## Mobile Widget (Japanese)

Paste widgets to Standby to access information or tools from Standby.

- Activating Mobile Widget enables Touchpad. Touchpad Indicators illuminate (Touchpad Operations: P.1-23, P.1-24).

### Network Widget

Some widgets may periodically connect to network, incurring packet transmission fees.

- While widgets appear in Standby, updated information for some widgets may be automatically retrieved. During transmission, other functions (e.g. Video Calls) may be disabled.

### Show/Hide Widget

> In Standby,

#### Tip

#### Settings

- Set Touchpad to Activate for Web Browser/Mobile Widget ( P.18-7)
- Deactivate Auto Update ● Activate Auto Roaming Abroad
- Hide Confirmation when Roaming Abroad ● Forbid Sending/Receiving Cookies ● Delete Cookies ● Change Pointer Speed ( P.18-19)
