(d) Depositary Receipts for Share Certificates

American depositary shares that are registered and issued by JP Morgan Chase Bank, N.A., which is the depositary bank, in the U.S. and listed on the New York Stock Exchange, each representing the title to one Target Company Share deposited with Mizuho Bank, Ltd., which is the custodian bank of the underlying shares (hereinafter, the “ADSs”).

- (Note) Because the Tender Offer aimed to acquire all of the Target Company Share Certificates and because the Tender Offerors were required to solicit offers to sell all of the Share Certificates issued by the Target Company pursuant to Article 27-2, paragraph (5) of the Act and Article 8, paragraph (5), item (iii) of the Order for Enforcement of the Financial Instruments and Exchange Act of Japan (Cabinet Order No. 321 of 1965, as amended from time to time, hereinafter, the “Order”), the Tender Offerors included the ADS in the class of share certificates subject to the Tender Offer. However, with respect to the ADSs, which are listed securities

in the U.S., it has become clear that it is difficult for the Tender Offerors, which are incorporated in Japan, to acquire the ADSs in the Tender Offer, which would be conducted outside of the U.S., given that there are no financial instruments business operators to act as tender offer agents to acquire the ADSs in the Tender Offer. Therefore, the Tender Offerors accepted only tenders of the Target Company Share Certificates other than the ADSs, and did not accept tenders of the ADSs in the Tender Offer.

(4) Number of Share Certificates to be Purchased

Number of Share Certificates to be Purchased	Lower limit on the Number of Share Certificates to be Purchased	Upper limit on the Number of Share Certificates to be Purchased
88,309,642 shares	— shares	— shares

(Note 1) The Tender Offerors did not set an upper or lower limit for the number of Share Certificates to be purchased, and the Tender Offerors will purchase all of the Share Certificates tendered in the Tender Offer (hereinafter, the “Tendered Share Certificates”).

(Note 2) The Tender Offer did not set an upper limit on the number of shares to be purchased, so the number of shares to be purchased is 88,309,642 shares, the maximum number of the Target Company Shares that the Tender Offerors may acquire through the Tender Offer. Such maximum number (88,309,642 shares) is calculated by adding (i) 241,544,142 shares, all the outstanding shares of the Target Company as of June 30, 2020, as stated in the “Consolidated Financial Results (IFRS) for the Six Months Ended June 30, 2020” filed by the Target Company dated July 29, 2020 (hereinafter, the “Target Company Summary of Financial Results for the Second Quarter”), which includes 2,355,197 shares of the underlying shares of the ADSs (the number of shares in case ADSs are converted into the Target Company Shares) and (ii) the total number of the Target Company Shares to be issued upon exercise of all the Share Options existing as of June 30, 2020 (12,000,000 shares) and the Target Company Shares to be issued upon exercise of all share options attached to the Convertible Bonds (19,529,086 shares), and subtracting from the sum of (i) and (ii) (273,073,228 shares) the following: (iii) the aggregate of the total number of the Target Company Shares owned by NAVER (174,992,000 shares) and the Target Company Shares to be issued upon exercise of share options attached to the Convertible Bonds owned by NAVER (9,764,543 shares), and the number calculated by subtracting the number of treasury shares owned by the Target Company as of June 30, 2020 as stated in the Target Summary of Financial Results for the Second Quarter by the parts owned by J-ESOP of the Target Company as of the same day (7,043 shares).

(Note 3) Shares that comprise less than one unit were also eligible for the Tender Offer. If a right to demand purchase of shares less than one unit was exercised by a shareholder in accordance with the Companies Act (Law No. 86 of 2005, as amended from time to time), the Target Company could purchase the shares in the Target Company during the purchase period of the Tender Offer (hereinafter, the “Tender Offer Period”) in accordance with the procedures under the laws and regulations.

(Note 4) There is no plan to acquire the treasury shares owned by the Target Company through the Tender Offer.

(Note 5) The Tender Offerors intend that SoftBank will purchase the number equal to 50% of each type of the Tendered Share Certificates, and NAVER J. Hub will purchase the number equal to the remaining 50% thereof (provided, however, that if there is a fraction in the number of any type of the Tendered Share Certificates that each of the Tender Offerors will purchase, the number of such type of the Tendered Share Certificates that SoftBank will purchase will be rounded up, and the number of such type of the Tendered Share Certificates that NAVER J. Hub will purchase will be rounded down).
