

# Device Setting for Enabling CONUS&Hawaii Flat-Rate Option

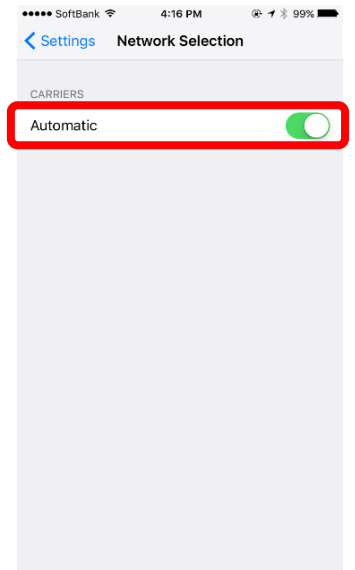

(Only applied for Apple cellular model devices sold from Sep 2014 by SoftBank )

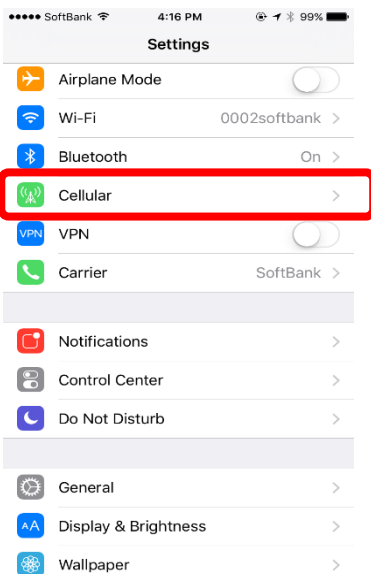

➤ **Settings**

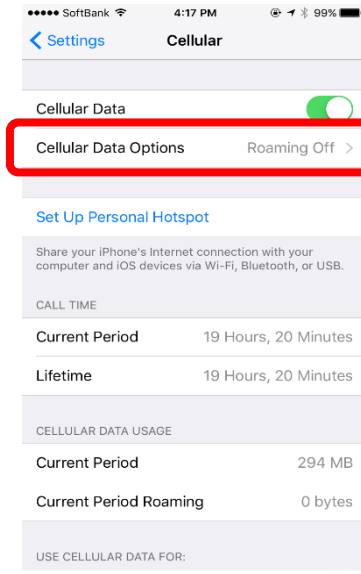

➤ **Carriers**

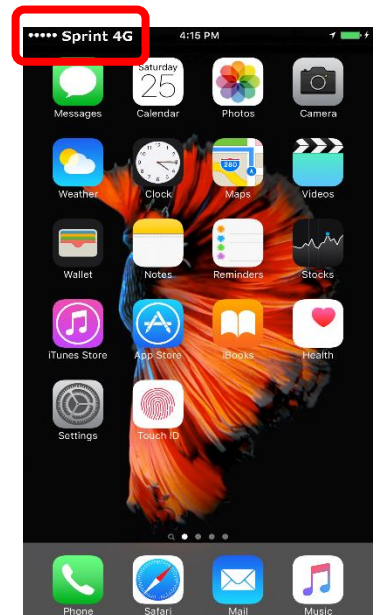

➤ **Leave it  
“Automatic”**

➤ **Cellular**

➤ **Cellular Data Options  
Roaming OFF**

➤ **See network name  
showing  
“Sprint 1x”  
“3G” or “4G”**

You **cannot** manually set carrier “Sprint” on the carrier setting. It should be left as “Automatic”.

**\*When Data Roaming is ON, device will receive non-Sprint signal, and normal roaming charges will be billed.**

**\*If you have White Plan, 2GB/1GB data plan, data sharing plan, or iPad series, please see on base SoftBank crews before you leave Japan. Need to apply 1058yen/month option.**

**\*If you have a very weak signal when connected to 4G network, please try to turn “Enable 4G ”OFF. Sometimes 3G network may provide a better communication speed than 4G network in some locations.**
