

Text Entry

Unless noted otherwise, text entry descriptions are for text entry windows.

Text Entry Window (Message Text)

Opening Help

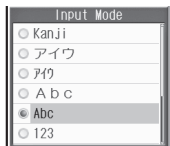

Note

- Pressing repeatedly may not close text entry windows.

Switching Entry Modes

1

- Available entry modes appear.

2 **Select mode**

- Entry mode indicators:

	Kanji (Hiragana)
	Double/Single-byte Katakana
	Double-byte Alphanumerics (upper/lower case)
	Single-byte Alphanumerics (upper/lower case)
	Single-byte Number
	Character Code

appears when Predictive is active.

Character Entry Basics

Use Keypad to enter characters. Multiple characters are assigned to each key. Press a key to toggle character options for that key.

Example: In Double-byte Katakana mode, press three times.

- Press to reverse-toggle options. To enter characters assigned to the same key, press first.

Example: In Single-byte Alphanumerics mode, enter *no*.

- Long Press a key to confirm the current character and advance cursor.

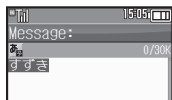

Entering Characters

Hiragana

Enter **すずぎ** in Kanji (Hiragana) mode.

- 1    (す) →  →
   (ず) →  (ず) →
  (ぎ)

- 2  (Confirm)

Kanji

Convert **すずぎ** to **鈴木**.

- 1 Enter **すずぎ**

- In Kanji (Hiragana) mode, word suggestions change as hiragana are entered. (Predictive)
- Long Press  to toggle suggestion mode between Standard, Literary, Spoken and Automatic. (Personal Mode)

- 2 

- 3 **鈴木**

- To exit suggestion list, press .

- 4 

- Words likely to follow the entry appear. (Previous Usage)

When Target Word is Not Listed

- Press  or  to segment hiragana to convert separately.
 - Press  to toggle Predictive and Non-Predictive suggestions.

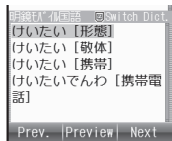

Deleting Words/Phrases from Entry Log

- Enter hiragana →  → Select word/phrase →  (Long Press) → Yes → 

Entering from Dictionaries

Enter text by referring to word definitions, translations, etc.

1 Enter hiragana ➔ Before confirming entry,

- Press  to toggle dictionaries.

2 Select word, etc. ➔

- Definition/translation appears.

3

One-Hiragana Conversion

Enter the first hiragana for a suggestion list from previously selected words.

Example: **すずき** was previously converted to **鈴木**.

1 (す) ➔

2 Select word/phrase ➔

Correction Conversion

After mistyping hiragana assigned to the same key (e.g., **い** instead of **う**), enter intended word/phrase from suggestion list without retyping.

(Available when three or more hiragana are typed.)

1 Enter hiragana ➔ Before selecting word/phrase,

- Corrected word suggestions appear.

2 Select word/phrase ➔

Katakana

Switch to Double-byte Katakana mode and enter **ジュン**.

1 ➔ **アイウ** ➔

2 (ジ) ➔ (ジ) ➔

(ユ) ➔ (ユ) ➔

(ン) ➔

Pictograms & Symbols

- May be unavailable depending on entry mode.
- Immediately after confirming a descriptive word such as **嬉しい** or **悲しい**, corresponding pictograms may appear in suggestion list. (PictogramWordLink)

1

- Pictogram or symbol list appears. (Log appears if pictogram/symbol has been used.)

2 (toggle tabs) ➔ or (toggle lists)

- While entering message text, press  in pictogram list to toggle cross-carrier pictograms and all pictograms. Alternatively, press  to switch to My Pictogram or symbol list.

3 Select pictogram or symbol ➔

- Pictograms are double-byte even in single-byte entry modes.

4 ➔ List closes

Emoticons

1  ➔ **Emoticons** ➔ 

2 **Select emoticon** ➔ 

Alternative Emoticon Entry Method

- In Kanji (Hiragana) mode, enter **かお** or a descriptive word such as **わーい** or **うーん**, then convert the entry.

Mail & Web Extensions

Enter **.co.jp**, **http://**, etc., easily.

1  ➔ **Quick Addr. List** ➔ 

2 **Select extension** ➔ 

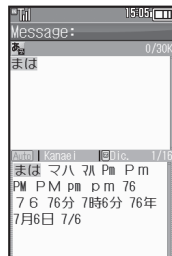

- Extensions are single-byte even in double-byte entry modes.

Hiragana to Katakana/
Alphanumeric Conversion

Enter katakana or alphanumerics in Kanji (Hiragana) mode using key inscriptions.

Example: Enter **PM**

1   ➔ 

2 **Select word/phrase (PM)**
➔ 

Using Wildcard Characters

To improve word suggestions in Kanji (Hiragana) mode, or Single-byte Alphanumeric mode, add ***s**, or ***s** (wildcard characters) respectively, to entries. Use ***** or ***** to specify the character count: For example, enter **あか**** for a list of words/phrases of four or more characters starting with **あか** or **あが**; enter **so**** for a list of case-insensitive words/phrases that start with **so**.

Example: Kanji (Hiragana) mode

1 **Enter hiragana** ➔  ➔ 

- ***** appears; to enter another *****, press  again.

2  ➔ **Select word/phrase**
➔
