

Messaging

Basics

Send messages via S! Mail, SMS or PC Mail.

- SoftBank Mobile messaging services are available in Japan and overseas.
- For more information, see SoftBank Mobile Website: <http://mb.softbank.jp/en/>

Messaging Folders

* Set Auto-sort messages to specified folders automatically (☞P.4-6).

Operations while Using PC Mail

Setting PC Mail accounts creates account folders in Messaging Folders. S! Mail/SMS operations may change as a result.

Auto Resend

Handset saves unsendable messages (out-of-range, Offline Mode) to Unsent folder and automatically sends when able. Messages are protected until sent.

- To selectively cancel Auto Resend: ☑ → **Sent/Unsent** → Select a folder → Highlight a message → ☑[Menu] → **Release Resending**
- Unsendable messages created while Auto Resend is set to **OFF** are not automatically resent. Those already saved before Auto Resend is set to **OFF** are automatically resent. To cancel Auto Resend function, ☑ → **Settings** → **Universal Settings** → **Auto Resend** → **OFF**.

Deleting Messages Automatically

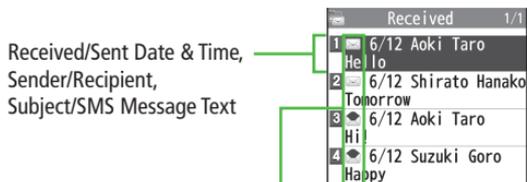

When Messaging Folders are full, old messages are automatically deleted one by one. Protect important messages or set deletion setting to **OFF**. Messages in Drafts and SMS on USIM Card are not deleted automatically.

- To protect messages: In message list, select/highlight a message → ☑[Menu] → **Protect** → **This one** or **Selected** (→ For **Selected**, check messages → ☑[Finish])
- To cancel Auto Delete: ☑ → **Settings** → **Universal Settings** → **Auto Delete** → **Auto Sent Msg Del** or **Auto Received Msg Del** → **OFF**
