About TV

Handset supports One Seg Digital TV for cellular phones.

- One Seg is available only in Japan.

One Seg

One Seg is a digital TV broadcasting service for mobile devices. It uses one segment of the terrestrial digital band for TV and data broadcasts that you enjoy at home, on your handset.

Watch TV in
Widescreen

Data Broadcasts

Enjoy data broadcasts while watching TV. Access program-related information and even participate in the program (P. 8-6).

Record Programs

Record a program on memory card while viewing it and enjoy it again at a later time (P. 8-8).

View and Record Timer

Book programs you want to view/record. Program Guide can be used for booking programs (P. 8-10).

Quick Info

Sender and subject information appears for new message while TV is active (P. 13-4).

Precautions

- Never watch TV while riding a bicycle, motorcycle or driving a car. You may not hear the sounds around you clearly, or TV image/sound may distract you creating the risk of accident. Even while walking, pay attention to the traffic around you. Be especially careful at railway crossings and pedestrian crosswalks.
- TV image/sound may be affected if a call or message is received while watching TV.
- TV information (TV links or data you entered in Data Broadcast Mode) saved on handset cannot be transferred to another handset when you change your handset to another model or when it is repaired. Keep a memo of necessary information.
- TV is available when USIM Card is inserted and with a valid SoftBank contract.
- TV antenna is built into handset. If screen quality is poor, change handset position or move it away from body to improve screen quality.

About TV

- TV image/sound may deteriorate or signal reception may become impossible in the following areas:
 - Areas far from signal towers
 - Mountain areas or places beside tall buildings
 - In tunnels, underground malls or buildings with a lot of signal obstructions
- For more information on One Seg services, visit the following website:
The Association for Promotion of Digital Broadcasting
From PC: <http://www.dpa.or.jp/>
From handset: <http://www.dpa.or.jp/1seg/k/>
(Japanese)

When You First Activate TV

The first time you activate TV, the following information appears.

- How to switch between Portrait and Landscape View
 - Functions unavailable in Landscape View
- Read information then press **●**, select **YES**, and press **●**. If **NO** is selected, information no longer appears when activating TV.

Initial Setup

Configure channel settings for your area and save stations to a channel list.

1 ⇒ **TV/Music** ⇒ **●** ⇒ **TV** ⇒ **●**
⇒ **Channel Settings** ⇒ **●**

2 **Select Area** ⇒ **●** ⇒ **Select area**
⇒ **●** ⇒ **Select prefecture/city** ⇒
● ⇒ **YES** ⇒ **●**

Stations for the area are saved to a channel list.

Tip

- If signals from stations of the selected area are difficult to receive, search for stations using the *Automatic* option.

Watching TV

- 1 **MENU** → **TVIMusic** → **TV** → **Watch TV**

TV Window

- 2 **Use Keypad to select a channel**
Press **[*]** for channel 10, **[0]** for channel 11, and **[#]** for channel 12.

- 3 **[Left Arrow]** or press and hold **[CLEAR]** to end TV → **YES** → **TV**
Follow the same step to end TV in Portrait view.

Tip

- TV volume is "0" when Manner Mode is active and no earphone is connected. Adjust with **[Volume Up]**.

Available Functions

Change Channel in Order	[Channel Up]
Automatically Search for Receivable Channels	Press and hold [Search] • Press [Enter] or [CLEAR] to stop search
Adjust Volume	[Volume Up] or press and hold [Volume Up]
	[7-9] or [MUSIC]
	Press and hold [7-9] or press and hold [MUSIC]
Mute	[CLEAR]
Toggle Portrait and Landscape	[TV] or press and hold [9]
Show/Hide Subtitles ¹	Press and hold [Subtitles]
Toggle Windows ²	Press and hold [Windows] Windows toggle as follows: Data Broadcast → Image & Data Broadcast → Image & Subtitles & Data Broadcast
Switch to Data Broadcast Mode ²	[Windows]

- 1 Available in Landscape View.
2 Available in Portrait View.

When a Call Arrives While Watching TV

When a call arrives or when Alarm or Schedule Alarm is activated while watching TV, TV is interrupted to receive the call, etc. TV resumes after the interrupting function ends.

Data Broadcasts (Japanese)

Data broadcasts are available while watching TV in Portrait view. Access various kinds of program-related and other information in Data Broadcast Mode.

1 [TV] window ⇨

Data Broadcast Mode Window

Data Broadcast Mode is activated.

2 Select a link ⇨

When a confirmation asking whether to connect to the Internet appears, select **YES** and press . The confirmation will not appear again.

Available Functions

Select a Link	
Confirm Selection of a Link	
Switch Pages	
Previous Page	
Toggle Windows	Press and hold Windows toggle as follows: Data Broadcast → Image & Data Broadcast → Image & Subtitles & Data Broadcast
Switch to TV Mode	

Note

- Viewing data broadcast information requires no fees. However, accessing Internet links will incur transmission fees.
- Data broadcasts are unavailable in Landscape view.

Program Guide

- Use Program Guide to set timer to record/activate programs.

1 ⇨ TV/Music ⇨ ⇨ TV ⇨ ⇨ Program Guide ⇨

See Program Guide help for further operations.

Before first using Program Guide, configure initial settings and agree to the terms of use. Follow the onscreen instructions.

- Enable/Disable Sound Effects of Data Broadcasts
- Show Confirmation Window Again

(▶ P. 13-22)

Recording Programs

TV programs can be recorded on memory card while you are watching them.

- Data broadcasts are not saved with recording.

1 [TV] window ⇨ **Press and hold**

Recording starts.

- **To Capture a Still Image**
⇨

Captured still images are saved to TV folder in Data Folder.

2

Recording ends.

- **When Memory Becomes Full**
Recording ends and the recorded portion is saved.

Note

- The channel remains fixed during recording.
- Recording certain programs is restricted. If a restriction is activated while recording a program, recording automatically ends, and the part that has been recorded so far is saved.
- When appears to indicate handset is out of the broadcasting area, recording is paused. When the signal strength recovers to weak or better, recording automatically resumes.
- Recording continues even with handset closed, but signal reception may be poor.
- Recordings that you make are for personal use only. Other uses require the permission of the copyright holder.
