

## **Vodafone K.K. releases Vodafone 702NK (Nokia 6630) in Japan** *New 3G services to coincide with sales launch*

Vodafone K.K. today announces that it will commence sales of its new 3G handset lineup (the Vodafone 902/802/702 series) starting with the Vodafone 702NK (Nokia 6630) on 8 December in the Kanto-Koshin region, 10 December in the Tokai and Kansai regions, and other areas following thereafter. New and exciting Vodafone live! 3G services like video call roaming, large-size mails and streaming will also be offered from 8 December to coincide with the sales launch.

The Vodafone 702NK (Nokia 6630) is a compact, candy bar type 3G handset with a 1.30 megapixel camera and a host of additional features. The handset also features PC Link for synchronizing schedules and contacts with a PC so customers can access their schedules on the go at any time.

The main features of the Vodafone 702NK (Nokia 6630) are as follows:

- 1.30 megapixel camera and compact, candy bar form factor
- PC Link for synchronizing calendar and contacts with a PC
- International roaming for voice, mail and web services

For more information on the Vodafone 702NK (Nokia 6630) and new 3G services for the Vodafone 902/802/702 series to coincide with its sale, please see the attached appendices.

\*Note: Vodafone 902/802/702 series 3G handsets have been developed for the Vodafone Group based on 3GPP world standards. In some cases operations and functions may differ from products previously offered by Vodafone K.K.

\*Domestic 3G network population coverage was 99.72% at the end of November 2004. As of 7 December, voice roaming is available on GSM networks in 111 countries and regions, with Vodafone live! roaming in 45 of them. In addition, voice and Vodafone live! roaming is available on 3G (W-CDMA) networks in 9 countries and regions abroad, with video call roaming available in 3 of them.

### **About Vodafone K.K.**

Vodafone K.K. is a leading mobile operator in Japan with over 15 million customers and a subsidiary of Vodafone Group Plc, the world's largest mobile community. The Tokyo-based company offers a wide range of sophisticated mobile voice and data services including Vodafone live!, which provides e-mail and internet access to 85% of its customers, and Sha-mail, the pioneering picture messaging service first introduced in November 2000 that now has over 12 million users. In December 2002, Vodafone K.K. launched the world's first commercial 3G W-CDMA service based on 3GPP, the international standard. Vodafone K.K.'s 3G service offers its customers fast data speeds in Japan and roaming on 146 networks in 111 countries and regions as of 7 December 2004. ## Appendix 1

### Vodafone 702NK (Nokia 6630) by Nokia

#### 1. Main Features

- 1.30 megapixel camera and compact, candy bar form factor

The Vodafone 702NK (Nokia 6630) features a unique candy bar form factor and an easy-to-use keypad. The handset fits nicely into the palm of one's hand and houses a 1.30 megapixel camera with digital 6x zoom. Customers can record up to one hour of video in addition to taking still photographs.

- PC Link for synchronizing calendar and contacts with a PC

PC Link, for use with bundled Nokia PC Suite software, enables customers to synchronize schedules and contacts with their PCs for access on the go. The Vodafone 702NK (Nokia 6630) also supports Bluetooth connectivity so customers can connect with PCs or PDAs over the air.

Compatible OS: Windows® 2000/XP

Compatible Applications: Microsoft® Outlook® Express, Microsoft Outlook® 98/2000/2002/2003

Lotus Notes® 5.0/6.0, Lotus Organiser 5.0/6.0

- International roaming for voice, mail and web services

The Vodafone 702NK (Nokia 6630) supports international roaming for voice, mail and web services. In addition, video call\* roaming is possible so customers can see and hear one another from abroad during business trips or vacations as if they were in Japan.

\*Video call requires a separate video call camera stand (sold separately).
