## Media Player & S! Applications

## Media Basics

Use Media Player to play music/video on 832SH s.

- Download media files from Mobile Internet sites via Media Player directly.
- Transfer PC music files and save them on Memory Card.

### Music File Support

#### My Music

(Handset/Memory Card)

Downloads/Transferred Files

#### SD AUDIO

(Memory Card)

Transferred SD-Audio Files

### Video File Support

#### My Videos

(Handset/Memory Card)

Downloads/Recorded Files

When using a Memory Card with SD-Video files recorded on other devices, open them from **SD VIDEO**.

### Playback Precautions

- Media Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
- Playback stops for incoming calls.
- If battery is low, Media Player will not play. Playback stops if battery runs low during playback.
- Turn down the volume if distortion is noticeable in Speaker sound.
- Handset plays media while it downloads (streaming); downloaded media cannot be saved. Packet transmission fees apply even while stream is paused.

### Compatibility

- Files transferred from PCs cannot be used as ringtones or System Sounds.

## Downloading Media Files

Download media files from the Internet. Read information (price, expiry date, etc.) on the source site.

1  ➔ **Media** ➔ 

Media Player Menu

2 **Music or Videos** ➔ 

3 **Download Music or Download Videos** ➔ 

- Follow the links to download media.

### Download via Music Search (Japanese)

In  **Music Search** ➔ 

- Follow onscreen instructions.

## Saving Music Files from PCs

- Use software to convert music file format.
- For software usage and specifications, see the provider's website, etc.
- SoftBank Mobile does not guarantee compatibility with any software.
- USB Cable may be purchased separately.

### Handling Transferred Files

- Copyright laws limit duplicated material to private use only.
- Files created with PC software, etc. may not play.
- Comply with copyright and other intellectual property laws when using obtained files.

### Saving AAC Files

Convert PC music files to 832SH s-compatible format (P.14-20), then save to corresponding Memory Card folder (P.14-22) via Mass Storage. Install USB Cable driver beforehand.

## Playing Music

1

2 **My Music** **Select tab (folder)**

Music Playlists Window

3 **All Music**

4 **Select file**

Music Playback Window

- Album art appears for compatible Chaku-Uta Full® files.

### Using Other Functions while Playing Music After , or

- To stop playback, follow these steps in Standby:

### Playing SD AUDIO Files

In

### Searching Music Files

After , **Search** **Enter search text**

### Lyric Display-Compatible Files

- Press to display lyrics.

### Music Playback Operations

Replay	(Long Press: Rewind <sup>1</sup> )
Skip Forward	(Long Press: Fast Forward <sup>1</sup> )
Volume Down	(Long Press: Mute)
Volume Up or Cancel Mute	
Pause	
Stop	In Pause,
Open Help	

<sup>1</sup>Release for playback.

### Music Playback Window Description

1	Title	6	Elapsed time
2	Artist name	7	Volume
3	Track number	8	Information link
4	Status	9	Sound Effects
5	Playback Mode		

### Advanced

- Resuming from stopped point
- Specifying start point
- Accessing linked information
- Playing repeatedly or randomly
- Changing Sound Effects (P.7-8)

## Playing Video

1

2 *My Videos*

Video Playlists Window

3 *All Videos*

4 *Select file*

Video Playback Window

5

### Playing SD VIDEO Files

In 2, *SD VIDEO*

### Searching Video Files

After Enter search text

### At Alarm Time

- Playback stops.

### Video Recorded on Other Devices

- Video image may appear rotated.

### Video Playback Operations

For pause, volume up/down or help, see P.7-4 "Music Playback Operations."

<b>Replay</b>	(Long Press: Rewind*)
<b>Skip Forward</b>	(Long Press in Pause: Advance Frame, Long Press: Fast Forward*)
<b>Toggle Display Size</b>	

\*Release for playback.

### Video Playback Window Description

1	Title	6	Elapsed time
2	Author name	7	Volume
3	Clip number	8	Information link
4	Status	9	Sound Effects
5	Playback Mode		

7

Media Player &amp; Si Applications

### Advanced

- Resuming from stopped point
- Specifying start point
- Accessing linked information
- Playing repeatedly or randomly
- Changing Sound Effects
- Changing playback size
- Setting Backlight status
- Hiding linked information (P.7-8)

## Using Playlists

Playlists store playback orders. Add favorite media files to Playlists, or organize files by artist/genre. Playlists store only file locations. Source files remain in All Music or All Videos.

### Adding to Playlist

Follow these steps to add a music file to **再生リスト1**:

- 1

- 2 **My Music**
- 3 **All Music**

- 4 **Add to Playlist**

### Renaming Playlists

- 1 In Playlists window, select **Playlist**

- 2 **Edit List Title**

### Advanced

- Organizing Playlists
- Sorting files
- Opening properties
- Deleting/editing SD AUDIO files
- Downloading Contents Keys (P.7-9)
- Organizing Playlists
- Sorting files
- Downloading Contents Keys
- Opening properties
- Deleting SD VIDEO files (P.7-10)

## Using S! Applications

Try out the preloaded S! Applications or download and use 832SH s-compatible S! Applications, including games. Refer to the S! Application's help menu or the source Internet site, etc. for operational instructions.

- 1 → **S! Appli** →
- 2 **S! Appli Library** →

S! Appli Library

- 3 **Select application** →

### Network S! Applications

- A message appears indicating that Internet connection is required. Follow onscreen instructions.

### Incoming Calls

- Incoming calls automatically pause S! Application.

### Opening S! Appli Notification History

In **2**, **Notification History** →

## Exiting S! Applications

- 1

- 2 **End** →

### Pausing S! Applications

In **2**, **Suspend** →

### Resuming S! Applications

→ **Resume** →

- Select **Cancel** to open Main Menu and keep the S! Application paused. (Additional function activation may be disabled depending on the S! Application.)
- Select **End** to exit the S! Application.

## Advanced

- Downloading S! Applications
- Adjusting S! Application sound volume
- Canceling surround effect
- Setting handset responses to incoming transmissions
- Setting S! Application to activate in Standby
- Setting Permissions
- Opening properties (P.7-11)
- Moving S! Applications to Memory Card
- Changing S! Application settings
- Deleting S! Applications
- Restoring default S! Application settings
- Restoring default S! Appli Library
- Synchronizing Memory Card S! Applications with 832SH s
- Opening Java™ license information (P.7-12)

## Music

### How do I delete files in All Music?

- Delete All Music files in My Music via Data Folder (Music or Ring Songs-Tones).

## Video

### How do I delete files in All Videos?

- Delete All Videos files via Data Folder (Videos).

### Cannot play video files

- Files created with PC software, etc. may not play.

## S! Applications

### Cannot move S! Applications to Memory Card

- Memory Card memory may be low or the S! Application may already be saved.

### S! Applications do not pause for incoming transmissions despite *Calls & Alarms* settings

- Regardless of setting, a message appears for Screensaver S! Applications.
