About Music Player

Use Music Player to play and organize songs on handset.

- Access the Internet to download music.
- Also play videos with Music Player. When *Auto-change Screen* is set to *ON*, turn handset to its left side to view in full screen mode.

- Some files are unplayable depending on their format.
- Alarm notification, received calls, etc. while playing music will pause play. For videos, select the same video to resume watching.

Tip

- Be sure to save music files from PC to Memory Card in the following folder.
 ¥PRIVATE¥MYFOLDER¥My Items¥Music

Downloading Music

- Check the fees, expiration date, etc. on the download site.

1  ⇒ **Music** ⇒  ⇒ **Download Music** ⇒  ⇒ **YES** ⇒ 

2 Follow onscreen instructions

Transferring from PC

- Convert music CD data to WMA format and store to memory card using Windows Media® Player.

1  ⇒ **Settings** ⇒  ⇒ **External Connection** ⇒  ⇒ **USB Mode Setting** ⇒  ⇒ **MTP Mode** ⇒ 

2 Connect handset to your PC with a USB cable

Music can now be transferred by operation from your PC. See the Help for “Windows Media® Player” for details.

3 Transfer WMA data from your PC to memory card

4 Once transferred, remove USB cable from your PC and handset Remove from PC according to method for the OS.

Note

- Windows Media® Player 10 is unsupported. Use Windows Media® Player 11.

Tip

- After transferring WMA data, return *USB Mode Setting* to *Communication Mode*.
