Osaifu-Keitai® (Japanese)

Osaifu-Keitai® describes IC Card-equipped handsets that support e-money or credit functions/services. Osaifu-Keitai® encompasses a range of IC Card-based services on FeliCa-compatible SoftBank handsets. 933SH supports Osaifu-Keitai®. To use e-money, e-ticketing and reward points, etc., hold handset over a compatible reader/writer at shops, restaurants, and other retail outlets, etc.

Basics

Before using Osaifu-Keitai®, activate Lifestyle-Appli, complete registration, customize settings and charge accounts.

Starting Lifestyle-Appli
● ➡ *Tools* ➡ ● ➡ In PIM/Life menu, *Osaifu-Keitai* ➡ ● ➡ *Lifestyle-Appli* ➡ ● ➡ Select application ➡ ●

Lifestyle-Appli Precautions
● Contact Osaifu-Keitai® service providers for Lifestyle-Appli registration and usage details.
● Keep service passwords/customer service contact information, etc. in a separate place.
Using Osaifu-Keitai®

Follow these steps to conduct a transaction: Example: Making an electronic payment
● Lifestyle-Appli activation is not necessary.
● Transactions are possible even when handset power is off (if battery is adequately charged).
● Calls/Internet transmissions do not affect transactions.

1 Place ♪ logo over reader/ writer ➡ Confirm scan results

Place this part over reader/writer

● Align handset parallel to reader/writer.

Important Osaifu-Keitai® Usage Note
● SoftBank is not liable for damages resulting from accidental loss/alteration of IC Card data/settings.

When Placed Over Sensor
● If recognition is slow, move handset around slightly.
● Handset may respond automatically for some services.

9

Handy Extras

Advanced

 ●Enabling to view e-money balances ●Checking e-money balance on External Display ●Moving applications up/down Balance Info list ●Removing applications from Balance Info list (**P.9-43**)
Locking IC Card

IC Card Lock

Restrict access to/prevent unauthorized use of Osaifu-Keitai® on handset.

Using Pedometer

Getting Started

- Count based on a pace of approximately 100 steps per minute over even terrain.
- Accuracy may be affected by course, terrain, walking style, etc.
- Avoid holding the handset; use a body worn case or a strap, or place handset inside a pocket or bag.
  - Avoid sudden/erratic movements.
- Steps are not counted in the following cases:
  - While handset is off
  - For the first few steps
  - While handset vibrates
- Handset use may affect accuracy.
- Use Pedometer only as a rough guide.

Using Compass

Available in clamshell open or Viewer position.

Opening Compass

 1 ● ➡ *Tools* ➡ ●
 2 ⊙ *Clock/Gauge* ➡ *Compass* ➡ ●
Compass Window

● Compass opens; use as a rough guide.

Adjusting Compass

 1 In Compass window, ● ➡ ●
 ● Follow onscreen instructions.

Compass Indicator
● When map is open, compass indicator appears; follow these steps to hide it:
 ● ➡ *Tools* ➡ ● ➡ ⊙ *Clock/Gauge* ➡ *S! GPS Navi* ➡ ● ➡ *NAVI Settings* ➡ ● ➡ *Compass Indicator* ➡ ● ➡ *Off* ➡ ●

Using S! GPS Navi

Use this GPS navigation service to pinpoint current location, find routes to destinations, and more.

- Provide current location to administrator upon request.
- Available in clamshell open or Viewer position.

Precautions

- Location Information accuracy may be affected when GPS satellite/radio station signal reception is poor. Use S! GPS Navi under the open sky.
- SoftBank is not liable for any damages resulting from the provided Location Information.

Positioning
- Pinpoints current location using signals transmitted from GPS satellites.

Location Information Accuracy
- Probable distance from the actual position is classified into three levels, from Accuracy 1 (low) to Accuracy 3 (high).
- A confirmation appears when accuracy level is 1 or 2; follow these steps:
  Yes or *No* ➜ ●

Starting Navi-Appli

1 ● ➜ *Tools* ➜ ● ➜ ◌
Clock/Gauge ➜ *S! GPS Navi*
➜ ●
```
S! GPS Navi
Locate Me
Navi Appli
Location Navi
Location Mail

🔧 ●Sending current location via mail ●Changing map source URL ●Disabling positioning ●Selecting Location Information transmission option ●Using My Location & Location Log ●Saving Location Log records to My Location ●Deleting Location Log records (**P.9-45**)

Using Ichi Navi (Japanese)

Locate other S! GPS Navi-compatible handset users or lost handset.

- Ichi Navi requires a separate contract and initial settings.
- If Double Number is active, service uses Line A regardless of usage mode setting.
- For more about Ichi Navi, see SoftBank Mobile Website (**P.15-23**).

1 **In S! GPS Navi menu,**
Location Navi ➤ ●

- Handset connects to the Internet. Follow onscreen instructions.

Providing Location Information

Provide current location to administrator upon request.

- Location may be provided automatically upon administrator's request without confirmation.
- May be unavailable depending on subscription. For details, contact the nearest SoftBank Shop or SoftBank Mobile Customer Center, General Information (**P.15-42**).

1 **Location Information**
request arrives

```
Easy Position Req.
"Tanaka is searching for
 you."
Do you accept
Location Request?
```
- A confirmation appears. (Message shown above is for reference only.)

2 ✉ (provide) or ✆ (reject)

Information

Information window opens after your location is provided manually (by pressing ✉) upon Location Information request or automatically upon administrator's request. Select the item and press ● to open log.

Kanji Grabber

Scanning and pasting during text entry	In a text entry window, ⊙ ➡ *Scan* ➡ ● ➡ *Kanji Grabber* ➡ ● ➡ **Frame kanji in Loupe** ➡ ● ➡ **Scan results appear** ➡ ●

Osaifu-Keitai®

Cannot use Osaifu-Keitai® (S! FeliCa)

● Battery may be low. Charge battery or install a charged battery.

Recognition via reader/writer takes time

● Check 🔁 logo area. Foreign articles can block/hamper recognition.

Call Remote Lock does not activate even after specified number of Missed Calls

● Missed Call count is reset by calls from other numbers. If series is interrupted, start over from the beginning.
● When Call Forwarding is active, Missed Calls may not be recorded.

Wakeup TV

TV does not activate with specified channel

● If Wakeup TV Time arrives while TV is active, channel does not switch to the specified one.

Voice Recorder

Cannot record properly

● If incompatible microphone is connected, recording may fail.

Noise/skipping occurs

● Avoid shocks to handset while recording; may cause noise or skipping.

Recording takes time to start

● Recording window may take longer to open as more Voice files are saved on Memory Card.

Scanning Barcode/Card/Text

? Cannot read barcodes properly

- Scan may fail if barcode is dirty or unclear.
- Scan may fail if barcode is scanned under inadequate light.
- Scan may fail if multiple barcodes are captured at one time.

? Cannot read barcodes during text entry

- Scanning is not available during calls or when mobile camera is active.

? Cannot read barcode images in Data Folder automatically

- When scan fails, follow onscreen instructions and select next barcode image manually.

? Cannot scan business cards properly

- Scan fails if business card is printed in light-colored text on a dark background, handwritten or printed in casual/decorative fonts, decorated with a background pattern, or designed with both vertical and horizontal text.
- Scan may fail if business card is printed in light-colored text on a light background, printed in italics or extremely small fonts, decorated with a logo or logo-like text, printed on a glossy paper or other material, or dirty/folded.

? Cannot scan text properly

- Scanning over 35 characters at one time may yield poor results.
- Adjust to frame text in [ ]. Letters at the ends may be distorted.
