Overview

Voice call and video call are available on handset.

Emergency Calls

Your location is automatically reported to the corresponding agency (police, etc.) when you place emergency calls (110, 119, or 118) with Softbank 3G handsets.

(Emergency Location Report)

930CA reports Location Information based on positioning signals from radio stations.

- Registration and transmission fees do not apply.
- Positioning accuracy is affected by location and signal conditions. Always provide your location and purpose on the phone.
- Location Information is not reported when emergency calls are placed without Caller ID (such as when the number is prefixed with 184). However, the corresponding agency may obtain your Location Information in a life threatening situation.
- Not available during international roaming.

Emergency calls are possible even while some handset restrictions are active.

- Restrict Dialing (P. 2-24)
- Keypad Lock (P. 4-4)
- Set Max Cost Limit (P. 14-19)
- Emission OFF Mode (P. 4-8)
- PIN1 Code Entry Set (P. 4-2)

Tip

- Always include the area code even when dialing from the same area.
- When you hear a busy tone, the other party is on another line.
- When you hear a message saying that the other party cannot be reached, the other party's mobile phone is off or is out of signal range.
- When you hear a message asking for your caller ID, call again with your number revealed.
- After Display backlight turns off during a call, if no keys are pressed for about two minutes, Display goes off and handset enters Power Saver Mode regardless of Lighting setting for Backlight (P. 14-7). Handset can be operated in Power Saver Mode in the same way as when Display is lit.

- Call ends when handset is closed. Connect stereo earphone-microphone to talk with handset closed.
