't Do not install Battery forcefully if it is difficult to install. And do not remove Battery forcefully if it is difficult to remove.

May cause fire, burns, injury, etc.
For installing/removing Battery, see the following.
⇒P.1-11 "Installing/Removing Battery"

Don't Do not throw Battery in fire or heat Battery.
May cause fire, burns, injury, etc.

Don't Do not pierce, hammer, step on, or otherwise subject to excessive force.
May cause fire, burns, injury, etc.

Do Check orientation of Battery when installing in handset. Do not force Battery if difficult to install.

May cause Battery to ignite, rupture, overheat, or leak, resulting in fire, burns, injury, etc.
For installing Battery, see the following.
⇒P.1-11 "Installing/Removing Battery"

Do If internal matter from Battery gets into eyes, immediately rinse with clean water without rubbing, and consult a doctor.

Internal matter from Battery may result in loss of eyesight, poor physical condition, etc.

⚠**WARNING**

Don't If you notice an unusual odor, overheating, discoloration, deformation, etc., do not use Battery.

May cause fire, burns, injury, etc.

Do If Battery is leaking or has an unusual odor, immediately discontinue use and keep it away from open flames.

Leaking fluid may ignite, causing ignition, rupturing, etc.

Do Keep Battery away from pets.
Pets biting Battery may cause Battery to ignite, rupture, overheat, or leak, resulting in fire, burns, injury, etc.

Materials/Appendix

🚫 If Battery internal matter, etc. leaks, do not
Don't allow it to get on face, hands or other part of
your skin or on clothing, etc.

May cause blindness, harm to your skin, etc.
If internal matter should get in your eyes or
mouth or on your skin or clothing, immediately
rinse with clean water.
If in your eyes or mouth, immediately seek
medical attention after rinsing.

🚫 Do not dispose of with ordinary refuse.
Don't May cause fire, burns, injury, etc and is also
destructive to the environment. Tape terminals
on old Battery to insulate them and take to a
SoftBank shop or other location where
accepted, or dispose of according to local
regulations.

🚫 Do not use or charge a wet Battery.
Don't May cause fire, burns, injury, etc.

■ Handling AC Adapter (Sold Separately)

⚠**WARNING**

🚫 Do not use AC Adapter if cord is damaged.
Don't May cause fire, burns, injury, etc.

🚫 Do not use AC Adapter in a bathroom or other
Don't humid place.

May cause fire, burns, electric shock, etc.

🚫 If thunder is audible, do not touch AC Adapter.
Don't May cause electric shock.

🚫 Do not short-circuit Charging Terminals while
Don't plugged in. Do not touch Charging Terminals
with hands, fingers, etc.

May cause fire, burns, electric shock, etc.

🚫 Do not subject AC Adapter cord to excessive
Don't force (placing heavy objects on it, pulling,
etc.).

May cause fire, burns, electric shock, etc.

🚫 When plugging in/unplugging AC Adapter, do
Don't not allow anything metal (metal strap, etc.) to
come in contact.

May cause fire, burns, electric shock, etc.

🚫 Do not use a travel converter with AC
Don't Adapter.

May cause ignition, overheating, electric shock,
etc.

🚫 Do not apply excessive force to where AC
Don't Adapter is connected to handset.

May cause fire, burns, injury, electric shock,
etc.

🚫 Do not touch AC Adapter cord, Charging
No wet Terminals, or power plug with wet hands.
hands May cause fire, burns, electric shock, etc.

Do Use with the specified power source at the specified voltage.

If charging while abroad, charge with an AC Adapter compatible with use abroad.
Use with an incorrect power source or voltage may cause fire, burns, electric shock, etc.
AC Adapters: 100 V AC (be sure to connect only to household AC outlet)
AC Adapters compatible with use abroad: 100 V to 240 V AC (be sure to connect only to household AC outlet)

Do Wipe away dust on power plug.
Using with dust on plug may cause fire, burns, electric shock, etc.

Do When plugging in AC Adapter, plug in firmly.
Failure to do so may cause fire, burns, electric shock, etc.

Do When unplugging, hold by AC Adapter and do not pull by cord or otherwise subject to excessive force.
Pulling by cord can damage cord, causing fire, burns, electric shock, etc.

Do When connecting/disconnecting AC Adapter from handset, insert/remove straight from terminal without bending, and without pulling by cord or otherwise subjecting to excessive force.
Failure to do so may cause fire, burns, injury, electric shock, etc.

Do If Charging Terminals are bent or otherwise deformed, immediately discontinue use. Do not try to return to original shape and resume use.
Short-circuiting of Charging Terminals may cause fire, burns, injury, electric shock, etc.

Unplug If not using AC Adapter, unplug from outlet.
Leaving plugged in may cause fire, burns, electric shock, etc.

Unplug If water or other liquid (beverage, sweat, seawater, pet urine, etc.) enters, immediately unplug from outlet.
May cause fire, burns, electric shock, etc.

Unplug Before caring for equipment, unplug from outlet.
Failure to do so may cause fire, burns, electric shock, etc.

⚠CAUTION

Don't Do not be touching AC Adapter for a long period while plugged in.
May cause burns, etc.

Handling USIM Card

⚠CAUTION

Do When handling USIM Card, be careful not to scratch fingers, etc. on notch.
May cause injury, etc.

■ Handset Use & Electronic Medical Equipment

⚠ WARNING

❗ Do When carrying handset, keep a minimum of 15 cm from implanted cardiac pacemaker, implanted defibrillator, etc.
Electronic signals may interfere with the operation of electric medical equipment.

❗ Do When using electronic medical devices as home medical treatment other than an implanted pacemaker and an implanted cardioverter defibrillator outside medical facilities, check individually with the manufacturer of the electronic medical equipment regarding the influence of electronic signals.
Electronic signals may interfere with the operation of electric medical equipment.

❗ Do Set handset not to emit electronic signals (power off or place in Airplane mode) if you will be in a packed location and cannot maintain a distance of 15 cm from those around you.
Persons who might have implanted cardiac pacemakers or implanted defibrillators may be in the vicinity. Electronic signals may interfere with the operation of electric medical equipment.

❗ Do Follow instructions of each medical institution for use of handset in a hospital.
Electronic signals may interfere with the operation of electric medical equipment.

■ Usage

● Handset supports software update. Use the latest software.

● Since handset uses signal, calling may be difficult in a location such as indoor, underground, in a tunnel, in a car with weak or poor signal reception even if you are in service area. And if you move to a location with weak or poor signal reception during calls, calling may be suddenly interrupted.

● When using handset in public places, take care not to annoy other people around you. Note that theaters or vehicles have designated places where using handset is prohibited.

● Handset is a radio station specified in the Radio Law. Therefore, the inspection based on the Radio Law may be required.

● Use of handset near a landline phone, TV, or radio may affect the image and sound quality of the equipment.

● As the advantages and special characteristics of digital system, handset maintains stable high call quality up to the limit in locations with weak signal reception. Therefore, if the limit is exceeded during calls, calling may be suddenly interrupted.

● Digital system has high privacy of communication. Wiretapping may result. Pay full attention on usage.

● Note that the following may cause information saved on handset to be erased or altered. SoftBank Corp. is not liable for any damages resulting from alteration or loss of information. It is recommended that you keep a separate copy of important data to minimize any damages from alternation or loss of information.
  • When used improperly
  • When affected by static electricity or electrical noise
  • When powered off during operation
  • When malfunctioning, submitted for repairs

● Be sure to charge Battery before using handset for the first time or if handset has not been used for a long time. Even if Battery is not used, storing Battery for extended period causes battery to be gradually discharged.

● SD Card (commercially available) may be warm after extended use. This is normal.

● Do not use or store SD Card (commercially available) in locations prone to static electricity or electrical noise.

● Back up SD Card (commercially available) data to a PC or other media (FC·MO·CD-R/W). SoftBank Corp. is not liable for any damages resulting from loss of saved data due to damage, etc. of SD Card (commercially available).

■ When Using Handset in a Car

● Using handset while driving a car is dangerous and it is prohibited by law. Use handset after parking a car in a safe place.

■ Handling

● Do not use handset in places subject to extremely high or low temperatures, high humidity, direct sunlight, or with much dust.

● Although general handset use in temperatures over 35 ℃ is possible, handset may become warm. Charging or various functions may stop in such a high temperature. This is normal.

● Do not drop handset, or subject it to impact.

● To clean handset, wipe it with a dry, soft cloth. Do not use alcohol, thinner, benzene. Doing so may discolor or remove exterior features or print.

● Take care not to let nails or fingertips get caught in handset groove gap. May cause injury, etc.

● Do not touch USIM Card slot metal part or Antenna part when Battery Cover is removed. Static electricity may cause malfunction.

● Be sure to power off handset before removing Battery. May cause malfunction.

● Note that having Battery removed for extended period or leaving Battery low may cause content saved on handset to be erased or altered. SoftBank Corp. is not liable for any damages resulting from alteration or loss of content.

● Battery is consumable and lithium-ion. Depending on conditions of usage, however, even if Battery is fully charged, its usage time may become extremely short. Replace Battery. Purchase a specified Battery.

Li-ion00

● When removing Battery, be sure to place a fingertip on the notch of handset and lift the one side of Battery. Removing Battery forcefully may cause damages to terminal.

● Communication antenna is built in handset. This means that it doesn't protrude above the surface of handset. If the built-in antenna is touched with hand or covered with finger, signal reception may become weak. Especially, do not attach sticker, etc. to the built-in antenna. If signal reception becomes weak, making/receiving calls may not be available.

● For handling USIM Card, read User Guide of USIM Card carefully to use it safely and properly.

● Insert SD Card (commercially available) correctly. SD Card (commercially available) can only be used if inserted correctly.

Camera

● Do not leave Camera Lens under direct sunlight. May burn or fade colors of elements.

● Shooting photos or storing handset in a warm place for extended period may affect image quality.

● Camera is high-precision, including pixels which always appear bright or dark. Blue, red, white, etc. dots will appear when shooting in extremely dark conditions.

● When shooting indoors under fluorescent lighting, flickering (extremely faint and not visible) may appear as stripes in image. This is not a defect or malfunction.

● Camera may make sound during operation, such as when being activated. This is not a defect or malfunction.

● Keeping Photo Viewfinder open or shooting photos, operating Browser, etc. repeatedly for a continuous and extended period causes handset to become warm. Skin contact for extended period when handset is warm may cause low temperature burns.

● Observe proper etiquette when using Camera.

● Creating a public nuisance with Camera may be punishable by law.

● Practice taking and previewing pictures, videos, and audio before using Camera on important occasions like wedding ceremonies.

● Photo files (below, content) may be altered or erased due to malfunctions, repairs or other handling. SoftBank Corp. is not liable for any damages or lost profit resulting from content alteration/erasure or its restoration.

● Do not use Camera in locations such as bookstores where shooting photos or videos is prohibited.

■ Music/Videos

● Do not listen to music or watch videos while driving a vehicle or riding a scooter/bicycle. Such use of a mobile phone is prohibited by law (use while riding a bicycle may also be punishable). Also be alert while walking; if surroundings are difficult to hear or attention is on Display, a traffic accident may result. Be careful especially at railway crossings, on station platforms, and at intersections.

● Listening at loud volume for an extended period may affect hearing.

● Take care not to disturb those around you (on train, etc.) with earphone or other noise.

■ Urgent News

● Alert sounds when Urgent News is received, even in Silent mode.

● Alerts are not received during calls/transmissions or in poor signal conditions.

● Depending on usage/situation, handset may receive alerts for other areas or no alerts.

● SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received or unreceived information, reception timing or reception failure.

■ Technical Standards Conformance Certification

● Handset is compliant with the technical standard conformance of specified wireless equipment based on the Radio Law and Tele-communication Business Act. Follow steps below to check information related to technical standards conformance certification (⊕ etc.). In Standby, ■ → "Settings" → "About Phone" → "Compliance Information"

Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone 【Simply】 meets Japanese technical regulations* and international guidelines for exposure to radio waves.

The Japanese technical regulations for exposure to radio frequency energy established permitted levels of radio frequency energy, based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.

The regulations employ a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue. The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The value of the limit is equal to the value given in international guidelines recommended by ICNIRP**, which is in collaboration with the World Health Organization (WHO).

The highest SAR value for this mobile phone is 0.944 W/kg*** when tested for use at the ear, and 1.01 W/kg*** when worn on the body in the below manner****.

While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.

Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

Use at positions other than at the ear****

This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between it and the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

* The technical regulations are provided in Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.
** International Commission on Non-Ionizing Radiation Protection
*** The value is not under simultaneous transmission use conditions.

The World Health Organization has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about SAR, see the following websites:

Ministry of Internal Affairs and Communications (MIC)
http://www.tele.soumu.go.jp/e/sys/ele/body/index.htm
Association of Radio Industries and Businesses (ARIB)
http://www.arib-emf.org/01denpa/denpa02-02.html (Japanese)

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

World Health Organization

Warranty & After-Sales Service

■ Warranty

● Handset purchase includes warranty.
● Check shop name and purchase date.
● Read warranty and keep in a safe place.
● Warranty period is given in warranty.

・ SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage, malfunction, or trouble of handset.
・ Information/settings on handset may be lost/changed due to malfunction or repairs. It is recommended that you keep a copy of Phone Book contacts and other important information. SoftBank Corp. is not responsible for loss/change of data (contacts, images, sound, etc.) or settings due to malfunction, or repairs.
・ Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

■ After-Sales Service

To request repairs, contact your nearest SoftBank shop or Inquiries (P.11-25). Have details of symptoms ready.
● During the warranty period, repairs are made under the terms and conditions of the warranty.
● After the warranty period, if handset can be repaired, repairs will be made at cost.

・ For more information on after-sales service, contact your nearest SoftBank shop or Inquiries (P.11-25).

Inquiries

For further information, feel free to contact the following.

● SoftBank Customer Support

■ General Information

From a SoftBank handset, dial toll free at 157
From a landline ☺ dial toll free at 0800-919-0157

■ Customer Assistance (Repairs/Lost Handsets)

From a SoftBank handset, dial toll free at 113
From a landline ☺ dial toll free at 0800-919-0113

If you cannot connect to free call with IP phone etc., please call the following number.

Eastern Japan	022-380-4380 (charges apply)
Western Japan	06-7669-0180 (charges apply)
