Media Player & S! Applications

Media Basics

Use Media Player to play music/video on 934SH.
● Download media files from Mobile Internet sites via Media Player or transfer files from PCs or AQUOS Blu-ray Disc recorders (hereafter "Blu-ray Disc recorders").
● Transfer PC music files and save them on Memory Card.

Music File Support

Playback Precautions
● Media Player is not compatible with some recording/playback formats. Files may not play depending on the Memory Card status.
● Playback stops for incoming calls.
● When battery is low, Media Player will not play. Playback stops if battery runs low during playback.
● Turn down the volume if distortion is noticeable in Speaker sound.
● Handset plays media while it downloads (streaming/progressive download). Packet transmission fees apply even while playback is paused.
Compatibility
● Files transferred from PCs cannot be used as ringtones or System Sounds.

Downloading Media Files

Download media files from the Internet.
Read information (price, expiry date, etc.)
on the source site.

1 ● ➡ *Media Player* ➡ ●

T.ll●
Media Player

2 *Music* or *Videos* ➡ ●

3 *Download Music* or
Download Videos ➡ ●

● Follow the links to download media.

Download via Music Search (Japanese)
In 3, *Music Search* ➡ ●
■ Follow onscreen instructions.

Saving Music Files from PCs

● Use software to convert music file format.
● For software usage and specifications, see
the provider's website, etc.
● SoftBank does not guarantee compatibility
with any software.
● USB Cable may be purchased separately.

Handling Transferred Files
● Copyright laws limit duplicated material
to private use only.
● Files created with PC software, etc. may
not play.
● Comply with copyright and other intellectual
property laws when using obtained files.

Saving AAC Files

Convert PC music files to
934SH-compatible format (**P.15-21**), then
save to corresponding Memory Card
folder (**P.15-24**) via Mass Storage.
Install USB Cable driver beforehand.

Saving WMA Files

Follow these steps to save WMA files via
compatible software:
(Copy protected files can only be played
on the handset with which the files were
transferred.)

1 **Connect handset to a PC via
USB Cable**

T.ll●
USB Mode
Modem/Data
Mass Storage
Recorder Link
MTP Mode
2 *MTP Mode* ➡ ●

● Copy music from PC. Refer to the
software's help menu for operational
instructions.

3 ⊙ ➡ *Yes* ➡ ● ➡
Connection ends

● Disconnect USB Cable.

If Menu in 1 Does Not Appear
● Follow these steps:

Music

How do I delete files in All Music?

● Delete All Music files in My Music via Data Folder (Music or Ring Songs·Tones).

WMA files do not appear (WMA files are not transferable)

● Did you use 934SH to transfer the files? Copy protected files can only be played on the handset with which the files were transferred.
● Copy protection information may be corrupted; perform *Delete All WMA* and re-transfer the files.
● Files transferred via Mass Storage appear when moved to corresponding Memory Card folder. (Transfer copy protected files via MTP Mode.)
● WMA files may be corrupted; perform *Delete All WMA* and retry.

Cannot play WMA files

● Playback rights may have expired (license not found message appears); re-transfer the files. If files still cannot be played, they may be corrupted; perform *Delete All WMA* and retry.

Video

How do I delete files in All Videos?

● Delete All Videos files via Data Folder (Videos).

Cannot play video files

● Files created with PC software, etc. may not play.

S! Applications

Cannot move S! Applications to Memory Card

● Memory Card memory may be low or the S! Application may already be saved.

S! Applications do not pause for incoming transmissions despite *Calls & Alarms* settings

● Regardless of setting, a message appears for Screensaver S! Applications.
