Media Player

Media Basics

Use Media Player to play music/video on 931SH.
- Download media files from Mobile Internet sites via Media Player directly.
- Transfer PC music files and save them on Memory Card.

Music File Support

My Music
(Handset/Memory Card)
Downloads/Transferred Files

SD AUDIO
(Memory Card)
Transferred SD-Audio Files

Video File Support

My Videos
(Handset/Memory Card)
Downloads/Recorded Files

When using a Memory Card with SD-Video files recorded on other devices, open them from *SD VIDEO*.

Playback Precautions
- Media Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
- Playback stops for incoming calls.
- When battery is low, Media Player will not play. If battery runs low during playback, Media Player shuts off.
- Turn down the volume if distortion is noticeable in Speaker sound.
- Handset plays media while it downloads (streaming); downloaded media cannot be saved. Packet transmission fees apply even while stream is paused.

Compatibility
- Files transferred from PCs cannot be used as ringtones or System Sounds.

Downloading Music

Download music from the Internet.
Read information (price, expiry date, etc.)
on the source site.

1 *MENU* or ● ➡ *Media Player*

2 *Music*

Saving Music Files from PCs

- Use software to convert music file format.
- For software usage and specifications, see the provider's website, etc.
- SoftBank does not guarantee compatibility with any software.
- USB Cable may be purchased separately.

Handling Transferred Files

- Copyright laws limit duplicated material to private use only.
- Files created with PC software, etc. may not play.
- Comply with copyright and other intellectual property laws when using obtained files.

Using MTP Mode

Follow these steps to save WMA files via S! Music Connect (Japanese):

- For more about S! Music Connect, see SOFTBANK MOBILE Corp. Website (**P.19-18**).
- Copy protected files can only be played on the handset with which the files were transferred.

1. *MENU* or ● ➜ *Media Player*

2. *MTP Mode* ➜ *Yes*

```
out       [icons]
        MTP Mode

        💻🔄📱

    Attach USB cable.
```

3. **Connect handset to a PC via USB Cable**
   - Copy music from PC. Refer to the S! Music Connect help menu for operational instructions.

4. *Cancel* or ⑊ ➜ *Yes* ➜ **Connection ends**
   - Disconnect USB Cable.

Saving AAC Files

Convert PC music files to 931SH-compatible format (**P.19-17**), then save to corresponding Memory Card folder (**P.12-5**) via Mass Storage. Install USB Cable driver beforehand.

Playing Music

1. *MENU* or ● ➡ *Media Player* ➡ *Music*

2. *My Music* ➡ Highlight *Music* or *Ring Tones* tab

Using Playlists

Playlists store playback orders. Add favorite media files to Playlists, or organize files by artist/genre.
Playlists store only file locations. Source files remain in All Music or All Videos.

Adding to Playlist

Follow these steps to add a music file to プレイリスト1:

1 *MENU* or ● ➔ *Media Player* ➔ *Music*

Music

How do I delete files in All Music?

- Delete All Music files via Data Folder (Music or Ring Songs·Tones).

WMA files do not appear

- Did you use 931SH to transfer the files? Copy protected files can only be played on the handset with which the files were transferred.
- Copy protection information may be corrupted; perform *Delete All WMA* and re-transfer the files.
- Files transferred via Mass Storage appear when moved to corresponding Memory Card folder. (Transfer copy protected files via MTP Mode.)

Cannot transfer WMA files

- WMA files may be corrupted; perform *Delete All WMA* and retry.

Cannot play WMA files

- Playback rights may have expired (license not found message appears); re-transfer the files. If files still cannot be played, they may be corrupted; perform *Delete All WMA* and retry.

Video

How do I delete files in All Videos?

- Delete All Videos files via Data Folder (Videos).

Cannot play video files

- Files created with PC software, etc. may not play.
