

19 December 2005

## **Vodafone K.K. to offer free international plug adapter rental service**

*Rentals available at 5 Vodafone counters in Narita, Kansai and Centrair airports*

Vodafone K.K. announces today that from 20 December 2005 to 31 May 2006\*<sup>1</sup>, it will offer free international plug adapter (converter) rentals at its 5 Vodafone counters in Narita International Airport (Terminal 1 and Terminal 2), Kansai International Airport (Departure and Arrival lobbies) and the Central Japan International Airport (Centrair).

The adapter supports 4 types of wall outlets—Europe, UK, USA and Australia—so customers can recharge their handsets in over 150 countries and regions.

Customers using international roaming compatible Vodafone K.K. 3G handsets\*<sup>2</sup> will be eligible for the service and can rent the adapters by filling out an application at one of the airport counters. One adapter is available per customer.

During the rental service period, at the Vodafone counters customers will receive questionnaires on their purpose for traveling and mobile handset usage abroad. Customers who return the questionnaire will be eligible to receive a Vodafone K.K. original luggage tag, which has information on how to make calls to Japan and change various settings of Vodafone K.K. 3G handsets while abroad.

Vodafone K.K. will continue to expand its lineup of roaming capable 3G handsets and its roaming footprint to offer richer communication to customers.

For photographs of the international plug adapter and detailed information on participating Vodafone counters, please see the attached appendices.

\*1: Offer may end within the period depending on inventory and rate of customer rental returns.

\*2: Some 3G handsets such as the Vodafone 802N/703N are for use in Japan only.

### **About Vodafone K.K.**

Vodafone K.K. is a leading mobile operator in Japan with over 15 million customers and a subsidiary of Vodafone Group Plc, the world's largest mobile community. The Tokyo-based company offers a wide range of sophisticated mobile voice and data services including Vodafone live!, which provides mail and internet access to 85% of its customers, and pioneered the picture messaging service called Sha-mail first introduced in November 2000. In December 2002, Vodafone K.K. launched the world's first commercial 3G W-CDMA service based on 3GPP international standards. Vodafone K.K.'s 3G service offers its customers rich content and roaming in 129 countries and regions on 180 networks. For more information, please visit [www.vodafone.jp](http://www.vodafone.jp)

\*Above data is current as of 30 November 2005.
